CITIZENS UTILITIES CO.

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commision, held at its office in the City of Philadelphia, Pa., on the 5th day of April 1946.

Citizens Utilities Company ("Citizens"), a registered holding company, has filed an application pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 requesting an order directing that it has ceased to be a holding company and that its registration has ceased to be in effect.

After appropriate notice a hearing was held with respect to the application. No one appeared in opposition to the application.

The record indicates that subsequent to its registration on December 1, 1935 Citizens and its subsidiaries have disposed of the following assets:

On December 1, 1935 Citizens sold all of the capital stock of Compania De Gas De Nogales, formerly an electric utility subsidiary of Citizens operating in Nogales, Mexico, to Eduardo D. Morales of Nogales, Mexico.

In July 1937, all of the assets of Public Utilities Kansas Corporation, an electric utility subsidiary of Citizens, were transferred to Citizens.

On February 24, 1938 Citizens sold to the City of Goodland, Kansas, its electric distribution system in and about Goodland, Kansas. The balance of its electric equipment and property in and about Goodland, Kansas was subsequently disposed of from time to time.

In August 1938 Newport Electric Corporation, an electric utility subsidiary of Citizens, sold all of its assets situated in Canada to Lake Electric Corporation and on September 12, 1938 its remaining assets were transferred to Citizens.

On December 22, 1938 Citizens sold its previously abandoned and dismantled properties about Pocatello and Alameda, Idaho to Idaho Power Company.

On December 29, 1939 the electric properties in and about Brewster, Kansas, which had been transferred by Public Utilities Kansas Corporation to Citizens, were sold to Inland Utilities Company.

On November 16, 1940 Princeton Gas Company, an electric utility subsidiary operating in Princeton, Illinois, sold its physical properties to Princeton Gas Service Company.

On January 18, 1941 Central American Power Corporation, an electric utility subsidiary, sold all of its physical properties, all located in the Republic of Nicaragua, to Ferrocarril Del Pacifico De Nicaragua, a corporation.

On May 29, 1942 Public Utilities California Corporation, a subsidiary of Citizens, sold all of its electric utility and water assets in and about Capitola and Boulder Creek, California, to Coast Counties Gas and Electric Company and on May 31, 1945 Public Utilities California Corporation sold its remaining utility properties located in and about Crescent and Smith River, California to California-Oregon Power Corporation.

We find that, as a result of the foregoing transactions, Citizens Utilities Company no longer owns, holds or controls, directly or indirectly, any subsidiary company which is a public-utility company or holding company as defined in the act, and that its business is limited to that of an electric utility company and of a gas utility company, and to the operation of telephone and water properties, through its subsidiary, Public Utilities California Corporation, and of a cold storage plant, dock and wharf in the City of Ketchikan, Alaska, through its subsidiary, Ketchikan Cold Storage Company.

It is therefore ordered, That said applicant has ceased to be a holding company and that the registration of said holding company cease to be in effect.

By the Commission.

ORDER AMENDING ORDER OF DECEMBER 22, 1941

The Commission having previously, by order entered December 22, 1941, in these proceedings (10 S.E.C. 814 (1941), Holding Company Act Release No. 3226), approved an application-declaration regarding certain security issues and other transactions, and having at the time of such approval imposed the following condition:

• • • that Wisconsin Electric Power Company shall notify the Commission thirty days before it declares any cash dividend on its common stock, such notice to include the amount of the proposed dividend, its declaration, record, and payment date, an estimate of cash receipts and disbursements for the calendar year in which the dividend is proposed to be declared and the immediately following calendar year, and the most recent available balance sheet, whether or not said balance sheet is audited.

Wisconsin Electric Power Company having requested, by letter dated February 26, 1946, that said condition be modified, on the ground that the cash position of Wisconsin Electric Power Company has, since 1941, so much improved as to warrant removal of such condition; and it appearing to the Commission that such request may appropriately be granted at this time;

5. Whether, generally, the terms and conditions of the proposed exchange offer affecting the Preferred Stock of Union Electric Company of Missouri are fair and reasonable and in the public interest and in the interest of investors and consumers.

THE TROY SUNSHADE CO.

ADJUSTMENT OF CEILING PRICES

Order No. 85 under Revised Supplementary Order No. 119 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Troy Sunshade Company, Troy, Ohio, may compute its adjusted ceiling prices for all articles of metal household furniture which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 17.7 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this revised order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this revised order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this revised order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8, under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how

he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this revised order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this revised order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this revised order, showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this revised order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this revised order are hereby denied.

(f) This revised order may be revoked or amended by the Price Administrator at any time.

(g) This revised order shall become effective on April 8, 1946.

Issued this 8th day of April 1946.

Administrator.

Garden umbrellas	15.5
Metal tables	14.1
Metal chairs	14.1
Chaise	14.1

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on April 8, 1946.

[MPR 586, Order 2]

MERCHANDISE WAREHOUSING IN MEMPHIS, TENN.

STORAGE AND TERMINAL SERVICES

For the reasons set forth in the accompanying opinion and under the authority vested in the Price Administrator by section 13 (c) of Maximum Price Regulation No. 586, it is ordered:

(a) *Election.* (1) Within thirty days after the effective date of this order every person performing merchandise warehousing services in Memphis, Tennessee, subject to Maximum Price Regulation 586 must elect to comply with either paragraph (b) or paragraph (c) of this order, with respect to his merchandise warehousing services.

(2) Notice of election shall be filed with the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C.

(3) If the warehouseman's election is to use the specific charges in paragraph (c) he may place them in effect (subject to (c) (6)) any time after his election and before the time for filing election expires.

(4) If the warehouseman elects to be governed by paragraph (b), that paragraph must be fully complied with.

(5) Elections must cover the entire merchandise warehousing business. A warehouseman cannot elect (b) in part, and (c) in part.

(6) If any warehouseman subject to this order does not timely file an election, the maximum charges set out in paragraph (c) become effective as his maximum charges (subject to (c) (6) as to goods in storage) thirty days after the effective date of this order.

(7) The term "merchandise warehousing" covers services generally included in the reception, storage, protection handling and shipment of commodities not requiring refrigeration. It applies to merchandise warehousing for commercial accounts and for Government agencies other than those specified in Supplementary Storage Regulation 4.

It does not cover cold storage, tank storage of liquid commodities, bulk storage of grain, cotton warehousing and cotton compressing services, storage of household goods, or storage for Government agencies covered by Supplementary Storage Regulation No. 4. The term includes pool car distribution only when performed at or from the same establishment where storage services are also offered. It does not include any cartage services even if these are subject to MPR 586.

(b) *Prices established under sections 5, 6, 7 or 8 of Maximum Price Regulation 586.* (1) A warehouseman who elects to maintain his March 1942 prices as established or modified under sections 5, 6, 7 or 8, may do so provided he files such an election as set out under paragraph (a) of this order.

The election must be accompanied by three copies of a complete statement of such charges. To be complete the statement must contain both actual charges made in March 1942, and a complete basis of offering charges for all merchandise warehousing services actually in effect in March 1942. All purchaser classes must be clearly defined. Each rate must bear a clear indication of the paragraph of section 5, or the application order, etc. under the other sections of MPR 586 used as authority for that rate. In case rates are reported as established under section 5 (e), the name and address of the competitor shall be given.

(2) Specific rates entitled to confidential treatment under section 12 (b) (3) must be so marked and submitted on separate sheets of paper.

(3) Prices established under this paragraph (b) are still subject to section 13 (c) if found inaccurate.

(c) *Specific maximum charges.* If the maximum charges set out below become effective as provided in paragraph (a) of this order, they supersede maximum charges otherwise established, whether higher or lower. These are maximum charges and lower charges may be made, offered or paid.

(1) *Definitions*—(i) *Handling* covers the ordinary labor and duties incident to receiving goods at warehouses, unloading cars, receiving goods from the tail gate of trucks, stowing, reloading cars (in the case of carload shipments only), and delivering goods to the tail gates of trucks outbound. Handling charges are billed with the storage for the first month.

Carload handling rates apply only when both the handling in, and the handling out is in lots of at least 10,000 pounds. If carloads received with the understanding that they will be reshipped in lots of at least 10,000 pounds are later broken up, the difference between the CL handling rate and the regular handling rate accrues on the entire car at the time the first lot of less than 10,000 pounds is handled out.

(ii) *Storage.* All goods are stored on a month-to-month basis. A storage month shall extend from a date in one calendar month to, but not including, the same date of the next and all succeeding calendar months; if there be no corresponding date in the next succeding calendar months, it shall extend to and include the last day of the month. The warehouseman, by agreement with the customer, may assess storage charges on a pro-rated system or monthly balance system, instead of the customary date basis: A full month's storage may be assessed on all goods received during the first fifteen days following inventory date; one-half month's storage will be assessed on all goods received from the 16th day following inventory date to inventory date, then a full month's storage will be assessed on goods on hand at the beginning of the next succeeding month.

(iii) *Storage rates.* Except as provided above for half months, full monthly storage rates set forth in this regulation may be charged for each storage month or fraction thereof. Charges for storage accrue on the first day of each storage period.

(iv) *Distribution.* Maximum charges for distribution of pool cars include all charges for unloading, assorting and delivering to consignees or outbound carriers at the warehouse platform, and such marking, sorting and preparation of shipping documents as may be necessary.

Storage charges may be assessed on goods remaining on hand more than seventy-two hours (not including Sunday or holidays) after notice to consignee. Levelling stopping-in-transit cars may be charged for as extra labor under (c) (4) (iii).

(2) *Maximum class rates.* The following class rates in cents per 100 pounds apply on handling, carload handling, storage, and distribution as defined in above paragraph (c) (1). If rates for the particular commodity are shown below in paragraph (c) (3), these class rates do not apply. Charges set forth in paragraph (c) (4) may be added to the extent there indicated, if those services are actually performed.

Minimum handling charge (on small packages) 9/10 cent each.
Minimum distribution charge (on small packages) 1½ cents each.

How to apply the class rates to obtain the rate per 100 pounds:

1. Obtaining the dimensions of the package in inches by careful measurement.

2. Obtain the volume in cubic inches by multiplying the three dimensions. If the packages are irregular the volume of an average package may be used by taking the volume of a pile of goods and dividing by the number of packages in the pile.

3. Obtaining the weight of the package.

4. Compute the density by dividing the number of cubic inches as ascertained (2 above) by weight of package in pounds (3 above).

5. Find the rate per 100 lbs. for storage and handling by applying the density (cubic inches per pound) as ascertained (see 4) to the class rate tables above.

Example: A package of the following dimensions and weight:

1. Dimensions: 36 in. x 24 in. x 75 in.
2. Volume: 64,800 cu. in.
3. Weight: 730 lbs.
4. Density: 64,800÷730=88.8 cu. in. per lb.
5. Class E: Storage 6¢ per 100 lbs., CL Handling 7¢ per 100 lbs., Handling 8.8¢ per 100 lbs., Distribution 9.5¢ per 100 lbs.

Minimum computing weights for barrels, carboys, kegs or drums. In computing storage rates only for barrels, carboys, kegs or drums, the following will be considered as minimum computing weights. Actual weights shall be used if greater than the minimum computing weight.

(3) *Commodity rates.* The commodity rates set forth below apply to storage and handling services as defined in paragraph (c) (1) whether higher or lower than the class rates set forth in paragraph (c) (2). Additional charges for special services set forth in (c) (4) may be added if these services are actually performed. Rates are stated in cents per 100 pounds except where specifically noted as otherwise:

	Storage	Handling
Sugar (in 100 lb. bags):		
CL in and CL out	2.5	3.75
CL in and LCL out	5	6
Dried peas and beans (in 100 lb. bags):		
CL in and CL out	2.5	3.75
CL in and LCL out	5	6
Rubber, natural or synthetic	5	6
Cigarettes and tobacco products—complete service of storage, handling and shipping		18

(4) *Maximum rates for special services.* The following additional charges apply only when the particular services involved are performed:

(i) *Bracing or packaging materials:* The user of the service may reimburse warehousemen for the additional costs for bracing or packing materials or other special supplies when required.

(ii) *Charges for overtime.* Maximum rates named in this order contemplate receiving or withdrawing of goods during regular working hours. In the event the user of the services in emergencies requests receipt or delivery of particular goods at other times an additional charge of 25% of the handling rates for receipt or delivery outside working hours, or 50% for receipt or delivery on nonworking days, may be made.

(iii) *Extra labor.* Such labor when furnished, on customer's request, for sampling, repiling, inspection, special physical warehouse checking, or other services not provided for herein: $1.00 per man-hour, with a minimum charge of 50 cents.

(iv) *Weighing.* For weighing small lots (less than 10,000 lbs.), 1 cent per package, with a minimum charge of 10 cents. For weighing large lots, $1.00 per man-hour, with a minimum charge of 50 cents.

(v) *Turning evaporated milk.* 1 cent per package.

(vi) *Collection of money.* If the warehouseman is required to collect money on behalf of customers, an additional charge of one-half of one percent, with a minimum of 25 cents per collection, may be made.

(vii) *Issuance of negotiable warehouse receipts.* If the warehouseman is requested and issues a negotiable warehouse receipt, an additional charge of 50 cents may be made for the first receipt, and 25 cents for each additional receipt per lot.

(viii) *Reporting marked weights or numbers.* If required to report marked weights or numbers, 1 cent per package, minimum 10 cents per order.

(ix) *Payment of freight charges.* One-half of one per cent, minimum 10 cents per freight bill.

(x) *Shipping charge.* One-half cent per package, minimum 15 cents per shipment (not applicable in connection with distribution rates or carload shipments).

(5) *Conditions.* The maximum charges named in this paragraph (c) contemplate the following conditions and practices: (When such conditions and practices are not specified in this paragraph (c) they may conform to "Standard Contract Terms and Conditions" as adopted April 30, 1926).

(i) *Demurrage.* If the warehouseman fails to handle goods tendered (not in excess of any prior agreement with the user of the service as to the amount of space available or the number of cars that can be handled) within 48 hours after receipt of notice of arrival by rail, and any demurrage accrues as a result thereof, the warehouseman shall pay any and all such demurrage charges.

(ii) *Liability for care of goods.* Each warehouseman shall be liable for any loss or damage to the goods in his possession or control incident to performance of these services caused by his failure to exercise such care in regard to them as a reasonably careful owner of similar goods would exercise, but he shall not be liable for any loss or injury to the goods which could not have been avoided by the exercise of such care.

The measure of liability of the warehouseman is limited as to each package to 500 times the amount of the monthly storage charge for that package unless the warehouseman is specifically notified in writing by the user of the service of a higher valuation by him, in which case the maximum storage rate may be increased by an amount equal to one-tenth of one percent per month of the excess valuation. This limitation in the measure of liability shall be null and void in the case of gross negligence, willful acts, or conversion.

(c) *Loading and bracing requirements.* Each warehouseman shall load and brace all outgoing goods prepared by him under this order in accordance with good commercial practice. The warehouseman shall be liable for the payment of any damage to any goods caused by the failure to load and brace in accordance with acceptable standards.

(6) *Application of rates to goods already in storage.* Maximum storage rates named in this paragraph (c) become effective as to goods already in storage with the beginning of the first storage period on or after the rates become effective (as provided in paragraph (a)). However, no handling charges in addition to the charges already accrued may be made for performing outgoing handling charges on goods already in store.

This order shall become effective April 15, 1946.

Issued this 9th day of April 1946.

Administrator.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

NYE-WAIT CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's maximum prices.* (1) Nye-Wait Company, Inc., of Auburn, New York, may increase by 11.9 percent, its maximum prices (exclusive of all permitted increases or adjustment charges), properly established under § 1352.1 of Revised Price Schedule No. 57 for sales of any article of pile-weave wool floor covering which it manufactures: *Provided, however,* That the manufacturer shall state separately on its invoice, as an adjustment charge, that portion of its adjusted maximum price which is equal to the adjustment charge authorized by § 1352.1a of Revised Price Schedule No. 57.

(2) The adjustment authorized in the preceding paragraph supersedes the industry-wide adjustment authorized by § 1352.1a of Revised Price Schedule No. 57.

(b) *Maximum prices of purchasers for resale.* Resellers of an article which the manufacturer has sold at an adjusted maximum price determined under this order, shall compute their maximum prices as follows:

(1) *Distributors whose sales are covered by Maximum Price Regulation No. 65.* A distributor whose sales are covered by Maximum Price Regulation No. 65 may increase his maximum prices established under § 1352.1 of Maximum Price Regulation No. 65 by the same percentage amount as that by which the manufacturer increased his maximum prices to the same class of purchaser under this order: *Provided, however,* That the distributor shall state separately on his invoice, as an adjustment charge, that portion of his adjusted maximum price which is equal to the adjustment charge authorized by § 1352.51a of Maximum Price Regulation No. 65.

(2) *Wholesalers and retailers whose sales are covered by the General Maximum Price Regulation.* A wholesaler or retailer whose sales are covered by the General Maximum Price Regulation, who delivered or offered for delivery during March, 1942, an article which meets the definition of "most comparable commodity" set forth in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his maximum retail price by using as his cost, the price appearing on his supplier's invoice for the article, not including any amount specified as an adjustment charge, and adding to such invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in § 1499.3 (a) of the General Maximum Price Regulation.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620–759 with regard to how he determined his maximum price for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If a wholesaler or retailer whose sales are covered by the General Maximum Price Regulation cannot determine his maximum resale price under the above method, he shall apply to the Office of Price Administration for the establishment of his maximum resale prices under § 1499.3 (c) of the General Maximum Price Regulation. With this application he shall furnish a copy of his supplier's invoice to him. Maximum resale prices established under that section will reflect the supplier's adjusted maximum price in accordance with the terms of this order.

(3) *Retailers whose sales are covered by Maximum Price Regulation No. 580.* Retailers whose sales are covered by Maximum Price Regulation No. 580 shall determine their maximum prices in the manner provided by that regulation.

(4) The provisions of Supplementary Order No. 153 shall not apply to resales of articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials in effect during March, 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum resale prices. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 9th day of April 1946.

Issued this 8th day of April 1946.

[Region II Order G–2 Under SO 133]

CLARK AND HAMMER, INC.

AUTHORIZATION OF INCREASE IN MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 4 and 6 of Supplementary Order No. 133; it is ordered:

(a) *Manufacturer's maximum prices.* Clark & Hammer, Inc., 85 Academy Street, Belleville, N. J., may increase its properly established maximum prices under Maximum Price Regulation No. 188, for sales and deliveries to each class of purchaser of venetian blinds, which it manufactures, by a percentage increase not in excess of 28% of such maximum prices.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of such articles, which the manufacturer has sold at adjusted maximum prices shall determine their maximum resale prices, as follows:

(1) A purchaser for resale who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his maximum resale price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his maximum resale price, for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his maximum resale price under the above method, he shall apply to the Office of Price Administration for the establishment of his maximum resale price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum resale prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(d) *Reports to be filed.* The manufacturer shall file the report, described in section 5 of Supplementary Order No. 133, with this Regional Office of Region II, Office of Price Administration, 350 Fifth Avenue, New York 1, N. Y.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on March 26, 1946.

Issued this 26th day of March 1946.

LEO F. GENTNER,
Regional Administrator.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of Region II by the Emergency Price Control Act of 1942, as amended, by General Order No. 68, as amended, and by Revised Procedural Regulation No. 1, which authority has been duly delegated by such Regional Administrator to the Assistant to the Regional Administrator in charge of the New York District Office, it is hereby ordered:

SECTION 1. *What this order covers.* This adopting order under Basic Order No. 1, as amended, under General Order 68, as amended, covers sales by all persons to ultimate users or to purchasers for resale on an installed basis of ready-mix concrete of the types and compositions set forth in Schedules A, B, C, D, and E hereto annexed. All provisions of Basic Order No. 1, as amended under General Order No. 68 as amended are adopted in this order and are just as much a part of this order as if specifically set forth herein. If said Basic Order No. 1, as amended, is further amended in any respect the provisions of said order, as amended, shall likewise without further action become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1, as amended, under General Order 68 as amended and should be familiar with the provisions of said order.

SEC. 2. *Territory covered by this order.* The geographical area covered by this order consists of the counties of New York, Bronx, Queens, Kings, Westchester, Nassau, and Richmond, all in the State of New York.

SEC. 3. *Maximum prices.* The maximum prices for ready-mix concrete covered by this order are set forth in Schedules A, B, C, D, and E, hereto annexed and made a part of this order. Schedule A fixes prices on sales in the counties of New York, Bronx, and Queens. Schedule B fixes prices on sales in the county of Kings. Schedule C fixes prices on sales in the county of Westchester. Schedule D fixes prices on sales in the county of Nassau. Schedule E fixes prices on sales in the county of Richmond.

SEC. 4. *Discounts, allowances, and terms of sale.* The delivery conditions, terms of sale, discounts and differentials are set forth in Schedules A, B, C, D, and E, hereto annexed.

SEC. 5. *Relationship of this order to Basic Order No. 1, as amended, under General Order No. 68, as amended, and to General Maximum Price Regulation and other maximum price regulations.* As previously stated all provisions of Basic Order No. 1, as amended are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by Maximum Price Regulation 592 or by any other applicable regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of Maximum Price Regulation 592 or any other applicable regulation or order shall remain applicable to sales covered by this order.

In the absence of any description, the maximum price shall be the lowest price that can be computed under the applicable schedule of this order.

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order No. 130]

PART 57—APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY UNDER SECTION 7 OF THE NATURAL GAS ACT AS AMENDED

NOTICE AND HEARINGS ON APPLICATIONS FOR NON-"GRANDFATHER" CLAUSE CERTIFICATES

MARCH 29, 1946.

The Commission, pursuant to authority vested in it by the Natural Gas Act, particularly section 16 thereof, and finding such action necessary and appropriate for carrying out the provisions of said act, hereby adopts, promulgates, and prescribes the following amendments to the "Provisional Rules of Practice and Regulations under the Natural Gas Act, with Approved Forms, Effective July 11, 1938":

Part 57, *Application for Certificates of Public Convenience and Necessity under section 7 of the Natural Gas Act as amended* be and it is hereby amended by adding a new section designated as § 57.10 as follows:

NOTICE AND HEARING ON APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY FOR CONSTRUCTION, EXTENSION, ACQUISITION, OPERATION, ETC. (NON-"GRANDFATHER" CLAUSE CERTIFICATES) UNDER SECTION 7 OF THE NATURAL GAS ACT AS AMENDED

§ 57.10 *Notice and hearings on applications for non-"grandfather" clause certificates.* Upon the filing of an application for a certificate of public convenience and necessity under section 7 of the Natural Gas Act as amended for construction, extension, acquisition, operation, etc. (non-"grandfather" clause certificate), notice of such filing will be given by the Commission to all interested State commissions, municipalities, senators and governors of States, and any other persons, firms, corporations, organizations, or governmental agencies apparently interested or whose participation in the proceeding may be in the public interest, by causing such notice to be published in the FEDERAL REGISTER and by mailing copies thereof to persons, firms, corporations, organizations or agencies specified above, deemed by the Commission, in its discretion, to have a sufficient interest to be entitled to notice. Any person, firm, corporation, organization, or governmental agency desiring to receive such notice of applications, may, upon request, be placed upon a list to be maintained by the Commission and shall thereupon be mailed copies of all such notices of applications.

Such notices of applications shall be drawn in sufficient detail to advise all those interested (a) as to the nature and general description of the facilities proposed to be constructed, extended, acquired, or operated, including the size and approximate cost of the line or other facilities; (b) the capacity or increase in capacity of facilities; (c) the source of any new or additional gas supply; (d) the nature of the service proposed to be rendered, the companies or communities proposed to be served, and the estimated volume or increase in volume of annual gas sales; and (e) the claimed necessity for such proposed construction, extension, acquisition, operation or service. Such notice shall further fix a time not to exceed 15 days within which any person or party desiring to be heard or make any petition or protest with reference to the application may file a protest, request for hearing, notice of intention to intervene, or petition to intervene. No protest may be filed after the time fixed in the notice except by permission of the Commission granted upon a showing of reasonable grounds for failure to file the protest within the time allowed.

If a protest, request for hearing, notice of intention to intervene, or petition to intervene is filed within the time specified in the notice of application, in the judgment of the Commission raising an issue of substance requiring a hearing, the Commission will set the matter down for hearing as to such issue, pursuant to § 50.60 of this chapter.

If no protest, request for hearing, notice of intention to intervene, or petition to intervene is filed within such time, the Commission will set the case down for hearing on a day certain by an order which will state that, if no protest by permission as above provided or petition to intervene has been filed, or intervention allowed as provided in § 50.14 of this chapter, prior to the date fixed for hearing, or if the protest or petition filed, in the judgment of the Commission, raises no issue of substance, the Commission may dispose of the application without contested hearing by order upon the application and evidence filed or available to the Commission and such additional evidence as the Commission may require to be filed for its consideration. Such order for hearing shall be published in the FEDERAL REGISTER and copies thereof mailed to all persons or parties to whom the notice of filing applications was mailed or who, by protest or otherwise, have evinced a sufficient interest. If, thereafter, no protest or petition to intervene is filed or intervention allowed, or if the protest or petition filed raises no issue of substance, as above provided, the Commission may dispose of the application without contested hearing by order as above provided.

The amendments to the "Provisional Rules of Practice and Regulations Under the Natural Gas Act, With Approved Forms, Effective July 11, 1938" adopted, promulgated, and prescribed by this order shall become effective April 20, 1946. The Secretary of the Commission shall cause publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T. D. 51437]

PART 14—APPRAISEMENT

EXAMINATION OF MERCHANDISE—SHELLFISH

Examination of less than 1 package of every 10 packages of certain commodities authorized; § 14.1 (b), Customs Regulations of 1943, as amended by T. Ds. 50959, 51090, 51269, and 51315, further amended.

It is my opinion that the examination of less than 1 package of every 10 packages, but not less than 1 package of every invoice, of the merchandise hereinafter described, if such merchandise is (1) imported in packages the contents and values of which are uniform, or (2) imported in packages the contents of which are identical as to character although differing as to quantity and value per package, will amply protect the revenue:

Shellfish, fresh or frozen, dried, in brine, or preserved in any manner.

Therefore, by virtue of the authority contained in sections 499 and 624 of the Tariff Act of 1930, as amended (19 U.S.C. secs. 1499 and 1624), I do by this special regulation permit and authorize a less number of packages than 1 package of every 10 packages, but not less than 1 package of every invoice, of the above-described merchandise to be examined.

This special regulation shall not be construed to preclude the examination of packages in addition to the minimum number hereby permitted to be examined if the collector or the appraiser shall deem it necessary that a greater number of packages be examined.

In view of the foregoing, § 14.1 (b), Customs Regulations of 1943 (19 CFR, Cum. Supp., 14.1 (b)), as amended by T. D. 50959 (8 F.R. 15361), T.D. 51090 (9 F.R. 7743), T.D. 51269 (10 F.R. 8683), and T.D. 51315 (10 F.R. 12037), containing a list of merchandise as to which collectors are especially authorized to designate for examination less than 1 package of every 10 packages, is hereby amended by inserting in said list in proper alphabetical position the following:

Shellfish, fresh or frozen, dried, in brine, or preserved in any manner.

The number of this Treasury decision shall be added as a marginal notation to § 14.1 (b).

(Sec. 499, 46 Stat. 728, secs. 15, 16 (a), 52 Stat. 1084, sec. 624, 46 Stat. 759; 19 U.S.C. 1499, 1624)

[SEAL] FRANK DOW,
Acting Commissioner of Customs.

Approved: April 8, 1946.

O. MAX GARDNER,
Acting Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5505]

PART 180—LIQUORS AND ARTICLES FROM PUERTO RICO, VIRGIN ISLANDS, AND PHILIPPINE ISLANDS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 3360, Internal Revenue Code, §§ 180.47, 180.48 and 180.49 of Regulations 24 (26 CFR, Part 180) are hereby amended to read as follows:

§ 180.47 *Application, Form 487–B.* Application for permit to ship tax-paid liquors and articles shall be made by the shipper for each consignment on Form 487–B, in septuple. All the information required by these regulations and called for by the form shall be furnished. In addition thereto, the shipper shall note separately in Part 1 of such forms the amounts of the basic internal revenue

tax and rectification tax paid on the merchandise. All copies of the form shall be delivered to the insular internal revenue agent who will execute his certificate of tax payment thereon and forward all copies to the treasurer within sufficient time to allow for the issuance of permit and customs inspection as provided by § 180.48.

§ 180.48 *Issuance of permit, Form 487–B, and customs inspection.* If the application has been properly executed and the treasurer is satisfied that all internal revenue taxes due on the liquors or articles covered thereby have been paid, he will execute his permit on all copies thereof, retain one copy of the form, return two copies to the shipper and send four copies to the collector of customs in Puerto Rico. The shipper will submit the two copies of the Form 487–B to the collector at least six hours prior to the intended lading of the merchandise. The collector will then inspect the merchandise covered by the Form 487–B after which he will execute his certificate on Part 4 of each copy of Form 487–B indicating all exceptions. If discrepancies appear indicating differences between the quantity covered by Form 487–B and the quantity actually contained in the shipment or the improper taxpayment of the merchandise, he will withhold release of the shipment and notify the treasurer of such discrepancies. Thereupon, such discrepancies must be corrected in the shipping documents and additional tax paid, if required, prior to release of the merchandise. The collector, upon release of the merchandise for shipment, will retain one copy of the Form 487–B, return two copies to the shipper and forward one copy to the deputy collector of Internal Revenue, at San Juan, Puerto Rico. He will also send two copies to the collector of customs at the port of arrival in the United States, one of which should be mailed and the other dispatched on the vessel concerned for the guidance of the inspector who will handle the cargo. After the shipment has been cleared by the collector of customs in Puerto Rico, the shipper shall retain one copy of the Form 487–B and send one copy thereof, with other shipping documents, to the collector of customs at the port of arrival.

§ 180.49 *Action by collector of customs at port of arrival.* Upon receipt of Form 487–B, application and permit to ship tax-paid liquors or articles to the United States, bearing the sworn affidavit of the shipper and the certification of the insular internal revenue agent that all the internal revenue taxes due on the liquors or articles covered thereby have been paid and the copies of Form 487–B from the collector of customs in Puerto Rico, the collector of customs at the port of arrival will inspect the merchandise to determine whether the quantity specified on the Form 487–B is contained in the shipment. He will execute his certificate on Part 5 of each copy of Form 487–B received and indicate thereon any exceptions found at the time of discharge. If he finds that the full amount of the taxes due has not been paid, he will require the difference to be paid prior to release of the merchandise in accordance with the applicable provisions of these regulations. When the proper inspection of the merchandise has been effected and any additional taxes found to be due on the liquors or articles collected, the merchandise will be released. Two of the three copies of Form 487–B will be retained by the collector of customs and will be available for inspection by internal revenue officers. The other copy will be forwarded to the deputy collector of Internal Revenue at San Juan, Puerto Rico. The carrier of the merchandise specified herein shall at the time of unlading at the port of arrival in the United States segregate and arrange the cases of liquors or articles for convenient customs examination and will assume any expense incurred in connection therewith.

(Sec. 3360, I. R. C.)

Commissioner of Internal Revenue.
W. R. JOHNSON,
Commissioner of Customs.

Approved: April 9, 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Schedule I, as Amended Apr. 10, 1946]

CRITICAL PRODUCTS

(a) *Introduction.* The table in this Schedule lists certain of the critical products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the national economy. (This Schedule supersedes former Directions 1 through 5 and 7 through 12 to PR–28 covering critical products.) When effective assistance of other kinds is not practicable, the CPA may assign CC preference ratings under paragraph (e) of Priorities Regulation 28 for material which is needed to sustain or increase the production of these products. In addition to the rules explained in paragraph (b) below, the general rules in paragraphs (c) and (d) of Priorities Regulation 28 governing the application for and assignment of CC ratings are also applicable. Especially important is paragraph (d) (1) of Priorities Regulation 28, requiring a determination that the use of substitute and less scarce materials is not practicable, that reasonable efforts have been made to get the required item without a rating, and that a rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and available without a rating.

(b) *Explanation of table.*

Column I—Critical products. Column I lists the critical products for which CC ratings may be granted to sustain or increase production. When "specialized machinery" for another critical product is listed in Column I, it includes only machinery and equipment designed solely for the production of that critical product. It does not include general types of equipment suitable for other use even though a particular piece of equipment is designed and built expressly for a producer of the critical product.

Column II—Persons eligible. Column II states the persons who may apply for CC ratings. Where Column VI indicates that CC ratings may be assigned for construction, the builder or contractor may apply instead of the person listed.

Column III—Production materials. (1) If the word "yes" appears in Column III, the CPA may assign CC ratings to the person named in Column II to get production materials needed to make the item listed in Column I regardless of the applicant's minimum economic rate of operation. Where the applicant regularly sells materials as maintenance, repair or operating supplies for the item he makes, CC ratings may also be assigned to him for such supplies or for materials needed to make them. Applications for CC ratings for textile fabrics or yarns should be made under Priorities Regulation 28A, and CC ratings may be assigned under paragraph (d) of that Regulation in accordance with subpargaraph (d) (5) (i).

(2) If the word "no" appears in Column III, CC ratings will be assigned for production materials only as provided in Priorities Regulation 28. The same rule applies to any production materials expressly excluded from Column III.

Column IV—Capital equipment. (1) If the word "yes" appears in Column IV, the CPA may assign CC ratings to the person named in Column II to get capital equipment which either (i) will result in a substantial increase in production of the item listed in Column I, or (ii) is needed to replace present operating equipment which is in danger of imminent breakdown.

(2) Where the word "no" appears in Column IV, CC ratings will be assigned for capital equipment only as provided in Priorities Regulation 28. The same rule applies to any capital equipment expressly excluded from Column IV.

Column V—MRO. (1) If the word "yes" appears in Column V, the CPA may assign CC ratings to the person named in Column II to get maintenance, repair and operating supplies (MRO) which he needs to use in making the item listed in Column I.

(2) If the word "no" appears in Column V, CC ratings will be assigned for MRO only as provided in Priorities Regulation 28.

Column VI—Construction. (1) If the word "yes" appears in Column VI, the CPA may assign CC ratings to the person named in Column II, or to his builder, for material needed for incorporation in new plants or in expanded or modernized old ones where increased production of the item listed in Column I will result, or where the construction is necessary to prevent a loss of production.

(2) If the word "no" appears in Column VI, CC ratings will be assigned for construction materials only as provided in Priorities Regulation 28.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 9]

USE OF HH RATINGS FOR WARM-AIR FURNACES FOR USE IN THE RECONVERSION HOUSING PROGRAM

The following direction is issued pursuant to Priorities Reg. 33:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of building materials and building supplies for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *Purpose of this direction.* Priorities Regulation 33 provides for the assignment to builders of HH preference ratings to secure materials, listed in Schedule A of that regulation, which are required for use in the Reconversion Housing Program. Among these items are warm-air furnaces. This direction explains under what circumstances orders bearing HH ratings for warm-air furnaces must be accepted and also what the restrictions are in connection with the sale of such furnaces by producers, distributors, jobbers, and dealers.

(b) *Definitions.* For the purpose of this direction:

(1) "Warm-air furnace" means any direct-fired air heating unit which is designed for the purpose of heating the interior of a building, including but not limited to, any heating device commonly known as a gravity or forced warm-air furnace for use with or without air distribution pipes. But, warm-air furnace does not mean a domestic heating stove or a floor or wall furnace.

(2) "Producer" means a person owning or operating facilities in which warm-air furnaces are manufactured, fabricated or assembled.

(3) "Distributor, jobber, or dealer" means a person who buys warm-air furnaces from a producer for resale. If a producer owns and operates factory branch sales offices other than his central factory sales office, such offices shall be considered to be distributors, jobbers, or dealers.

(c) *Prohibition on extension of HH ratings by distributors.* A distributor, jobber, or dealer who receives an HH rated order for warm-air furnaces shall not extend the rating.

(d) *Use of HH rating.* Any person who has been authorized to use an HH rating under Priorities Regulation 33 may use the rating to get warm-air furnaces, subject to the provisions of that regulation.

(e) *Handling of HH rated orders by producers.* A producer who sells warm-air furnaces only to distributors, jobbers, or dealers need not accept HH rated orders for such furnaces. This is the general rule. But, a producer who sells any portion of his production to persons other than distributors, jobbers, or dealers, must sell that portion according to the following rule: Beginning April 15, 1946, at least seventy per cent (70%) of all warm-air furnaces sold or delivered by the producer to persons other than distributors, jobbers, or dealers must be sold or delivered on HH rated orders.

(f) *Set-asides by distributors, jobbers, or dealers.* An adequate reserve stock of warm-air furnaces must be maintained by distributors, jobbers, and dealers to fill orders bearing HH ratings. Consequently, on April 15, 1946, a distributor, jobber, or dealer must set aside and reserve for a period of twenty-one days, to fill orders bearing HH ratings, not less than 70% of his warm-air furnace inventory on that date. After April 15, 1946, a distributor, jobber, or dealer, must further set aside and reserve for a period of twenty-one days, to fill orders bearing HH ratings, not less than 70% of the warm-air furnaces in each shipment received by him from the producer. Until the end of each such twenty-one day period, referred to above, he must accept all HH rated orders up to the reserved quantity regardless of whether such orders call for delivery within the twenty-one day period, but he need not accept HH rated orders for warm-air furnaces in excess of the reserved quantity.

Any warm-air furnaces which the distributor, jobber, or dealer is not required to set aside, and any warm-air furnaces in the set-aside for which HH ratings are not received in the set-aside period, may be disposed of without regard to HH ratings. Orders rated AAA, MM or CC must be filled from this balance in that order of preference in accordance with Priorities Regulation 1. A distributor, jobber, or dealer may not refuse to accept an HH rated order on the ground that he has no warm-air furnaces in stock, but he must accept the order for delivery out of the 70% set-aside of a later shipment from the producer.

(g) *Calculations on basis of producer's billing price.* Calculations of quantities shall be made on the basis of the producer's billing price to distributors, jobbers, or dealers.

(h) *This direction not applicable to AAA ratings.* Nothing in this direction affects AAA rated orders.

Issued this 10th day of April 1946.

9. In Appendix F, paragraph (b) and the first paragraph of (c) are amended to read as follows:

(b) The seller should then divide the total of these costs by the total number of garments in all lots. The resulting figure is the "average supplier's price" for the garment, unless the garment's body materials consist of chambray, covert, denim, whipcord, cottonade, pincheck, pinstripe, jean, drill, twill or poplin. In this case, the seller should also perform the calculation indicated in (c) below.

(c) For garments made of chambray, covert, denim, whipcord, cottonade, pincheck, pinstripe, jean, drill, twill, or poplin body material, the seller may in some instances make certain additions to the figure found in (b) above. The amount of the addition is determined as follows:

10. In Appendix F, paragraph (c) (2) is amended to read as follows:

(2) For garments made of chambray, covert, denim, whipcord, cottonade, pincheck, pinstripe, jean, drill, twill or poplin which the manufacturer has priced by using the adjustment in Table II of Appendix B, the seller may add to the figure found in (b) above the product which results from multiplying the average number of yards of material used in the garment by the number of cents for that cloth indicated in Column B of Table II in Appendix B.

This amendment shall become effective April 9, 1946.

Issued this 9th day of April 1946.

Chapter XVIII—Office of Economic Stabilization

[Directive 104]

PART 4003—SUPPORT PRICES; SUBSIDIES

COMPENSATORY WAGE ADJUSTMENT SUBSIDY FOR SLAUGHTERERS

The Secretary of Agriculture having submitted to me certain information and recommendations with respect to the need of slaughterers for an additional subsidy to compensate them for increased labor costs resulting from increased wage payments required or authorized by the National Wage Stabilization Board and the Commissioner of Internal Revenue, I hereby find:

A. That in order to secure the maximum necessary production of meat and meat products for military and civilian needs, certain assurances were made to slaughterers with respect to the payment of an additional subsidy to compensate them for such increased labor costs;

B. That in maintaining production of meat and meat products the slaughterers relied upon such assurances; and

C. That the provisions of this directive are necessary in order to effectuate the purposes of the stabilization program and to assure continued maximum production of meat and meat products.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 10155), Executive Order 9651 of October 30, 1945 (10 F.R. 13487), Executive Order 9697 of February 14, 1946 (11 F.R. 1691), and Executive Order 9699 of February 21, 1946 (11 F.R. 1929), *It is hereby ordered:*

1. The Reconstruction Finance Corporation is directed to pay to any slaughterer who was eligible for and received the Reconstruction Finance Corporation basic slaughter subsidy for the February and March accounting periods, an additional subsidy upon certification by the Secretary of Agriculture, or his duly authorized representative, to the Reconstruction Finance Corporation specifying the slaughterer to whom payment shall be made and the amount to be paid such slaughterer.

2. The subsidy shall be paid only to slaughterers who:

(a) Carried on slaughtering operations during the period from January 26, 1946 through March 10, 1946; and

(b) Who, relying upon the anticipated payment of this special subsidy, have maintained normal production to the extent permitted by the available supply of livestock during the period from February 26, 1946 to the date of filing of an application for this special subsidy; and

(c) Who prior to April 25, 1946 or such later date as the Secretary of Agriculture may prescribe, have made increased wage payments to their employees for the period January 26, 1946 through March 10, 1946 pursuant to the orders of the National Wage Stabilization Board dated February 15 and February 21, 1946, or General Pattern Approval Number 1, Meat Packing Industry, issued by the National Wage Stabilization Board on February 25, 1946, or the order of the Commissioner of Internal Revenue, dated February 28, 1946 entitled, "Salary Stabilization Meat Packing Industry"; or,

(d) Who, on or after January 1, 1946, in anticipation of the general wage-scale increase approved by the General Pattern Approval referred to in (c), above, made increased wage payments to their employees consistent with the provisions of that Approval.

The amount of the subsidy to be paid to each slaughterer shall be that amount determined to be necessary to recompense the slaughterer for increased wage costs for the January 26, 1946 through March 10, 1946 period resulting from such increased wage payments. In determining the amount to be paid, adjustment shall be made for the increased value of the slaughterer's inventory resulting from the increased maximum prices permitted by amendments to regulations of the Office of Price Administration, effective March 11, 1946 with respect to all meat and meat products other than canned meat and effective March 14, 1946 with respect to canned meats. There shall be included in the amount of the payment made to each slaughterer an amount equal to the increased wage costs for the above-mentioned period of any subsidiaries of the slaughterer engaged in the production, processing, or distribution of meat and meat products resulting from the increased wage payments referred to above, less the increased value of the inventories of such subsidiaries. Increased wage costs shall be determined only with respect to employees of the slaughterer and its subsidiaries engaged in the purchase of livestock and in the production, processing and distribution of meat and meat products, including supervisory employees and clerical employees, maintenance employees, and any other employees engaged in activities incident, in whole or in part, to the production, processing, and distribution of meat and meat products.

3. Applications for this additional subsidy shall be filed with the Secretary of Agriculture not later than May 25, 1946. The Secretary of Agriculture and the Reconstruction Finance Corporation are authorized and directed to make the determinations required by this directive and to issue such instructions, regulations, or orders, containing such terms and conditions, as they deem necessary to effectuate the provisions of this directive.

Issued and effective this 8th day of April, 1946.

CHESTER BOWLES,
Director.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 10—INSURANCE

TOTAL PERMANENT DISABILITY BENEFITS

§ 10.3121 *Definition of total permanent disability.* Total permanent disability as referred to in a United States Government life insurance policy, is any impairment of mind or body which continuously renders it impossible for the disabled person to follow any substantially gainful occupation and which is founded upon conditions which render it reasonably certain that the total disability will continue throughout the life of the disabled person. The total permanent disability benefits may relate back to a date not exceeding six months prior to receipt of due proof of total permanent disability and any premium paid after receipt of due proof of total permanent disability, and within the six months shall be refunded without interest: *Provided*, That where the insured becomes or has become totally and permanently disabled while outside the continental limits of the United States and because of war conditions could not feasibly file claim therefor, such benefits may relate back to the beginning date of such disability, but not prior to December 7, 1941: *Provided*, That claim therefor is filed within six months after discharge, or the insured's return to the continental limits of the United States, or prior to January 1, 1947, whichever is the earlier.

§ 10.3164 *Total disability provision for United States Government Life Insurance authorized by section 311 of the World War Veterans' Act, 1924, as amended July 3, 1930.* No change in (a).

(b) Pay to the insured a monthly income at the rate of $5.75 for each $1,000 insurance as shown on the face of the policy, on any multiple of $500. Such payments shall be effective as of the first day of the fifth consecutive month of continuous total disability and shall continue to be so payable during such total disability. Any monthly income payments due the insured by reason of total disability and not paid during his lifetime, shall be paid to the beneficiary under the policy.

Total disability as referred to herein is any impairment of mind or body which continuously renders it impossible for the disabled person to follow any substantially gainful occupation. The monthly income payments may relate back to a date not exceeding six months prior to receipt of due proof of such total disability but not prior to the first day of the fifth consecutive month of continuous total disability: *Provided*, That where the insured becomes or has become totally disabled while outside the continental limits of the United States and because of war conditions could not feasibly file claim therefor, such benefits may relate back to the first day of the fifth consecutive month of continuous total disability, but not prior to December 7, 1941; *Provided*, claim therefor is filed within six months after discharge or the insured's return to the continental limits of the United States, or prior to January 1, 1947, whichever is the earlier. Without prejudice to any other cause of disability, the loss of the use of both feet, or both hands, or of both eyes, or of one foot and one hand, or of one foot and one eye, or of one hand and one eye, or the loss of hearing of both ears, or the organic loss of speech, or becoming permanently helpless or permanently bedridden, shall be deemed to be total disability, and monthly income payments for any of these specifically enumerated causes of total disability may be paid from the first day of the fifth consecutive month of such continuous total disability. However such anatomical and functional loss shall not be deemed to be a total disability under a total disability provision originally issued subsequent to December 15, 1936.

No change in remainder of section.

(2) Hospital admission of applicants under § 25.6047 (c) and (d) of this chapter for treatment of nonservice-connected conditions, provided such applicants, except those whose admission is arranged to prevent interruption of training authorized under Public No. 16, 78th Congress, as amended, have made sworn statement upon application, Form P–10, that they are unable to defray expense of transportation.

(3) Hospital admission for observation and examination.

(4) Admission for domiciliary care of applicants under § 25.6047 (c) (2) and (d), *Provided*, Applicants have made sworn statement of inability to defray expense of transportation.

(2) The furnishing of transportation incident to readmission for domiciliary care will require prior consent of the branch medical director or his designate.

(3) No transportation will be furnished a person whose period of exclusion from hospital treatment or domiciliary care for infraction of discipline has not expired, except when emergent hospital treatment is required, and the applicant executes affidavit that he is unable to defray the expense of transportation to accomplish travel for readmission for such emergent hospital treatment.

(c) *Transfer.* Inter-station transfers for treatment, diagnosis or domiciliary care. Prior consent of the branch medical director or his designate will be had for transfers of patients en bloc within the branch area, and of both medical directors or their designates if interbranch transfers are involved. Transfers from hospital treatment to domicil-

iary care, will require prior consent of the branch medical director or his designate.

(e) Out-patient physical examination, subject to exceptions defined in paragraph (g) of this section.

(f) Out-patient treatment for service-connected conditions, including adjunct treatment thereof, and for non-service-connected conditions to prevent interruption of training authorized under Public No. 16, 78th Congress, as amended, subject to exceptions defined in paragraph (g) of this section.

(g) (1) Claimants or beneficiaries residing in the city or town where their out-patient examination is to be made or out-patient treatment rendered, or in such proximity to such city or town that it may be considered their place of residence, will not be furnished transportation for such out-patient service, except that a station vehicle may be used or expense of common carrier transportation allowed, when the fare involved exceeds ten cents each way, and the deputy administrator of the branch area involved approves the exercise of this special authority at selected points.

(2) Transportation for out-patient treatment will not be supplied an applicant whose period of exclusion from hospital treatment or domiciliary care for a disciplinary offense has not expired.

(3) No return transportation will be supplied a claimant or beneficiary who has not completed an out-patient service, unless he executes an affidavit that he is unable to defray the expense of such travel.

(h) All travel for the foregoing purposes, paragraphs (a) to (f) of this section, must be authorized in advance. In emergent hospital admissions, such prior authority may be given by telephone or telegraph, subject to confirmation in writing by the authorizing employee.

(i) The accessories of transportations—meals and lodging en route, Pullman accommodations and accompaniment by an attendant or attendants—may be authorized when determined necessary for the travel.

(j) In furnishing transportation and other expenses incident thereto, as defined, the Veterans' Administration may (1) issue requests for transportation, meals and lodging; or (2) reimburse the claimant, beneficiary or representative for payment made for such purpose, upon due certification of vouchers submitted therefor; or (3) make mileage allowance.

(k) Transportation of beneficiaries of other Federal agencies, incident to medical services rendered upon requests of those agencies, will not be furnished by the Veterans' Administration. Transportation requests incident to medical services rendered Canadian and British Imperial pensioners will be subject to reimbursement by the Department of Veterans Affairs, Canada.

Repairs or replacements of appliances of approved types may be made, as provided, when necessitated in medical judgment, because of wear, loss not due to negligence of the beneficiaries, or for other sufficient reasons.

(b) Dental prostheses are not comprehended as orthopedic and prosthetic appliances.

(c) Beneficiaries supplied prosthetic appliances will be additionally entitled to fitting and training in the use of the appliances; and such service may be obtained under contract, if determined necessary by the branch medical director of the area involved, or his designate. Total irrigable area	56,189

Payment of construction charges on the irrigable lands to which water is announced as available will be at the rate of $2.00 per irrigable acre per annum for the years 1946 through 1949, in lieu of the rate specified in the 1936 contract. The amount for each of these years shall be paid in two equal semiannual installments, the first to be payable on December 31 of the year for which the annual amount is due and the second on July 1 of the ensuing year.

2. Delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

a. *Operation of project works by United States.* The project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given by the Secretary of the Interior (herein called the Secretary) to the several districts which are parties to the 1936 contract (herein called subscribing districts): requiring that the Board of Control be established in accordance with the provisions of the contract of October 14, 1926 between the United States and the Owyhee Irrigation District, as amended, and the contracts between the United States and each of the other subscribing districts; describing the works to be transferred to that Board of Control; and fixing the date when the transfer is to be effective.

b. *Payment of operation and maintenance costs.* (1) During the period that the project works are being operated by the United States, the District's share of the cost of operation and maintenance of the works shall be paid by the District directly to the United States. The amount of the annual payments shall be fixed by the Secretary and payments shall be made as provided herein. Beginning with the calendar year 1946 the Secretary shall furnish to the District on or before November 1 of each year, or as soon thereafter as practicable, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year, and of the District's share thereof. As soon as practicable, after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share in the following instalments: fifty percent (50%) on or before May 1 of that year; and twenty-five percent (25%) on or before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made; and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a district for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 31 of the contract of October 14, 1926 with the Owyhee Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary: *Provided*, That in no event shall the amount of water be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acre-feet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13–I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been one hundred forty thousand, four hundred ninety-seven dollars and fifty cents ($140,497.50). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: one hundred forty thousand, four hundred ninety-seven dollars and fifty cents ($140,497.50) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

Payment of construction charges on the irrigable lands to which water is announced as available will be at the rate of $2.00 per irrigable acre per annum for the years 1946 through 1949, in lieu of the rate specified in the 1936 contract. The amount for each of these years shall be paid in two equal semiannual instalments, the first to be payable on December 31 of the year for which the annual amount is due and the second on July 1 of the ensuing year.

2. Delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

a. *Operation of project works by United States.* The project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given by the Secretary of the Interior (herein called the Secretary) to the several districts which are parties to the 1936 contract (herein called subscribing districts): requiring that the Board of Control be established in accordance with the provisions of the contract of October 14, 1926 between the United States and the Gem Irrigation District, as amended, and the contracts between the United States and each of the other subscribing districts; describing the works to be transferred to that Board of Control; and fixing the date when the transfer is to be effective.

b. *Payment of operation and maintenance costs.* (1) During the period that the project works are being operated by the United States, the District's share of the cost of operation and maintenance of the works shall be paid by the District directly to the United States. The amount of the annual payments shall be fixed by the Secretary and payments shall be made as provided herein. Beginning with the calendar year 1946, the Secretary shall furnish to the District on or before November 1 of each year, or as soon thereafter as practicable, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year, and of the District's share thereof. As soon as practicable after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share in the following instalments; fifty percent (50%) on or before May 1 of that year; twenty-five percent (25%) on or before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made; and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a District for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 31 of the contract of October 14, 1926 with the Gem Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary: *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acre-feet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13-I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been seventy-six thousand, one hundred twenty dollars ($76,120.00). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: seventy-six thousand, one hundred twenty dollars ($76,120.00) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

As soon as practicable, after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share in the following instalments: fifty percent (50%) on or before May 1 of that year; twenty-five percent (25%) on or before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made; and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a district for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 31 of the contract of October 14, 1926 with the Gem Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance

of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary: *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acre-feet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13–I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been one thousand, seven hundred fifty-two dollars and fifty cents ($1,752.50). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of these amounts are hereby deferred for payment as follows: one thousand, seven hundred fifty-two dollars and fifty cents ($1,752.50) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of that year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

Total irrigable area	4,617

Payment of construction charges on the irrigable lands to which water is announced as available will be at the rate of $2.00 per irrigable acre per annum for the years 1946 through 1949, in lieu of the rate specified in the 1936 contract. The amount for each of these years shall be paid in two equal semiannual instalments, the first to be payable on December 31 of the year for which the annual amount is due and the second on July 1 of the ensuing year.

2. Delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

a. *Operation of project works by United States.* The project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given by the Secretary of the Interior (herein called the Secretary) to the several districts which are parties to the 1936 contract (herein called subscribing districts): requiring that the Board of Control be established in accordance with the provisions of the contract of October 14, 1926 between the United States and the Payette-Oregon Slope Irrigation District and the contracts between the United States and each of the other subscribing districts; describing the works to be transferred to that Board of Control; and fixing the date when the transfer is to be effective.

b. *Payment of operation and maintenance costs.* (1) During the period that the project works are being operated by the United States, the District's share of the cost of operation and maintenance of the works shall be paid by the District directly to the United States. The amount of the annual payments shall be fixed by the Secretary and payments shall be made as provided herein. Beginning with the calendar year 1946, the Secretary shall furnish to the District on or before November 1 of each year, or as soon thereafter as practicable, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year, and of the District's share thereof. As soon as practicable, after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share in the following instalments: fifty percent (50%) on or before May 1 of that year; twenty-five percent (25%) on or before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made, and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a district for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 30 of the contract of October 14, 1926 with the Payette-Oregon Slope Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary: *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acre-feet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November

1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13–I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been eleven thousand, five hundred forty-two dollars and fifty cents ($11,542.50). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: eleven thousand, five hundred forty-two dollars and fifty cents ($11,542.50) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: two thousand, seven hundred thirty dollars ($2,730) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected*—This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

Payment of construction charges on the irrigable lands to which water is announced as available will be at the rate of $2.00 per irrigable acre per annum for the years 1946 through 1949, in lieu of the rate specified in the 1936 contract. The amount for each of these years shall be paid in two equal semiannual instalments, the first to be payable on December 31 of the year for which the annual amount is due and the second on July 1 of the ensuing year.

2. Delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

a. *Operation of project works by United States.* The project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given by the Secretary of the Interior (herein called the Secretary) to the several Districts which are parties to the 1936 contract (herein called subscribing districts); requiring that the Board of Control be established in accordance with the provisions of the contract of February 5, 1927 between the United States and the Ontario-Nyssa Irrigation District and the contracts between the United States and each of the other subscribing Districts; describing the works to be transferred to that Board of Control; and fixing the date when the transfer is to be effective.

b. *Payment of operation and maintenance costs.* (1) During the period that the project works are being operated by the United States, the District's share of the cost of operation and maintenance of the works shall be paid by the District directly to the United States. The amount of the annual payments shall be fixed by the Secretary and payments shall be made as provided herein. Beginning with the calendar year 1946, the Secretary shall furnish to the District on or before November 1 of each year, or as soon thereafter as practicable, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year, and of the District's share thereof. As soon as practicable, after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share in the following instalments: fifty percent (50%) on or before May 1 of that year; twenty-five percent (25%) on on before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made; and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a district for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 31 of the contract of February 5, 1927 with the Ontario-Nyssa Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary; *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acre-feet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13–I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been fourteen thousand, three hundred eighty-five dollars ($14,385.00). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: fourteen thousand, three hundred eighty-five dollars ($14,385.00) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

Payment of construction charges on the irrigable lands to which water is announced as available will be at the rate of $2.00 per irrigable acre per annum for the years 1946 through 1949, in lieu of the rate specified in the 1936 contract. The amount for each of these years shall be paid in two equal semiannual instalments, the first to be payable on December 31 of the year for which the annual amount is due and the second on July 1 of the ensuing year.

2. Delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

a. *Operation of project works by United States.* The project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given by the Secretary of the Interior (herein called the Secretary) to the several districts which are parties to the 1936 contract (herein called subscribing districts): requiring that the Board of Control be established in accordance with the provisions of the contract of November 28, 1931 between the United States and the Crystal Irrigation District and the contracts between the United States and each of the other subscribing districts; describing the works to be transferred to that Board of Control; and fixing the date when the transfer is to be effective.

b. *Payment of operation and maintenance costs.* (1) During the period that the project works are being operated by the United States, the District's share of the cost of operation and maintenance of the works shall be paid by the District directly to the United States. The amount of the annual payments shall be fixed by the Secretary and payments shall be made as provided herein. Beginning with the calendar year 1946 the Secretary shall furnish to the District on or before November 1 of each year, or as soon thereafter as practicable, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year, and of the District's share thereof. As soon as practicable, after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share of the following instalments; fifty percent (50%) on or before May 1 of that year; twenty-five percent (25%) on or before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made; and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a district for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 31 of the contract of November 28, 1931 with the Crystal Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet the operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary: *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acre-feet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13–I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been three thousand, one hundred fifty-seven dollars and fifty cents ($3,157.50). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: three thousand, one hundred fifty-seven dollars and fifty cents ($3,157.50) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure or criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

Total irrigable area	2,311

Payment of construction charges on the irrigable lands to which water is announced as available will be at the rate of $2.00 per irrigable acre per annum for the years 1946 through 1949, in lieu of the rate specified in the 1936 contract. The amount for each of these years shall be paid in two equal semiannual instalments, the first to be payable on December 31 of the year for which the annual amount is due and the second on July 1 of the ensuing year.

2. Delivery of water from the project supply to the lands above described will be made only subject to the following provisions:

a. *Operation of project works by United States.* The project works built by the United States shall be retained and operated by the United States until such time as written notice is hereafter given by the Secretary of the Interior (herein called the Secretary) to the several districts which are parties to the 1936 contract (herein called subscribing districts): requiring that the Board of Control be established in accordance with the provisions of the contract of October 5, 1931 between the United States and the Bench Irrigation District and the contracts between the United States and each of the other subscribing districts; describing the works to be transferred to that Board of Control; and fixing the date when the transfer is to be effective.

b. *Payment of operation and maintenance costs.* (1) During the period that the project works are being operated by the United States, the District's share of the cost of operation and maintenance of the works shall be paid by the District directly to the United States. The amount of the annual payments shall be fixed by the Secretary and payments shall be made as provided herein. Beginning with the calendar year 1946, the Secretary shall furnish to the District on or before November 1 of each year, or as soon thereafter as practicable, a statement of the estimated costs of operating and maintaining the project works during the ensuing calendar year, and of the District's share thereof. As soon as practicable, after issuance of this notice, the Secretary shall furnish to the District a similar statement for operation and maintenance during the calendar year 1946. For the calendar year 1946, the District shall pay its share in the following instalments: fifty percent (50%) on or before May 1 of that year; twenty-five percent (25%) on or before July 1 of that year; and twenty-five percent (25%) on or before December 1 of that year. For the calendar year 1947 and each succeeding year hereunder, the District shall pay its share as follows: forty percent (40%) on or before December 1 of the preceding year; twenty-five percent (25%) on or before May 1 of the year for which payment is made; and thirty-five percent (35%) on or before July 1 of that year. Whenever, in the opinion of the Secretary, funds advanced as herein required will be inadequate to operate and maintain the project works properly to the end of the calendar year for which the advances were made, the Secretary may give a supplemental statement of operation and maintenance charges stating the additional advances required for the project works for the year in question and the District's share thereof. The District shall make such additional advances on or before the date specified in such statement.

(2) As soon as practicable after the close of each calendar year the actual costs of operation and maintenance chargeable to the project works for the

year just closed shall be determined and announced by the Secretary. If the part of the actual cost for the year apportionable to the District is less than the funds advanced therefor by the District, any excess shall be credited against the next instalment of operation and maintenance charges coming due hereunder. If such cost is more than the funds advanced therefor, the difference shall be paid by the District to the United States on or before the dates specified in the notice announcing such deficit.

(3) In the case of a district operating all or a portion of the works for the distribution of water within its boundaries, adjustments of the operation and maintenance charges to be paid by it to the United States shall be made to the end that the total charge for operation and maintenance for all irrigable lands of the project will be equal, taking account both of payments to be made to the United States hereunder and of payments to be made to a district for operation and maintenance performed by it. Adjustments in charges by the United States hereunder to this end shall be made on the basis provided in article 31 of the contract of October 5, 1931 with the Bench Irrigation District, the Secretary acting thereunder in lieu of the Board of Control, and shall be so made notwithstanding the provisions of the 1936 contract.

(4) The determinations as to what costs incurred by the United States are properly chargeable, under this provision, to the operation and maintenance of the project works shall be made by the Secretary. There shall be included the amount required to be paid to the United States under the terms of the 1936 contract for electric power and energy supplied by the United States for the operation of project pumping plants.

c. *Basis for levy of operation and maintenance charges.* Levies and charges made by the District to collect monies to meet operation and maintenance charges and the cost of power for pumping, covering both the amounts to be paid to the United States hereunder and the costs of those kinds incurred in operational activities by the District, shall be on the following basis:

There shall be a minimum charge made annually against each acre of irrigable land in the District to which water is available from the project works, which shall be required to be paid whether or not water is used. The minimum charge and the maximum amount of water to be delivered therefor for each irrigation season shall be fixed by the District in conformity with the announcement with respect thereto made by the Secretary; *Provided*, That in no event shall the amount of water to be delivered on payment of the minimum charge be fixed by the Secretary at less than four (4) acrefeet for an irrigation season. Such announcement will be made for the calendar year 1946 as soon as practicable after the notice of availability becomes effective, and for each season thereafter on or before November 1 of the preceding calendar year. Payment of the minimum charge by the water users shall be required to be made to the District in advance of the delivery of any water in the season for which the payment is made. Water in excess of the amount to be delivered for the minimum charge may be delivered to water users in any season on payment to the District of a charge, for each acre-foot or fraction thereof, of not less than twenty-five percent (25%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum charge. No excess water will be delivered to a farm unit unless advance payment therefor has been made by the water users to the District, or arrangements for such payment have been made that are satisfactory to the District and are in keeping with the requirements of the law.

d. *Deferment of charges for years 1940 through 1945.* Had the notice of availability of water under article 13–I of the 1936 contract been given on the initial date provided by that article, the construction charges payable by the District for each of the years 1940 through 1945 would have been five thousand, seven hundred seventy-seven dollars and fifty cents ($5,777.50). Pursuant to the authority of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, each of those amounts are hereby deferred for payment as follows: five thousand, seven hundred seventy-seven dollars and fifty cents ($5,777.50) to become due in the year following the last year of the repayment period under the 1936 contract, and a like amount to come due in each of the succeeding five years. Each of these instalments will be payable on December 1 of the year in which due, but the District may at its option make payment in semiannual instalments, the first on December 31 of such year and the second on July 1 of the following year.

e. *Terms of this notice limited to interim period.* The provisions for the repayment of construction charges established by this notice are to govern the District's repayment obligations only until an amendatory repayment contract has been entered into under the provisions of the Reclamation Project Act of 1939, as amended. Neither the instalments fixed hereunder nor any other provision of this notice of availability shall be construed in any sense to be the measure of criterion of the terms of repayment that will be acceptable to the United States in connection with any later amendatory contract.

f. *Existing contracts unaffected.* This notice of availability is given pursuant to the existing repayment contracts between the United States and the District, and, except as the provisions herein are inconsistent therewith, those repayment contracts remain in full force and effect.

3. In addition to the foregoing provisions of this notice, the delivery of water hereunder may be made conditional on the formal acceptance of this notice by the District. In the absence of such formal acceptance, payment by the District of the first instalment of the estimated operation and maintenance charges for the year 1946, as provided in paragraph (1) of subsection 2 (b) above, will be treated as the District's acceptance of this notice and all of its provisions, and the delivery of any water at any time hereunder is predicated on this understanding.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

Regional and District Office Orders.

[Region II Rev. Order G–27 Under RMPR 122]

SOLID FUELS IN DELAWARE

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does—(1) Dealers' maximum prices; area covered.* If you are a dealer in solid fuels, this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain kinds, sizes and quantities of solid fuel, delivered to or at any point in the State of Delaware. That area comprises two zones as follows:

Zone 1. Zone 1 includes that portion of the State of Delaware north of the Chesapeake and Delaware Canal with the exception of the towns of St. Georges and Delaware City.

Zone 2. Zone 2 comprises all of the State of Delaware not included in Zone 1.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges and required discounts, from which you shall determine the maximum prices for designated kinds, sizes and quantities of solid fuels delivered within Zones 1 and 2 are set forth in Schedules 1 and 11 hereafter.

(3) *To what sales this order applies.* If you are a dealer in solid fuels, you are bound by the prices and discounts, and by all other provisions of this order for all deliveries within Zones 1 and 2.

You shall determine the maximum price for "direct-delivery" sales, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone to which delivery is made, whether or not you are located in one of the two zones.

You shall determine your maximum price for a "yard" sale, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone in which the purchaser takes physical possession or custody of the solid fuel.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy solid fuels of the kinds, sizes, and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Use the schedule which covers your sale. (Schedule I applies to sales on a "direct-delivery" basis, "yard sales," and "sales of bagged coal" within Zone 1. You will find Schedule I in paragraph (d). In like manner, Schedule II applies to similar sales in Zone 2. You will find Schedule II in paragraph (e)).

(2) Take the dollars-and-cents figure set forth in the applicable table of the schedule, for the kind, size, and quantity of solid fuel you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedules.

(5) If you deliver a fraction of a net ton, even if less than one-half ton, and the applicable schedule provides a discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 75¢ per ton for cash payment, you shall deduct 56¢ for three-quarters of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain kinds, sizes, and quantities of solid fuels, delivered to or at any point within Zone 1. There a separate table of prices for "direct-delivery" sales, "yard sales", and "sales of bagged coal".

Where the purchaser requests that two or more sizes or kinds of fuel be commingled in one delivery, then, in that event, if those sizes and kinds are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes and kinds in the truck or other vehicle, or in the bags, in which the delivery is made. The price for fuel so commingled, shall be calculated on the basis of the applicable per net ton price, or, in the case of bagged coal, on the basis of the applicable bagged price, for each size and kind in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size and kind in the combination.

(g) *Ex parte 148—freight rate increase.* Since the ex parte freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any Schedule Price on account of freight rates.

(h) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your suppliers' maximum prices occurring up to the effective date of this order. If increases in your suppliers maximum prices should occur after such date, as a result of any amendment to, or revision of a maximum price regulation is used by the Office of Price Administration, governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or any amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the State of Delaware or any political subdivision thereof, you need not state this tax separately.

(j) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the fuel has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) *Petitions for amendment.* Any person seeking an amendment of any provision of this order, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator, and acted upon by him.

(l) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator, may amend, revoke or rescind this order, or any provisions thereof, at any time.

(m) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of solid fuels hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(o) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size and quantity of fuel sold to him, the date of the sale or delivery, and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(p) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Wilmington District Office of the Office of Price Administration; or with the Price Panel of the appropriate War Price and Rationing Board.

Chapter XI—Office of Price Administration

[SO 139,[1] Amdt. 3]

PART 1305—ADMINISTRATION

ADJUSTED MAXIMUM PRICES FOR CERTAIN LOW-PRICED COMMODITIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 139 is amended in the following respects:

1. In paragraph (c) of section 4, the text preceding subparagraph (1) and subparagraph (1) are amended to read as follows:

This statement, properly completed, must appear separately on or be annexed to, the invoice, billing or other statement of price accompanying every shipment made of these items.

(1) *On sales to retailers and industrial and commercial users.* Where the item is sold to a retailer or to an industrial or commercial user, the following statement must be sent by the manufacturer:

Please note that the OPA has ruled that you must price these items in accordance with Maximum Price Regulation 580 or the General Maximum Price Regulation (whichever regulation governs your sales of the items listed above). In determining your ceiling prices for these items OPA has ruled that, under MPR 580, your "net cost" must be based on the old ceiling set forth in Column A above; you may not include the amount of the OPA adjustment charge set forth in Column B in your net cost. Moreover, if you price under the GMPR, you may not add the above OPA adjustment charge to your present GMPR ceiling price.

(e) *Election by landlord to bring housing under this regulation.* Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly, or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this regulation. A landlord who so elects shall file a registration statement under this regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Rent Regulation for Housing, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Rent Regulation for Housing all housing accommodations previously brought under this regulation by such election. He shall make such revocation by filing a registration statement or statements under the Rent Regulation for Housing, including in such registration statement or statements all housing accommodations brought under this regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Rent Regulation for Housing.

SEC. 2. *Prohibition—*(a) *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for or in connection with the use or occupancy on and after the effective date of regulation of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this regulation may be demanded or received.

[Paragraph (a) amended by Am. 30, 9 F.R. 10631, effective 9-1-44]

(b) *Terms of occupancy—*(1) *Tenant not required to change term of occupancy.* No tenant shall be required to change his term of occupancy.

(2) *Term of occupancy during June 1942.* Where, during June 1942 a room was rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy except that he is not required to rent for that term more than the greatest number of rooms which were rented for the term at any one time during June 1942. However, if during the year ending on June 30, 1942, a landlord had regular and definite seasonal practices with reference to the renting of rooms on a weekly or monthly basis, he may request the Administrator to approve such practices. When approval is given the landlord shall offer rooms for rent for weekly and monthly terms of occupancy pursuant to the practices so approved. The Administrator may withdraw approval at any time if he finds that the landlord has failed to conform to such practices, or if he finds that the effects of the approval are inconsistent with the Act or this regulation or are likely to result in the circumvention or evasion thereof.

(3) *Request by tenant to change term of occupancy.* Any tenant on a daily or weekly term of occupancy shall on request be permitted by the landlord to change to a weekly or monthly term unless the landlord is then renting for such term a number of rooms equal to the number which he is required to rent for that term under subparagraph (2). If the room occupied by such tenant was not rented or offered for rent for such term during June 1942, the landlord may transfer the tenant to a room, as similar as possible, which was so rented or offered for rent.

(4) [Revoked]

[Subparagraph (4) amended by Am. 19, 9 F.R. 5002, effective 5-12-44; revoked by Am. 69, 10 F.R. 15211, effective 12-21-45]

(5) *Defense-rental areas with maximum rent date later than March 1, 1942—*(i) *Maximum rent date later than March 1, 1942 but prior to July 1, 1943.* In Defense-Rental Areas with a maximum rent date later than March 1, 1942 but prior to July 1, 1943, in Section 2 (b) (2) the words "June 1943" shall be substituted for the words "June 1942" and the words "June 30, 1943" shall be substituted for the words "June 30, 1942"; in Section 2 (b) (3) the words "June 1943" shall be substituted for the words "June 1942".

(ii) *Maximum rent date of July 1, 1943, or later.* In Defense-Rental Areas with a maximum rent date of July 1, 1943, or later, in section 2 (b) (2) the words "the thirty days ending on the maximum rent date" shall be substituted for the words "June 1942" and the words "the maximum rent date" shall be substituted for the words "June 30, 1942"; in section 2 (b) (3) the words "the thirty days ending on the maximum rent date" shall be substituted for the words "June 1942".

[Subparagraphs (i) and (ii) amended by Am. 69, 10 F.R. 15211, effective 12-21-45]

[Subparagraph (5) added by Am. 10, 8 F.R. 16893, effective 12-16-43; amended by Am. 21, 9 F.R. 5828, effective 6-1-44; and as otherwise noted]

(6) *Weekly and monthly terms of occupancy 50% or less.* A landlord who is required to rent for weekly or monthly terms of occupancy 50% or less of the rooms in the establishment, under subparagraph (2) of this paragraph, may petition the Administrator to be relieved of such requirement. Upon issuance of an order granting such petition, the provisions of subparagraphs (2) and (3) of this paragraph no longer shall apply to the rooms in the establishment; but, unless otherwise provided in the order, the maximum rent for a weekly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than ten days, and the maximum rent for a monthly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than thirty days, regardless of whether the tenant occupies the same room in the establishment during the specified period. The maximum rent on a weekly or monthly basis, as the case may be, shall apply from the date of issuance of the order or the date on which occupancy commenced, whichever is the later.

[Above paragraph amended by Am. 69, 10 F.R. 15211, effective 12-21-45]

If the landlord establishes that it was not his practice, during a reasonable period prior to the effective date of regulation, to rent on a weekly basis, the order shall provide only for the application of the maximum monthly rent after 30 days' occupancy pursuant to the foregoing provisions. If the landlord establishes that it was not his practice, during such period, to rent on a monthly basis, the order shall provide only for the application of the maximum weekly rent pursuant to the foregoing provisions.

The order of the Administrator granting the landlord's petition may fix the maximum rents for weekly and monthly terms of occupancy and for different numbers of occupants for those terms pursuant to section 4 (g). Immediately upon issuance of the order, the landlord shall post maximum rents established for weekly and monthly terms of occupancy in the manner provided by section 7 (b), to the extent that the order requires the application of such rents, or in lieu thereof shall in a manner approved by the Area Rent Director, post advice that maximum rents for weekly or monthly terms of occupancy required by the order may be obtained from the landlord on request.

[Above paragraph amended by Am. 60; 10 F.R. 11071, effective 9-1-45]

The Administrator may revoke the order at any time if he finds that its effect is inconsistent with the purposes of the Act of this regulation or is likely to result in the circumvention or evasion thereof.

[Subparagraph (6) added by Am. 19, 9 F.R. 5002, effective 5-12-44; amended by Am. 38, 9 F.R. 14238, effective 12-2-44; and as otherwise noted]

(7) If the landlord's duty under subparagraph (2), with reference to a room is in dispute, or in doubt, or not known, the Administrator, at any time on his own initiative may issue an order determining the necessary facts and establishing such duty; or, if the Administrator is unable to ascertain the necessary facts, he may issue an order pursuant to subparagraph (8).

(8) Where subparagraph (2) does not require the offering of a room on a weekly or monthly basis, or where the Administrator is unable to ascertain the facts necessary to establish the landlord's duty under that paragraph, he may at any time on his own initiative issue an order requiring the room to be offered for rent for a weekly or monthly term of occupancy, or both. The Administrator may issue such orders if he finds that, during a reasonable period prior to the time the proceeding hereunder is commenced, the room has been rented under circumstances which make appropriate the application of weekly or monthly rents. In determining whether the landlord shall be required to offer the room on a weekly basis, or on a monthly basis, or both, the Administrator will consider the practices which prevailed in the defense-rental area for similar accommodations during a reasonable period prior to the effective date of regulation.

Upon issuance of such an order, the room shall be offered for rent on a weekly or monthly basis, or both, as the order may require, for each number of occupants for which it is offered by the landlord for any other term of occupancy. A tenant of the room on a daily or weekly basis shall on request be permitted by the landlord to change to any term of

occupancy which the landlord is required to offer pursuant to the order.

[Subparagraphs (7) and (8) added by Am. 38, 9 F.R. 14238, effective 12-2-44]

(c) *Security deposits*—(1) *General prohibition.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person on or after September 1, 1944, shall demand or receive a security deposit for or in connection with the use or occupancy of any room in a hotel or rooming house within the Defense-Rental Area or retain any security deposit received prior to or on or after September 1, 1944, except as provided in this paragraph (c). The term "security deposit", in addition to its customary meaning, includes any prepayment of rent except payment in advance of the next periodic installment of rent for a period no longer than one month but shall not include rent voluntarily prepaid subsequent to possession by a tenant under a written lease for his own convenience.

[Paragraph (c) added by Am. 30, 9 F.R. 10631, effective 9-1-44; amended by Am. 34, 9 F.R. 12413, effective 10-12-44; and Am. 69, 10 F.R. 15211, effective 12-21-45]

SEC. 3. *Minimum services, furniture, furnishings, and equipment.* Except as set forth in section 5 (b), every landlord shall, as a minimum, provide with a room the same essential services, furniture, furnishings and equipment as those provided on the date or during the thirty-day period determining the maximum rent, and as to other services, furniture, furnishings, and equipment not substantially less than those provided on such date or during such period: *Provided, however,* That where fuel oil is used to supply heat or hot water for a room, and the landlord provided heat or hot water on the date or during the thirty-day period determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

SEC. 4. *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in section 5) shall be:

(a) *Rented or regularly offered during maximum rent period.* For a room rented or regularly offered for rent during the thirty days ending on the maximum rent date, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period, or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) *First rented or regularly offered after maximum rent period.* For a room neither rented nor regularly offered for rent during the thirty days ending on the maximum rent date, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after the maximum rent date; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) *First rent after maximum rent date where no maximum rent established under* (a) *or* (b). For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section the first rent for the room after the maximum rent date for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) *Rooms constructed and owned by the government.* For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in section 5 (c) (1).

(e) *Meals with room.* For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment, if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two.

In Defense-Rental Areas with a maximum rent date of March 1, 1942 or earlier, no landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942. In Defense-Rental Areas with a maximum rent date later than March 1, 1942, no landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on the maximum rent date.

[Above two paragraphs amended by Am. 10, 8 F.R. 16893, effective 12-16-43]

(f) *Rooms subject to rent schedule of War or Navy Department.* For a room rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department, the rents established by such rent schedule.

[Paragraph (f) amended by Am. 5, 8 F.R. 12795, effective 9-20-43]

(g) *Rent fixed by order of Administrator.* For a room for a particular term or number of occupants for which no maximum rent has been established under any other provision of this regulation, the rent fixed by order of the Administrator as provided in this paragraph (g).

The Administrator at any time on his own initiative or on petition of the landlord may enter an order fixing the maximum rent and specifying the minimum services for a room for a particular term or number of occupants for which no maximum rent has been established prior to issuance of the order under any other provision of this regulation. Such maximum rent shall be fixed on the basis of the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

[Paragraph (g) added by Am. 19, 9 F.R. 5002, effective 5-12-44]

(h) *Rooms in the Malvern, Arkansas Defense-Rental Area.* For the rooms in the Malvern, Arkansas Defense-Rental Area for which the maximum rent was changed or established by order of the Administrator between October 1, 1942 and November 30, 1943, inclusive, the rent provided by such order. Any order issued by the Administrator for rooms in the Malvern, Arkansas Defense-Rental Area between October 1, 1942 and November 30, 1943, inclusive, which was in effect on the latter date, shall be effective under this regulation.

[Paragraph (h) added by Am. 40, 10 F.R. 47, effective 1-1-45; corrected 10 F.R. 655, effective 1-16-45]

SEC. 5. *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required.

In those cases involving a major capital improvement, an increase or decrease in services, furniture, furnishings or equipment, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on the maximum rent date the difference in the rental value of the housing accommodations by reason of such change: *Provided, however,* That no adjustment shall be ordered where it appears that the rent on the date or during the thirty-day period determining the maximum rent was fixed in contemplation of and so as to reflect such change.

In all other cases, except those under paragraphs (a) (7), (a) (9), (c) (4), and (c) (5) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date: *Provided,* That in cases under paragraph (a) (6) of this section the adjustment may be on the basis of the rental agreement in force during the thirty-day period determining the maximum rent.

[Above paragraph amended by Am. 29, 9 F.R. 10188, effective 9-1-44; and Am. 69, 10 F.R. 15211, effective 12-21-45]

In cases involving construction, appropriate allowance shall be made for general increases in costs of construction in the defense-rental area since 1939.

[Above paragraph amended by Am. 69, 10 F.R. 15211, effective 12-21-45]

In cases under paragraphs (a) (7) and (c) (4) of this section, the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the defense-rental area for comparable housing accommodations during the year ending on the maximum rent date.

[Above paragraphs amended by Am. 17, 9 F.R. 3421, effective 3-29-44; and Am. 27, 9 F.R. 9428, effective 8-3-44]

In cases under paragraph (a) (9) of this section, the adjustment shall be on the basis of the rents which the Administrator finds necessary to relieve the substantial hardship: *Provided,* That the adjustment shall not result in a maximum rent higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date.

In cases under paragraph (c) (5) of this section, the adjustment in the maximum rent shall be in the amount the Administrator finds warranted by the modification or elimination of the necessity for the increase in the maximum rent granted under paragraph (a) (9) of this section: *Provided,* That no decrease shall be ordered in an amount greater than the adjustment ordered under paragraph (a) (9) of this section.

[Above paragraphs added by Am. 29, 9 F.R. 10188, effective 9-1-44]

(a) *Grounds for increase of maximum rents.* Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the ground that:

(1) *Major capital improvement since maximum-rent period.* There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) *Change prior to maximum rent date.* There was, on or prior to the maximum rent date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance or a substantial increase in services, furniture, furnishings or equipment, and the rent during the thirty-day period ending on the maximum rent date was fixed by a lease or other rental agreement which was in force at the time of such change or increase.

[Subparagraph (2) amended by Am. 81, 9 F.R. 11322, effective 9-13-44]

(3) *Substantial increase in services, furniture, furnishings or equipment.* There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) *Special relationship between landlord and tenant.* The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(5) *Lease for term commencing one year or more before maximum rent date.* There was in force on the maximum rent date a written lease, for a term commencing on or prior to the date one year before the maximum rent date, requiring a rent lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(6) *Varying rents.* The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a higher rent at other periods during the term of such lease or agreement.

[Subparagraphs (5) and (6) amended by Am. 69, 10 F.R. 15211, effective 12-21-45]

(7) *Seasonal demand.* The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(8) *Peculiar circumstances.* The rent during the thirty-day period determining the maximum rent was materially affected by peculiar circumstances and as a result was substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date.

[Subparagraph (8) added by Am. 25, 9 F.R. 8054, effective 7-17-44]

(9) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a substantial decrease in the net income (before interest) of the property for the current year as compared with a representative period prior to the maximum rent date, due to a substantial and unavoidable increase in property taxes or operating costs.

In proper cases increases in payroll and property taxes in effect on the date of the filing of the petition may be considered by the Administrator in determining whether substantial hardship exists.

Increased operating costs due to wage increases paid by the landlord shall not be included in any petition filed hereunder unless such wage increases have been approved by the appropriate wage or salary stabilization agency of the United States in accordance with Executive Order 9697 and the regulations issued by the Office of Economic Stabilization pursuant thereto, or unless approval is not required by said order or regulations.

[Above two paragraphs added by Am. 78, effective 4-10-46]

For the purposes of this paragraph (a) (9) the term:

(i) "Net income (before interest)" means the amount determined by subtracting unavoidable property taxes and operating costs actually paid or accrued from total income earned.

(ii) "Property taxes and operating costs" includes all expenses necessary to the operation and maintenance of the property actually paid or accrued and properly allocated, including depreciation but excluding interest.

(iii) "Property" includes one or more structures operated as a single unit or enterprise.

(iv) "Total income earned" includes rental and other income earned from the property and the rental value of housing accommodations in the property occupied without the full payment of rent.

(v) "Current year" means (a) the most recent full calendar or fiscal year used by the landlord, or (b) any twelve-month period ending not more than 90 days prior to the filing of the petition: *Provided, however,* That the current year in all cases shall begin on or after the maximum rent date: *And provided, further,* That if allowance is requested for increases in payroll or property taxes not fully reflected in the "current year" as defined above, at least one calendar month must have passed between the end of the current year and the beginning of the month in which the petition is filed.

[Subparagraph (v) amended by Am. 44, 10 F.R. 2404, effective 3-1-45; and Am. 78, effective 4-10-46]

[Subparagraph (9) added by Am. 29, 9 F.R. 10188, 10718, effective 9-1-44 and amended as otherwise noted.]

(b) *Decreases in minimum services, furniture, furnishings and equipment*—(1) *Decreases existing on effective date.* If, on the effective date of this regulation, the services provided for a room are less than the minimum services required by section 3, the landlord shall either restore and maintain such minimum services, or, within 30 days (or, within 60 days for rooms within the Los Angeles Defense-Rental Area), after such effective date, file a petition requesting approval of the decreased services. If, on such effective date (or, on December 1, 1942 where the effective date of regulation is prior to that date), the furniture, furnishings or equipment provided with

a room are less than the minimum required by section 3, the landlord shall, within 30 days after such date, file a written report showing the decrease in furniture, furnishings or equipment.

(2) *Decreases after effective date.* Except as above provided, the landlord shall, until the room becomes vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the room becomes vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) *Adjustment in maximum rent for decreases.* The order on any petition under this paragraph (b) may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph (b) may be decreased in accordance with the provisions of section 5 (c) (3).

If the landlord fails to file the petition or report required by this paragraph (b) within the time specified, or decreases the services, furniture, furnishings, or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or the effective date of regulation (or December 1, 1942 where the effective date of regulation is prior to that date), whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings, or equipment. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order. If the Administrator finds that the landlord was not at fault in failing to comply with this paragraph (b), the order may relieve the landlord of the duty to refund. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the Act for failure to comply with any requirement of this paragraph (b).

[Subparagraph (3) amended by Am. 47, 10 F.R. 3452, effective 4-1-45]

(c) *Grounds for decrease of maximum rent.* The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) *Rent higher than rent generally prevailing.* The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

(2) *Substantial deterioration.* There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) *Decrease in services, furniture, furnishings or equipment.* There has been a decrease in the minimum services, furniture, furnishings or equipment required by section 3 since the date or order determining the maximum rent.

(4) *Seasonal demand.* The rent on the date determining the maximum rent for the room was substantially higher than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(5) *Modification or elimination of necessity for increase under section 5 (a) (9).* There has been a modification or elimination of the necessity for the increase in the maximum rent granted under paragraph (a) (9) of this section, since the order, issued under that paragraph.

[Subparagraph (5) added by Am. 29, 9 F.R. 10188, effective 9-1-44]

(d) *Orders when facts are in dispute, in doubt or not known.* If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, or the services, furniture, furnishings, or equipment provided with the accommodations on the date determining the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within thirty days after the effective date of regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact, or determining the services, furniture, furnishings and equipment provided with the accommodations on the date determining the maximum rent or both. If the Administrator is unable to ascertain such fact, or facts, he shall enter the order on the basis of the rent which he finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date and, where appropriate, may determine the services, furniture, furnishings and equipment included in such rent.

[Paragraph (d) amended by Am. 69, 10 F.R. 15211, effective 12-21-45]

(e) *Interim orders.* Where a petition is filed by a landlord on one of the grounds set out in paragraph (a) or (d) of this section, or a proceeding is initiated by the Administrator under paragraph (d), the Administrator may enter an interim order increasing or fixing the maximum rent until further order, subject to refund by the landlord to the tenant of any amount received in excess of the maximum rent established by final order in such proceeding. The receipt by the landlord of any rent authorized by such interim order shall constitute an agreement by the landlord with the tenant to refund to the tenant any amount received in excess of the maximum rent established by final order. The landlord shall make such refund either by repayment in cash or, where the tenant remains in occupancy after the effective date of the final order, by deduction from the next installment of rent, or both.

[Paragraph (e) added by Am. 8, 8 F.R. 16032, effective 11-25-43]

(f) *Uniform daily rent.* The landlord of any establishment containing more than fifty rooms for which maximum rents on a daily basis are established, may petition the Administrator for permission to establish uniform maximum daily rents for substantially identical rooms for each number of occupants for which such rooms are offered for rent. Permission may be granted if the aggregate of the maximum daily rents requested for each group of substantially identical rooms for each number of occupants does not exceed the aggregate maximum daily rents previously established for such rooms for each number of occupants. With the consent of the Area Rent Director, minor adjustments may be permitted as between different classes of rooms and numbers of occupants providing such adjustments shall not result in an increase in aggregate scheduled revenue for the establishment as a whole. Each petition must be accompanied by a verified audit of the period or periods during which the maximum rents were established under section 4 on forms to be supplied by the Administrator. Such requirement may be waived if the Administrator already has in his possession a complete audit of such period or periods.

[Paragraph (f) added by Am. 60, 10 F.R. 11071, effective 9-1-45]

SEC. 6. *Removal of tenant*—(a) *Restrictions on removal of tenant.* So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated unless:

(1) *Tenant's refusal to renew lease.* The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year, or if the lease was for a term of more than three months and was non-seasonal in character, for a term of not more than one year, for a rent not in excess of the maximum rent, but otherwise on the same terms and conditions as the previous lease or agreement, except insofar as such terms and conditions are inconsistent with this regulation; or

[Subparagraph (1) amended by Am. 44, 10 F.R. 2404, effective 3-1-45; and Am. 69, 10 F.R. 15211, effective 12-21-45]

(2) *Tenant's refusal of access.* The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) *Violating obligation of tenancy or committing nuisance.* The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure such violation after written notice by the landlord that the violation cease or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) [Revoked]

[Subparagraph (4) revoked by Am. 69, 10 F.R. 15211, effective 12-21-45]

(5) *Room not offered for rent.* The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), the landlord shall file a written report on a form provided therefor before renting the room during a period of 6 months after such removal or eviction.

(b) *Administrator's certificate.* No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the act or this regulation and would not be likely to result in the circumvention or evasion thereof. The certificate shall authorize the pursuit of local remedies at the expiration of six months after the date of filing of the petition unless the Area Rent Director has determined that a three months' period is adequate for the purposes of the act in the particular area, in which event the applicable period shall be three months. Within the discretion of the Area Rent Director the certificate may authorize the pursuit of local remedies for the removal or eviction of the tenant at a time less than six or three months, as the case may be, after the date of the filing of the petition if the petitioner establishes that unusual hardship would otherwise result, or that a lesser period in the particular case is consistent with the purposes of the regulation and the act.

[Paragraph (b) amended by Am. 69, 10 F.R. 15211, effective 12-21-45]

(c) *Notice to Area Rent Office.* At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) *Exceptions from section 6.* The provisions of this section do not apply to:

(1) *Subtenants.* A subtenant or other person who occupied under a rental agreement with the tenant where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

SEC. 7. *Registration and records*—(a) *Registration statement.* On or before the date specified in Schedule A of this regulation every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of regulation under paragraphs (b) or (c) of section 4 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

Where, since the filing of the registration statement but prior to May 5, 1945, there has been a change in the identity of the landlord, by transfer of title or otherwise, the present landlord, on or before May 31, 1945, shall file a notice of such change on a form provided for that purpose, to be known as a notice of change in identity. Where such a change occurs on or after May 5, 1945, or the effective date of regulation, whichever is the later, the new landlord shall file such a notice within thirty days after the change.

Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator the landlord shall alter the card or sign so that it states the changed rent or rents.

[Above paragraph amended by Am. 44, 10 F.R. 2404, effective 3-1-45]

The foregoing provisions of this paragraph shall not apply to rooms under section 4 (d). The owner of such rooms shall post a copy of the registration statement in a place where it will be available for inspection by the tenants of such rooms.

(c) *Receipt for amount paid.* No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

(d) *Rooms subject to rent schedule of War or Navy Department.* The provisions of this section shall not apply to rooms rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments for which the rent is fixed by the national rent schedule of the War or Navy Department.

(e) *Records*—(1) *Existing records.* Every landlord of a room rented or offered for rent shall preserve, and make available for examination by the Administrator, all his existing records showing or relating to (i) the rent for each term and number of occupants for which such room was rented or regularly offered for rent during the thirty-day period deter-

(b) *Purchase of property as condition of renting.* Specifically, but without limitation on the foregoing, no person shall require a tenant or prospective tenant to purchase or agree to purchase furniture or any other property as a condition of renting rooms unless the prior written consent of the Administrator is obtained.

[Paragraph (b) amended by Am. 69, 10 F.R. 15211, effective 12–21–45]

The New York City Defense-Rental Area is referred to hereinafter in this regulation as the "defense-rental area."

(b) *Housing to which this regulation does not apply.* This regulation does not apply to the following:

(1) *Farming tenants.* Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon.

(2) *Service employees.* Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part or all of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part.

[Subparagraph (2) amended by Am. 18, 10 F.R. 2404, effective 3–1–45]

(3) *Rooms in hotels, rooming houses, etc.* Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the Rent Regulation for Hotels and Rooming Houses in the New York City Defense-Rental Area pursuant to the provisions of that regulation.

(4) *Structures in which more than 25 rooms are rented or offered for rent.* Entire structures or premises wherein more than 25 rooms are rented or offered for rent by any lessee, sublessee or other tenant of such entire structure or premises: *Provided,* That this regulation does apply to entire structures or premises wherein 25 or less rooms are rented or offered for rent by any lessee, sublessee or other tenant of such entire structure or premises, whether or not used by the lessee, sublessee or other tenant as a hotel or rooming house: *And provided further,* That this regulation does apply to an underlying lease of any entire structure or premises which was entered into after March 1, 1943 and prior to November 1, 1943 while such lease remains in force with no power in the tenant to cancel or otherwise terminate the lease.

(5) *Rented to National Housing Agency.* Housing accommodations rented to the United States acting by the National Housing Agency: *Provided, however,* That this regulation does apply to a sublease or other subrenting of such accommodations or any part thereof.

(6) *Resort housing—*(i) *Exemption.* Housing accommodations located in a resort community and customarily rented or occupied on a seasonal basis prior to October 1, 1945, which were not rented during any portion of the period beginning on November 1, 1943, and ending on February 29, 1944.

This exemption shall be effective only from June 1, 1946, to September 30, 1946, inclusive.

(ii) *Exception from exemption.* The provisions of section 1 (b) (6) (i) shall not apply to housing accommodations in multiple unit buildings within the corporate limit of the City of Long Beach, New York.

[Subparagraph (6) added by Am. 16, 10 F.R. 1452, effective 2–3–45; amended by Am. 22, 11 F.R. 1774, effective 2–15–46 and Am. 25, 11 F.R. 3202, effective 3–25–46. Former subparagraph (6) added by Am. 4, 9 F.R. 2087, effective 2–22–44; expired 9–30–44]

(c) *Effect of this regulation on leases and other rental agreements.* The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this regulation.

(d) *Waiver of benefit void.* An agreement by the tenant to waive the benefit of any provision of this regulation is void. A tenant shall not be entitled by reason of this regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to November 1, 1943.

SEC. 2. *Prohibition against higher than maximum rents—*(a) *General prohibition.* Regardless of any contract, agreement, lease, or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for or in connection with the use or occupancy on and after November 1, 1943 of any housing accommodations within the Defense-Rental Area higher than the maximum rents provided by this regulation; and no person shall offer, solicit, attempt or agree to do any of the foregoing. Lower rents than those provided by this regulation may be demanded or received.

[Paragraph (a) amended by Am. 11, 9 F.R. 10635, effective 9–1–44]

(b) [Revoked]

[Paragraph (b) revoked by Am. 20, 10 F.R. 11668, effective 9–15–45]

(c) *Lease with option to buy.* Where a lease of housing accommodations was entered into prior to November 1, 1943 and the tenant as a part of such lease or in connection therewith was granted an option to buy the housing accommodations which were the subject of the lease, with the further provision that some or all of the payment made under the lease should be credited toward the purchase price in the event such option is exercised, the landlord, notwithstanding any other provision of this regulation, may be authorized to receive payment made by the tenant in accordance with the provisions of such lease and in excess of the maximum rent for such housing accommodations. Such authority may be secured only by a written request of the tenant to the area rent office and shall be granted by order of the Administrator if he finds that such payments in excess of the maximum rent will not be inconsistent with the purposes of the Act or this regulation and would not be likely to result in the circumvention or evasion thereof. After entry of such order the landlord shall be authorized to demand, receive and retain payments provided by the lease in excess of the maximum rent for periods commencing on or after November 1, 1943. After entry of such order, the provisions of the lease may be enforced in accordance with law, notwithstanding any other provision of this regulation: *Provided, however,* That if at the termination of the lease the tenant shall not exercise the option to buy, the landlord may thereafter remove or evict the tenant only in accordance with the provisions of section 6 of this regulation. Nothing in this paragraph shall be construed to authorize the landlord to demand or receive payments in excess of the maximum rent in the absence of an order of the Administrator as herein provided. Where a lease of housing accommodations has been entered into on or after November 1, 1943, and the tenant as a part of such lease or in connection therewith has been granted an option to buy the housing accommodations which are the subject of the lease, the landlord, prior to the exercise by the tenant of the option to buy, shall not demand or receive payments in excess of the maximum rent, whether or not such lease allocates some portion or portions of the periodic payments therein provided as payments on or for the option to buy.

(d) *Security deposits—*(1) *General prohibition.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person on or after September 1, 1944 shall demand or receive a security deposit for or in connection with the use or occupancy of housing accommodations within the Defense-Rental Area or retain any security deposit received prior to or on or after September 1, 1944 except as provided in this paragraph (d). The term "security deposit," in addition to its customary meaning, includes any prepayment of rent except payment in advance of the next periodic installment of rent for a period no longer than one month but shall not include rent voluntarily prepaid subsequent to possession by a tenant under a written lease for his own convenience.

[Subparagraph (1) amended by Am. 20, 10 F.R. 11668, effective 9–15–45]

(2) *Maximum rent established under section 4 (a) or (b).* Where the maximum rent of the housing accommodations is or initially was established under section 4 (a) or (b), no security deposit shall be demanded, received, or retained except in the amount (or any lesser amount) and on the same terms and conditions (or on terms and conditions less burdensome to the tenant) provided for in the lease or other rental agreement in effect on the date determining the maximum rent established under section 4 (a) or (b).

(3) *Maximum rent established under section 4 (c) or (d).* Where the maximum rent of the housing accommodations is or initially was established under section 4 (c) or (d) no security deposit shall be demanded, received, or retained except in the amount (or any lesser amount) and on the same terms and conditions (or on terms and conditions less burdensome to the tenant) provided for in the lease or other rental agreement under which the accommodations were first rented or in any order heretofore or hereafter issued with reference to such security deposit. Where such lease or other rental agreement provided for a security deposit, the Administrator at any time, on his own initiative or on application of the tenant, may order a decrease in the amount of such deposit or may order its elimination.

(4) *Maximum rent established under section 4 (e).* Where the maximum rent of the housing accommodations is or initially was established under Section 4 (e), no security deposit shall be demanded or received.

(5) *Maximum rent established under section 4 (f).* Where the maximum rent of the housing accommodations is or initially was established under Section 4 (f), no security deposit shall be demanded, received, or retained.

(6) *Maximum rent established under section 4 (g) or (h).* Where the maximum rent of the housing accommodations is or initially was established under section 4 (g) or (h), no security deposit shall be demanded or received except in the amount (or any lesser amount) and on the same terms and conditions (or on terms and conditions less burdensome to the tenant) provided for in the lease or other rental agreement in effect on September 1, 1944. Where such accommodations are first rented after September 1, 1944, no security deposit shall be demanded, received, or retained.

(7) *Deposits to secure the return of certain movable articles.* Notwithstanding the preceding provisions of this paragraph (d), any landlord may petition for an order authorizing the demand and receipt of a deposit to secure the return of movable articles. If the landlord shows that he has a special need therefor, the Administrator may enter an order authorizing a security deposit, not in excess of ten dollars, to secure the return of the movable articles specified in the order.

[Paragraph (d) added by Am. 11, 9 F.R. 10635, effective 9–1–44 and amended by Am. 13, 9 F.R. 12416, effective 10–12–44]

SEC. 3. *Minimum services, furniture, furnishings and equipment.* Except as set forth in section 5 (b), every landlord shall, as a minimum, provide with housing accommodations the same essential services, furniture, furnishings, and equipment as those provided on the date determining the maximum rent, and as to other services, furniture, furnishings and equipment not substantially less than those provided on such date: *Provided, however,* That where fuel oil is used to supply heat or hot water for housing accommodations, and the landlord provided heat or hot water on the date determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

SEC. 4. *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in section 5) shall be:

(a) *Rented on March 1, 1943.* For housing accommodations rented on March 1, 1943, the rent for such accommodations on March 1, 1943.

(b) *Not rented on March 1, 1943 but rented during January or February, 1943.* For housing accommodations not rented on March 1, 1943, but rented at any time during January or February, 1943, the last rent for such accommodations during the two-month period.

(c) *First rent after March 1, 1943 but before November 1, 1943.* For housing accommodations not rented on March 1, 1943 nor during January or February, 1943, but rented prior to November 1, 1943, the first rent for such accommodations after March 1, 1943. The Administrator may order a decrease in the maximum rent as provided in section 5 (c).

(d) *Constructed or changed before November 1, 1943.* For (1) newly constructed housing accommodations without priority rating first rented after March 1, 1943 and before November 1, 1943, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed between those dates from unfurnished to fully furnished, or from fully furnished to unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however,* That, where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in section 5 (c).

(e) *First rent after November 1, 1943.* For (1) newly constructed housing accommodations without priority rating first rented on or after November 1, 1943, or (2) housing accommodations changed on or after November 1, 1943 so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations not rented at any time between December 31, 1942 and November 1, 1943, or (4) housing accommodations changed on or after November 1, 1943 from unfurnished to fully furnished, the first rent for such accommodations after the change or on or after November 1, 1943, as the case may be. Within 30 days after so renting the landlord shall register the accommodations as provided in section 7. The Administrator may order a decrease in the maximum rent as provided in section 5 (c).

If the landlord fails to file a proper registration statement within the time specified, the rent received for any rental period commencing on or after the date of the first renting or November 1, 1943, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by an order under section 5 (c) (1). Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of § 1300.209 or 1300.217 of Revised Procedural Regulation No. 3. If the Administrator finds that the landlord was not at fault in failing to file a proper registration statement within the time specified, the order under section 5 (c) (1) may relieve the landlord of the duty to refund. Where a proper registration statement was filed before March 1, 1945, the landlord shall have the duty to refund only if the order under section 5 (c) (1) is issued in a proceeding commenced by the Administrator before September 1, 1945. Where a proper registration statement is filed on or after March 1, 1945, the

landlord shall have the duty to refund only if the order under section 5 (c) (1) is issued in a proceeding commenced by the Administrator within three months after the date of filing of such registration statement. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the act for failure to file the registration statement required by section 7.

[Above paragraph amended by Am. 18, 10 F.R. 2404, effective 3-1-45 and Am. 24, 11 F.R. 2447, effective 3-9-46]

(f) *Priority-constructed housing.* For housing accommodations newly constructed with priority rating from the United States or any agency thereof for which the rent is approved by the United States or any agency thereof prior to March 1, 1943, or, if the accommodations were not rented on that date, prior to the first renting of the accommodations after that date, the rent so approved, but in no event more than the rent on March 1, 1943, or, if the accommodations were not rented on that date, more than the first rent after that date: *Provided, however*, That if, prior to March 1, 1943, or, if the accommodations were not rented on that date, prior to the first renting of the accommodations after that date, the landlord made a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of increased costs of construction, and a higher rent is approved by such agency on or after March 29, 1944, because of such increased costs of construction, the maximum rent on and after the date of such approval shall be the rent so approved: *And provided further*, That as to housing constructed with priority rating obtained prior to October 15, 1945, and in which initial occupancy occurred on or after that date, the landlord may at his option elect to have the maximum rents therefor determined under section 4 (e).

[Above paragraph amended by Am. 23, 11 F.R. 3115, effective 3-1-46]

The provisions of this paragraph (f) shall apply to the approval of rents for such housing accommodations by the United States or any agency thereof in connection with the grant of an application for priority rating filed on any of the application forms of the Office of Production Management or the War Production Board, including the September 1941 form in use by the Office of Production Management prior to the revision of this form on December 15, 1941.

The provisions of this paragraph (f) shall not apply to housing accommodations resulting from the alteration or remodeling of an existing structure.

[Paragraph (f) amended by Am. 6, 9 F.R. 3423, effective 3-29-44; and Am. 7, 9 F.R. 4028, effective 4-15-44]

(g) *Housing owned and constructed by the government.* For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1943, as determined by the owner of such accommodations: *Provided, however*, That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in section 5 (c) (1).

(h) *Housing subject to rent schedule of War or Navy Department.* For housing accommodations rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department, the rents established by such rent schedule.

In the event the rents on such housing accommodations cease to be governed by the National Rent Schedule of the War or Navy Departments, the maximum rents shall be determined by the appropriate subsection of section 4. For the purpose of such determination the premises shall be considered as not rented during the period they were operated under such schedule.

[Above paragraph added by Am. 23, 11 F.R. 3115, effective 3-1-46]

SEC. 5. *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services, an increase or decrease in the number of subtenants or other occupants, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on March 1, 1943, the difference in the rental value of the housing accommodations by reason of such change: *Provided, however*, That no adjustment shall be ordered where it appears that the rent on the date determining the maximum rent was fixed in contemplation of and so as to reflect such change.

In all other cases except those under paragraphs (a) (7), (a) (12), (a) (13), (c) (6), (c) (8) and (c) (9) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943: *Provided*, That in cases under paragraphs (a) (6) and (c) (5) of this section the adjustment may be on the basis of the rental agreement in force on the date determining the maximum rent.

[Above paragraph amended by Am. 10, 9 F.R. 10190, effective 11-1-44; Am. 12, 9 F.R. 11350, effective 9-13-44, and Am. 20, 10 F.R. 11668, effective 9-15-45]

In cases involving construction, appropriate allowance shall be made for general increases in costs of construction in the defense-rental area since 1939.

[Above paragraph amended by Am. 4, Am. 5, Am. 6 and Am. 21, 10 F.R. 14399, effective 11-23-45]

In cases under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the defense-rental area for comparable housing accommodations during the year ending on September 30, 1943.

In cases under paragraph (c) (8) of this section the adjustment shall be on the basis of the average rent during the period of occupancy of the lease or other rental agreement in effect on the date determining the maximum rent.

[Above two paragraphs amended by Am. 4, 9 F.R. 2087, effective 2-22-44; Am. 5, 9 F.R. 2087, effective 2-22-44; and Am. 6, 9 F.R. 3423, effective 3-29-44]

In cases under paragraph (c) (9) of this section, the adjustment in the maximum rent shall be in the amount the Administrator finds necessary to relieve the substantial hardship: *Provided*, That the adjustment shall not result in a maximum rent higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

In cases under paragraph (a) (12) of this section, the adjustment in the maximum rent shall be in the amount the Administrator finds warranted by the modification or elimination of the necessity for the increase in the maximum rent granted under paragraph (a) (12) of this section: *Provided*, That no decrease shall be ordered in an amount greater than the adjustment ordered under paragraph (a) (12) of this section.

[Above two paragraphs added by Am. 10, 9 F.R. 10190, effective 11-1-44]

In cases under paragraph (a) (13) of this section the adjustment shall be in the amount of the difference between the rent on the date determining the maximum rent and the rent agreed upon by the landlord and tenant as a result of a continuous process of bargaining or interrelated matters.

[Above paragraph added by Am. 12, 9 F.R. 11350, effective 9-13-44]

(a) *Grounds for increase of maximum rent.* Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) *Major capital improvement after November 1, 1943.* There has been on or after November 1, 1943 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement, and maintenance.

(2) *Change prior to March 1, 1943.* There was, on or prior to March 1, 1943, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance or a substantial increase in the services, furniture, furnishings or equipment, and the rent on March 1, 1943 was fixed by a lease or other rental agreement which was in force at the time of such change or increase.

[Subparagraph (2) amended by Am. 12, 9 F.R. 11350, effective 9-13-44]

(3) *Substantial increase in services, furniture, furnishings or equipment.* There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent. No increase in the maximum rent shall be ordered on the ground set forth in this paragraph (a) (3) unless the increase in services, furniture, furnishings or equipment occurred with the consent of the tenant or while the accommodations were vacant: *Provided*, That an adjustment may be ordered, although the tenant refuses to consent to the increase in services, furniture, furnishings or equipment, if the Administrator finds that such increase (i) is reasonably required for the operation of a multiple dwelling structure or other structure of which the accommodations are a part or (ii) is necessary for the preservation or maintenance of the accommodations.

(4) *Special relationship between landlord and tenant.* The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1943: *Provided*, That no adjustment under this subparagraph increasing the maximum rent shall be made effective with respect to any accommodations regularly rented to employees of the landlord while the accommodations are rented to an employee, and no petition for such an adjustment will be entertained until the accommodations have been or are about to be rented to one other than an employee.

(5) *Lease for term commencing one year or more before March 1, 1943.* There was in force on March 1, 1943, a written lease, for a term commencing on or prior to March 1, 1942, requiring a rent lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943; or the housing accommodations were not rented on March 1, 1943, but were rented during January or February, 1943 and the last rent for such accommodations during that two-month period was fixed by a written lease, for a term commencing on or prior to March 1, 1942, requiring a rent lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

(6) *Varying rents.* The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a higher rent at other periods during the term of such lease or agreement.

[Subparagraphs (5) and (6) amended by Am. 20, 10 F.R. 11668, effective 9-15-45]

(7) *Seasonal rents.* The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand or seasonal variations in the rent, for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(8) *Substantial increase in occupancy.* There has been, since March 1, 1943, either (i) a substantial increase in the number of subtenants or other persons occupying the accommodations or a part thereof under a rental agreement with the tenant, or (ii) a substantial increase in the number of occupants, in excess of normal occupancy for that class of accommodations on March 1, 1943, or (iii) an increase in the number of occupants over the number contemplated by the rental agreement on the date determining the maximum rent, where the landlord on that date had a regular and definite practice of fixing different rents for the accommodations for different numbers of occupants.

(9) *Temporarily exempt from real estate taxes.* On the date determining the maximum rent the housing accommodations were temporarily exempt from real estate taxes, the landlord was passing the benefit of this tax exemption on to the tenant, and as a result the rent on that date was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1943.

(10) *Priority rating granted on September 1941 application form of Office of Production Management.* The maximum rent for the housing accommodations is established under section 4 (f), the application for priority rating for the construction of the housing accommodations was filed on the September 1941 form in use by the Office of Production Management prior to the revision of this form on December 15, 1941, the landlord did not make, prior to March 1, 1943, or, if the accommodations were not rented on that date, prior to the first renting of the accommodations after that date, a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of increased costs of construction, and the maximum rent for the accommodations is substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable accommodations on March 1, 1943, giving due consideration to general increases in costs of construction, if any, in the Defense-Rental Area since March 1, 1943.

This paragraph (a) (10) shall apply only to housing accommodations which were first rented prior to March 29, 1944.

[Subparagraph (10) added by Am. 6, 9 F.R. 3423, effective 3-29-44; amended by Am. 7, 9 F.R. 4028, effective 4-15-44]

(11) *Peculiar circumstances.* The rent on the date determining the maximum rent was materially affected by peculiar circumstances and as a result was substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

[Subparagraph (11) added by Am. 9, 9 F.R. 8054, effective 7-17-44]

(12) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a substantial decrease in the net income (before interest) of the property for the current year as compared with a representative period prior to March 1, 1943, due to a substantial and unavoidable increase in property taxes or operating costs.

In proper cases increases in pay-roll and property taxes in effect on the date of the filing of the petition may be considered by the Administrator in determining whether substantial hardship exists.

Increased operating costs due to wage increases paid by the landlord shall not be included in any petition filed hereunder unless such wage increases have been approved by the appropriate wage or salary stabilization agency of the United States in accordance with Executive Order 9697 and the regulations issued by the Office of Economic Stabilization pursuant thereto, or unless approval is not required by said order or regulations.

[Above paragraphs added by Am. 26, effective 4-10-46]

For the purposes of this paragraph (a) (12) the term:

(i) "Net income (before interest)" means the amount determined by subtracting unavoidable property taxes and operating costs actually paid or accrued from total income earned.

(ii) "Property taxes and operating costs" includes all expense necessary to the operation and maintenance of the property actually paid or accrued and properly allocated, including depreciation but excluding interest.

(iii) "Property" includes one or more structures operated as a single unit or enterprise.

(iv) "Total income earned" includes rental and other income earned from the property and the rental value of housing accommodations in the property occupied without the full payment of rent.

(v) "Current year" means (*a*) the most recent full calendar or fiscal year used by the landlord, or (*b*) any twelve-month period ending not more than 90 days prior to the filing of the petition: *Provided, however*, That the current year in all cases shall begin on or after the maximum rent date: *And provided, further*, That if allowance is requested for increases in pay roll or property taxes not fully reflected in the "current year" as defined above, at least one calendar month must have passed between the end of the current year and the beginning of the month in which the petition is filed.

[Subparagraph (v) amended by Am. 18, 10 F.R. 2404, effective 3-1-45; and Am. 26, effective 4-10-46]

This section 5 (a) (12) shall not apply to maximum rents established under section 4 (f) where the accommodations are first rented after March 1, 1943 or

to maximum rents established under section 4 (c), (d) or (e).

[Subparagraph (12) added by Am. 10, 9 F.R. 10190, effective 11–1–44; corrected 9 F.R. 10718, effective 8–31–44]

(13) *Rented to an employee of landlord.* The housing accommodations were rented to an employee of the landlord both on the date determining the maximum rent and at the time the order under this paragraph (a) (13) is issued, and after the date determining the maximum rent but prior to the effective date of regulation the landlord and tenant agreed, as the result of a continuous process of bargaining on interrelated matters, upon a wage increase and a rent increase, and the wage increase agreed upon has been put into effect.

[Subparagraph (13) added by Am. 12, 9 F.R. 11350, effective 9–13–44]

(b) *Decreases in minimum services, furniture, furnishings and equipment—(1) Decreases prior to November 1, 1943.* If, on November 1, 1943, the services provided for housing accommodations are less than the minimum services required by section 3, the landlord shall either restore and maintain such minimum services or, on or before November 30, 1943, file a petition requesting approval of the decreased service. If, on November 1, 1943, the furniture, furnishings or equipment provided with housing accommodations are less than the minimum required by section 3, the landlord shall, prior to November 30, 1943, file a written report showing the decrease in furniture, furnishings or equipment.

(2) *Decreases after November 1, 1943.* Except as above provided, the landlord shall, until the accommodations become vacant, maintain the minimum services, furniture, furnishings, and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings, or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings, or equipment he shall file a petition within 10 days after the change occurs. When the accommodations become vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings, or equipment below the minimum, within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) *Adjustment in maximum rent for decreases.* The order on any petition under this paragraph (b) may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph (b) may be decreased in accordance with the provisions of section 5 (c) (3).

If the landlord fails to file the petition or report required by this paragraph (b) within the time specified, or decreases the services, furniture, furnishings, or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or the effective date of regulation, whichever is later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings, or equipment. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of § 1300.209 or 1300.217 of Revised Procedural Regulation No. 3. If the Administrator finds that the landlord was not at fault in failing to comply with this paragraph (b), the order may relieve the landlord of the duty to refund. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the act for failure to comply with any requirement of this paragraph (b).

[Subparagraph (3) amended by Am. 18, 10 F.R. 2404, effective 3–1–45; corrected 10 F.R. 3014, effective 3–20–45; and Am. 24, 11 F.R. 2447, effective 3–9–46]

(c) *Grounds for decrease of maximum rent.* The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) *Rent higher than rents generally prevailing.* The maximum rent for housing accommodations under paragraph (c), (d), (e), or (g) of section 4 is higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

(2) *Substantial deterioration.* There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) *Decrease in services, furniture, furnishings or equipment.* There has been a decrease in the minimum services, furniture, furnishings or equipment required by section 3 since the date or order determining the maximum rent.

(4) *Special relationship between landlord and tenant or peculiar circumstances.* The rent on the date determining the maximum rent was materially affected by the blood, personal, or other special relationship between the landlord and the tenant, or by peculiar circumstances, and as a result was substantially higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

[Subparagraph (4) amended by Am. 9, 9 F.R. 8054, effective 7–17–44]

(5) *Varying rents.* The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a lower rent at other periods during the term of such lease or agreement: *Provided,* That this subparagraph shall not apply to cases covered by paragraph (c) (8) of this section.

[Subparagraph (5) amended by Am. 5, 9 F.R. 2087, effective 2–22–44 and Am. 20, 10 F.R. 11668, effective 9–15–45]

(6) *Seasonal rent.* The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand, or seasonal variations in the rent, for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(7) *Substantial decrease in occupancy.* There has been a substantial decrease in the number of subtenants or other occupants since an order under paragraph (a) (8) of this section.

(8) *Rent concession.* The rent on the date determining the maximum rent was established by a lease or other rental agreement for a period of occupancy of one or more years, which provided for a rent concession during such period of occupany in the form of either a rent-free period or an abatement of rent.

[Subparagraph (8) added by Am. 5, 9 F.R. 2087, effective 2–22–44]

(9) *Modification or elimination of necessity for increase under section 5 (a) (12).* There has been a modification or elimination of the necessity for the increase in the maximum rent granted under paragraph (a) (12) of this section, since the order issued under that paragraph.

[Subparagraph (9) added by Am. 10, 9 F.R. 10190, effective 11–1–44]

(d) *Orders where facts are in dispute, in doubt, or not known.* If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, or the services, furniture, furnishings or equipment provided with the accommodations on the date determining the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed on or before November 30, 1943, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact, or determining the services, furniture, furnishings and equipment provided with the accommodations on the date determining the maximum rent or both. If the Administrator is unable to ascertain such fact, or facts, he shall enter the order on the basis of the rent which he finds was generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943, and, where appropriate, may determine the services, furniture, furnishings and equipment included in such rent.

[Paragraph (d) amended by Am. 20, 10 F.R. 11668, effective 9–15–45]

(e) *Sale of underlying lease or other rental agreement.* Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the Administrator for leave to exercise any right he would have except for this regulation to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

(f) *Interim orders.* Where a petition is filed by a landlord on one of the grounds set out in paragraph (a) or (d) of this section, or a proceeding is initiated by the Administrator under paragraph (d), the Administrator may enter an interim order increasing or fixing the maximum rent until further order, subject to refund by the landlord to the tenant of any amount received in excess of the maximum rent established by final order in such proceeding. The receipt by the landlord of any rent authorized by such interim order shall constitute an agreement by the landlord with the tenant to refund to the tenant any amount received in excess of the maximum rent established by final order. The landlord shall make such refund either by repayment in cash or, where the tenant remains in occupancy after the effective date of the final order, by deduction from the next installment of rent, or both.

[Paragraph (f) amended by Am. 2, 9 F.R. 15586, effective 11–13–43]

(g) *Adjustments in case of options to buy.* No adjustment in the maximum rent shall be ordered on the ground that the landlord, since the date or order determining the maximum rent, has, as a part of or in connection with a lease of housing accommodations, granted the tenant an option to buy the accommodations which are the subject of the lease. Where a lease of housing accommodations was in force on the date determining the maximum rent, and the landlord had on that date, as a part of or in connection with such lease, granted the tenant an option to buy the accommodations which are the subject of the lease, the Administrator may, on or after the termination of such lease, on his own initiative or on application of the tenant, enter an order fixing the maximum rent on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations not subject to an option to buy on March 1, 1943.

SEC. 6. *Removal of tenant—(a) Restrictions on removal of tenant.* So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, and regardless of any contract, lease agreement or obligation heretofore or hereafter entered into which provides for entry of judgment upon the tenant's confession for breach of the covenants thereof or which otherwise provides contrary hereto, unless:

(1) *Tenant's refusal to renew lease.* The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration, or if the lease was for a term of less than one year but more than three months and was nonseasonal in character, for a term of not more than one year, for a rent not in excess of the maximum rent, but otherwise on the same terms and conditions as the previous lease or agreement, except insofar as such terms and conditions are inconsistent with this regulation; or

[Subparagraph (1) amended by Am. 18, 10 F.R. 2404, effective 3–1–45; Am. 20, 10 F.R. 11668, effective 9–15–45 and Am. 23, 11 F.R. 3115, effective 3–1–46]

(2) *Tenant's refusal of access to landlord.* The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser, mortgagee, or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) *Violating obligation of tenancy or committing nuisance.* The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) *Subtenants on expiration of tenant's lease.* The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the occupants of the housing accommodations are subtenants or other persons who occupied under a rental agreement with the tenant, and no part of the accommodation is used by the tenant as his own dwelling; or

(5) [Revoked]

[Subparagraph (5) revoked; and (6) amended by Am. 20, 10 F.R. 11668, effective 9–15–45]

(6) *Occupancy by landlord.* The landlord owned, or acquired an enforceable right to buy or the right to possession of, the housing accommodations prior to November 1, 1943, and has an immediate compelling necessity to recover possession of such accommodations for use and occupancy as a dwelling for himself, or has served during the period of the war emergency in the armed forces of the United States and in good faith seeks possession for his own occupancy. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, the landlord shall file a written report on a form provided therefor before renting the accommodations or any part thereof during a period of six months after such removal or eviction.

(b) *Administrator's certificate — (1) Removals not inconsistent with act or regulation.* No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the act or this regulation and would not be likely to result in the circumvention or evasion thereof. The certificate shall authorize the pursuit of local remedies at the expiration of six months after the date of filing of the petition unless the Area Rent Director has determined that a three months' period is adequate for the purposes of the act in this area in issuing certificates under section 6 (b) (2), in which event the applicable period shall be three months. Within the discretion of the Area Rent Director the certificate may authorize the pursuit of local remedies for the removal or eviction of the tenant at a time less than six or three months, as the case may be, after the date of the filing of the petition if the petitioner establishes that unusual hardship would otherwise result, or that a lesser period in the particular case is consistent with the purposes of the regulation and the act.

[Subparagraph (1) amended by Am. 20, 10 F.R. 11668, effective 9–15–45]

(2) *Occupancy by purchaser.* A certificate shall be issued authorizing the pursuit of local remedies to remove or evict a tenant of the vendor, for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after November 1, 1943, only as provided in this paragraph (b) (2).

(i) Where the Administrator finds that the payment or payments of principal made by the purchaser aggregate twenty per cent or more of the purchase price, he shall, on petition of either the vendor or purchaser issue a certificate authorizing the vendor or purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law. Except as herein provided and unless the Area Rent Director shall determine that a three months' period is adequate for the purposes of the act in this defense-rental area, the certificate shall authorize the pursuit of local remedies at the expiration of six months after the date of filing of the petition.

[Above paragraph amended by Am. 20, 10 F.R. 11668, effective 9–15–45]

The payment or payments of principal may be made by the purchaser conditionally or in escrow to the end that they shall be returned to the purchaser in the event the Administrator denies a petition for a certificate.

Any payments of principal made from funds borrowed for the purpose of making such payments, shall be excluded in determining whether twenty per cent of the purchase price has been paid, unless the Administrator finds that the inclusion of such payments is consistent with the purposes of this paragraph (b) (2) and would not be likely to result in the circumvention or evasion thereof.

[Above paragraph amended by Am. 18, 10 F.R. 2404, effective 3–1–45]

Where property other than the housing accommodations which are the subject

of the purchase is mortgaged or pledged to the vendor to secure any unpaid balance of the purchase price, the payment requirement shall be deemed satisfied if the value of such security, plus any payments of principal made from funds not borrowed for the purpose of making such principal payments, equal twenty per cent or more of the purchase price.

(ii) Where the Administrator finds (*a*) that equivalent accommodations are available for rent into which the tenant can move without substantial hardship or loss, or (*b*) that the vendor has or had a substantial necessity requiring the sale and that a reasonable sale or disposition of the accommodations could not be made without the removal or eviction of the tenant, or (*c*) that other special hardship would result, or (*d*) the purchaser has, during the period of the war emergency, served in the armed forces of the United States and requires possession of the accommodations for the adequate housing of himself and family, a certificate may be issued although less than twenty per cent of the purchase price has been paid and may authorize the vendor or the purchaser to pursue his remedies for removal or eviction of the tenant at a time less than six or three months as the case may be in this area after the date of filing of the petition.

[Subparagraph (ii) amended by Am. 20, 10 F.R. 11668, effective 9-15-45]

(iii) The payment of twenty percent or more of the purchase price shall not be a condition to the issuance of a certificate under this paragraph (b) (2) where the purchaser has obtained a loan to be used in purchasing the housing accommodations which is guaranteed in whole or in part by the Administrator of Veterans' Affairs pursuant to the provisions of Title III of the Servicemen's Readjustment Act of 1944.

[Subparagraph (iii) added by Am. 14, 9 F.R. 14987, effective 12-27-44]

[Subparagraph (2) amended by Am. 8, 9 F.R. 6360, effective 6-9-44 and as otherwise noted]

(3) *Occupancy by purchaser of stock in a cooperative.* (i) This paragraph (b) (3) applies to the issuance of a certificate for occupancy of housing accommodations in a structure or premises owned or leased by a cooperative corporation or association (hereinafter called "cooperative") by a purchaser of stock or other evidence of interest (hereinafter called "stock") in such cooperative who is entitled by reason of ownership of such stock to a proprietary lease of such housing accommodations. It applies only to the issuance of a certificate authorizing the pursuit of local remedies to remove or evict one who was a tenant of the housing accommodations at the time of such purchase.

(ii) Where the cooperative was organized as such or acquired its title or leasehold interest in the structure or premises on or after February 17, 1945, or the effective date of regulation, whichever is the later, or where the purchased stock originally was issued on or after that date, no certificate shall be issued, unless on such date the cooperative was in the process of organization and the Administrator finds that substantial hardship would result from the failure to issue a certificate, or unless, at the time of issuance of the certificate, stock in the cooperative has been purchased by persons who are then tenants of at least 80% of the dwelling units in the structure or premises and are entitled by reason of stock ownership to proprietary leases of dwelling units in the structure or premises.

(iii) Where the cooperative was organized and acquired its title or leasehold interest in the structure or premises before February 17, 1945, or the effective date of regulation, whichever is the later, and on that date stock in the cooperative allocated to more than 50% of the dwelling units in the structure or premises was held by the cooperative, or by another person owning more shares than those allocated to a single dwelling unit, or both, no certificate shall be issued for occupancy by a purchaser of stock so held or owned on such date, unless, at the time of issuance of the certificate, stock in the cooperative is owned or has been purchased by persons who are then tenants of at least 80% of the dwelling units in the structure or premises and are entitled by reason of stock ownership to proprietary leases of dwelling units in the structure or premises.

(iv) In all other cases, including those excepted from paragraph (b) (3) (ii) and (iii), the issuance of a certificate shall be pursuant to paragraph (b) (2).

[Subparagraph (3) added by Am. 17, 10 F.R. 1974, effective 2-17-45]

(c) *Exceptions from section 6*—(1) *Subtenants.* The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(2) *Housing subject to rent schedule of War or Navy Department.* The provisions of this section shall not apply to housing accommodations rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

(3) *One or two occupants in landlord's residence.* The provisions of this section shall not apply to an occupant of a furnished room or rooms not constituting an apartment, located within the residence occupied by the landlord or his immediate family, where such landlord rents to not more than two occupants within such residence.

(4) *Renting to family in landlord's residence.* The provisions of this section shall not apply to a family which on or after August 1, 1943 moves into a furnished room or rooms not constituting an apartment, located within the residence occupied by the landlord or his immediate family, where such landlord does not rent to any persons within such residence other than those in the one family.

(5) *Relocation of temporary housing by National Housing Agency.* Provisions of this section shall not apply to temporary or movable housing accommodations under the jurisdiction of the National Housing Agency which have been placed in a terminated status by the National Housing Administrator for relocation in another area for the purposes and objectives of Title 5 Public Law 849 (76th Congress), as amended, (Lanham Act).

[Subparagraph (5) added by Am. 23, 11 F.R. 3115, effective 3-1-46]

(d) *Notices required*—(1) *Notices prior to action to remove tenant.* Every notice to a tenant to vacate or surrender possession of housing accommodations shall state the ground under this section upon which the landlord relies for removal or eviction of the tenant. A written copy of such notice shall be given to the area rent office within 24 hours after the notice is given to the tenant.

No tenant shall be removed or evicted from housing accommodations by court process or otherwise, on any ground other than nonpayment of rent, unless at least ten days prior to the time specified for surrender of possession and to the commencement of any action for removal or eviction, the landlord has given written notices of the proposed removal or eviction to the tenant and to the area rent office, stating the ground under his section upon which such removal or eviction is sought and specifying the time when the tenant is required to surrender possession.

The provisions of this paragraph (d) (1) shall not apply where a certificate has been issued by the Administrator pursuant to the provisions of paragraph (b) of this section.

[Subparagraph (1) amended by Am. 1, 8 F.R. 14814, effective 11-1-43]

(2) *Notices at time of commencing action to remove tenant.* At the time of commencing any action to remove or evict a tenant, including an action based upon nonpayment of rent, the landlord shall give written notice thereof to the area rent office stating the title of the case, the number of the case where that is possible, the court in which it is filed, the name and address of the tenant, and the ground under this section on which removal or eviction is sought.

(e) *Local law.* No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

SEC. 7. *Registration*—(a) *Registration requirements.* On or before December 15, 1943, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in the area rent office a form provided by the area rent office for this purpose. The form shall identify each dwelling unit and shall specify the maximum rent provided by this regulation for such dwelling unit and shall contain such other information as the Administrator shall require.

Where, since the filing of the registration statement but prior to May 5, 1945, there has been a change in the identity of the landlord, by transfer of title or otherwise, the present landlord, on or before May 31, 1945, shall file a notice of such change on a form provided for that purpose, to be known as a notice of change in identity. Where such change occurs on or after May 5, 1945, or the effective date of regulation, whichever is the later, the new landlord shall file such notice within thirty days after the change: *Provided,* That this sentence shall not apply where a petition has been filed under section 6 (b) (2) seeking a certificate for occupancy by the new landlord. If the new landlord indicates on the notice of change in identity that he has not obtained the landlord's copy of the original registration statement, the Administrator shall cause to be prepared and delivered to him a true copy of said original, which may be used to satisfy all requirements of this paragraph (a).

[Above paragraph amended by Am. 20, 10 F.R. 11668, effective 9-15-45]

Any notice, order or other process or paper directed to the person named on the registration statement as the landlord at the address given thereon, or, where a notice of change in identity has been filed, to the person named as landlord and at the address given in the most recent such notice, shall, under the circumstances prescribed in Revised Procedural Regulation No. 3,[1] constitute notice to the person who is then the landlord.

[Above two paragraphs added by Am. 19, 10 F.R. 5090, effective 5-5-45]

The provisions of this section shall be applicable to any housing accommodations whose maximum rent is determined under section 4 (g), on its sale by the owning agency, and within thirty days after the sale of such accommodations the new landlord shall file a registration statement as provided in subsection (a) of this section: *Provided, however,* That if the housing accommodations are sold to the United States or a state of the United States or any of its political subdivisions, or any agency of the foregoing, subsection (c) of this section shall continue to be applicable.

[Above paragraph added by Am. 23, 11 F.R. 3115, effective 3-1-46]

[Paragraph (a) amended by Am. 3, 8 F.R. 16219, effective 11-29-43 and as otherwise noted]

(1) *Notice of maximum rent.* The landlord shall prepare the form known as "Notice of Maximum Rent" if the maximum rent for the dwelling unit is determined under paragraph (a) of section 4. The landlord shall prepare the notice in duplicate and shall send one copy to the tenant and one copy to the area rent office.

(2) *Registration statement.* The landlord shall prepare the form known as "Registration Statement" if the maximum rent for the dwelling unit is determined under paragraph (b), (c), (d), (e), or (f) of section 4. The landlord shall prepare the Registration Statement in triplicate and shall send the three copies to the area rent office. The Administrator shall retain one copy on file, and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord.

(3) *Change in tenancy.* Within five days after renting to a new tenant, the landlord shall file a form provided by the area rent office for this purpose. The landlord shall state the maximum rent for the dwelling unit, and he shall obtain the new tenant's signature on this form.

(b) *Receipt for amount paid.* No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

SECTION 1. *Scope of this regulation—*(a) *Rooms in hotels and rooming houses in the New York City Defense-Rental Area.* This regulation applies to all rooms in hotels and rooming houses in the New York City Defense-Rental Area, consisting of the City of New York (including the Boroughs of Bronx, Brooklyn, Manhattan, Queens, and Richmond) and the Counties of Nassau and Suffolk in the State of New York, except as provided in paragraph (b) of this section. The New York City Defense-Rental Area is referred to hereinafter in this regulation as the "Defense-Rental Area."

(b) *Housing to which this regulation does not apply.* This regulation does not apply to the following:

(1) *Farming tenants.* Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon.

(2) *Service employees.* Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part or all of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part.

[Subparagraph (2) amended by Am. 18, 10 F.R. 2406, effective 3-1-45]

(3) *Charitable or educational institutions.* Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes.

(4) *Entire structures used as hotels or rooming houses.* Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(5) *Non-profit clubs.* Rooms in a bona fide club certified by the Administrator as exempt. The Administrator shall so certify if, on written request of the landlord, he finds that the club (i) is a non-profit organization and is recognized as such by written statement of the Bureau of Internal Revenue, (ii) rents rooms only to members, bona fide guests of members, and members of bona fide clubs with which the club has reciprocal arrangements for the exchange of privileges, and (iii) is otherwise operated as a bona fide club.

[Subparagraph (5) aded by Am. 16, 10 F.R. 324, effective 1-10-45. Original subparagraph (5) added by Am. 5, 9 F.R. 2086, effective 2-22-44, and expired 9-30-44]

(6) *College fraternity or sorority houses.* Rooms in a bona fide college fraternity or sorority house certified by the Administrator as exempt. The Administrator shall so certify if, on written request of the landlord, he finds that the fraternity or sorority is a bona fide organization operated for the benefit of students and not for profit as a commercial or business enterprise. This exemption shall not apply when the rooms are rented to persons who are not members of the fraternity or sorority.

[Subparagraph (6) added by Am. 16, 10 F.R. 324, effective 1-10-45]

(7) *Resort housing.* Rooms located in a resort community and customarily rented or occupied on a seasonal basis prior to October 1, 1945, which were not rented during any portion of the period beginning on November 1, 1943 and ending on February 29, 1944.

[Subparagraph (7) added by Am. 17, 10 F.R. 1452, effective 2-3-45; amended by Am. 23, 11 F.R. 2773, effective 3-15-46]

(c) *Effect of this regulation on leases and other rental agreements.* The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this regulation.

(d) *Waiver of benefit void.* An agreement by the tenant to waive the benefit of any provision of this regulation is void. A tenant shall not be entitled by reason of this regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to November 1, 1943.

(e) *Election by landlord to bring housing under this regulation.* Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such a building or establishment under the control of this regulation. A landlord who so elects shall file a registration statement under this regulation for all such housing accommodations accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Rent Regulation for Housing in the New York City Defense-Rental Area, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Rent Regulation for Housing in the New York City Defense-Rental Area all housing accommodations previously brought under this regulation by such election. He shall make such revocation by filing a registration statement or statements under the Rent Regulation for Housing in the New York City Defense-Rental Area, including in such registration statement or statements all housing accommodations brought under this regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Rent Regulation for Housing in the New York City Defense Rental Area.

SEC. 2. *Prohibition—*(a) *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for or in connection with the use or occupancy on and after November 1, 1943 of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this regulation; and no person shall offer, solicit,

[1] 10 F.R. 324.

attempt, or agree to do any of the foregoing. Lower rents than those provided by this regulation may be demanded or received.

[Paragraph (a) amended by Am. 12, 9 F.R. 10633, effective 9-1-44]

(b) *Terms of occupancy*—(1) *Tenant not required to change term of occupancy.* No tenant shall be required to change his term of occupancy.

(2) *Term of occupancy during June, 1943.* Where, during June, 1943, a room was rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy except that he is not required to rent for that term more than the greatest number of rooms which were rented for the term at any one time during June, 1943. However, if, during the year ending on June 30, 1943, a landlord had regular and definite seasonal practices with reference to the renting of rooms on a weekly or monthly basis, he may request the Administrator to approve such practices. When approval is given the landlord shall offer rooms for rent for weekly and monthly terms of occupancy pursuant to the practices so approved. The Administrator may withdraw approval at any time if he finds that the landlord has failed to conform to such practices, or if he finds that the effects of the approval are inconsistent with the Act or this regulation or are likely to result in the circumvention or evasion thereof.

(3) *Request by tenant to change term of occupancy.* Any tenant on a daily or weekly term of occupancy shall on request be permitted by the landlord to change to a weekly or monthly term unless the landlord is then renting for such term a number of rooms equal to the number which he is required to rent for that term under subparagraph (2). If the room occupied by such tenant was not rented or offered for rent for such term during June, 1943, the landlord may transfer the tenant to a room, as similar as possible, which was so rented or offered for rent.

[Subparagraphs (2) and (3) amended by Am. 4, 8 F.R. 16893, effective 12-16-43]

(4) [Revoked.]

[Subparagraph (4) added by Am. 8, 9 F.R. 5003, effective 5-12-44; revoked by Am. 22, 10 F.R. 15212, effective 12-21-45]

(5) *Weekly and monthly terms of occupancy 50% or less.* A landlord who is required to rent for weekly or monthly terms of occupancy 50% or less of the rooms in the establishment, under subparagraph (2) of this paragraph, may petition the Administrator to be relieved of such requirement. Upon issuance of an order granting such petition, the provisions of subparagraphs (2) and (3) of this paragraph no longer shall apply to the rooms in the establishment; but, unless otherwise provided in the order, the maximum rent for a weekly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than 10 days, and the maximum rent for a monthly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than thirty days, regardless of whether the tenant occupies the same room in the establishment during the specified period. The maximum rent on a weekly or monthly basis, as the case may be, shall apply from the date of issuance of the order or the date on which occupancy commenced, whichever is the later.

[Above paragraph amended by Am. 22]

If the landlord establishes that it was not his practice, during a reasonable period prior to November 1, 1943, to rent on a weekly basis, the order shall provide only for the application of the maximum monthly rent after thirty days' occupancy pursuant to the foregoing provisions. If the landlord establishes that it was not his practice, during such period, to rent on a monthly basis, the order shall provide only for the application of the maximum weekly rent pursuant to the foregoing provisions.

The order of the Administrator granting the landlord's petition may fix maximum rents for weekly and monthly terms of occupancy and for different numbers of occupants for those terms pursuant to section 4 (g). Immediately upon issuance of the order, the landlord shall post maximum rents established for weekly and monthly terms of occupancy in the manner provided by section 7 (b), to the extent that the order requires the application of such rents, or in lieu thereof shall in a manner approved by the Area Rent Director, post advice that maximum rents for weekly or monthly terms of occupancy required by the order may be obtained from the landlord on request.

[Above paragraph amended by Am. 21, 10 F.R. 11071, effective 9-1-45]

The Administrator may revoke the order at any time if he finds that its effect is inconsistent with the purposes of the act of this regulation or is likely to result in the circumvention or evasion thereof.

[Subparagraph (5) added by Am. 8, 9 F.R. 5003, effective 5-12-44; amended by Am. 15, 9 F.R. 14239, effective 12-2-44]

(6) If the landlord's duty under subparagraph (2), with reference to a room is in dispute, or in doubt, or not known, the Administrator, at any time on his own initiative may issue an order determining the necessary facts and establishing such duty; or, if the Administrator is unable to ascertain the necessary facts, he may issue an order pursuant to subparagraph (7).

(7) Where subparagraph (2) does not require the offering of a room on a weekly or monthly basis, or where the Administrator is unable to ascertain the facts necessary to establish the landlord's duty under that paragraph, he may at any time on his own initiative issue an order requiring the room to be offered for rent for a weekly or monthly term of occupancy, or both. The Administrator may issue such orders if he finds that, during a reasonable period prior to the time the proceeding hereunder is commenced, the room has been rented under circumstances which make appropriate the application of weekly or monthly rents. In determining whether the landlord shall be required to offer the room on a weekly basis, or on a monthly basis, or both, the Administrator will consider the practices which prevailed in the defense-rental area for similar accommodations during a reasonable period prior to November 1, 1943.

Upon issuance of such an order, the room shall be offered for rent on a weekly or monthly basis, or both, as the order may require, for each number of occupants, for which it is offered by the landlord for any other term of occupancy. A tenant of the room on a daily or weekly basis shall on request be permitted by the landlord to change to any term of occupancy which the landlord is required to offer pursuant to the order.

[Subparagraphs (6) and (7) added by Am. 15, 9 F.R. 14239, effective 12-2-44]

(c) *Security deposits* — (1) *General prohibition.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person on or after September 1, 1944, shall demand or receive a security deposit for or in connection with the use or occupancy of any room in a hotel or rooming house within the defense-rental area or retain any security deposit received prior to or on or after September 1, 1944, except as provided in this paragraph (c). The term "security deposit", in addition to its customary meaning, includes any prepayment of rent except payment in advance of the next periodic installment of rent for a period no longer than one month but shall not include rent voluntarily prepaid subsequent to possession by a tenant under a written lease for his own convenience.

[Paragraph (c) added by Am. 12, 9 F.R. 10633, effective 9-1-44; amended by Am. 14, 9 F.R. 12415, effective 10-12-44 and Am. 22, 10 F.R. 15212, effective 12-21-45]

SEC. 3. *Minimum services, furniture, furnishings, and equipment.* Except as set forth in section 5(b), every landlord shall, as a minimum, provide with a room the same essential services, furniture, furnishings and equipment as those provided on the date or during the thirty-day period determining the maximum rent, and as to other services, furniture, furnishings and equipment not substantially less than those provided on such date or during such period: *Provided, however,* That where fuel oil is used to supply heat or hot water for a room, and the landlord provided heat or hot water on the date or during the thirty-day period determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

SEC. 4. *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in section 5) shall be:

(a) *Rented or regularly offered during maximum rent period.* For a room rented or regularly offered for rent during the thirty days ending on March 1, 1943, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period, or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) *First rented or regularly offered after maximum rent period.* For a room neither rented nor regularly offered for rent during the thirty days ending on March 1, 1943, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after March 1, 1943; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) *First rent after March 1, 1943 where no maximum rent established under* (a) *or* (b). For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section the first rent for the room after March 1, 1943 for that term and number of occupants, but no more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) *Rooms constructed and owned by the government.* For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1943, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in section 5 (c) (1).

(e) *Meals with room.* For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment, if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on March 1, 1943.

(f) *Rooms subject to rent schedule of War or Navy Department.* For a room rented to either Army or Navy personnel including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department, the rents established by such rent schedule.

(g) *Rent fixed by order of Administrator.* For a room for a particular term or number of occupants for which no maximum rent has been established under any other provision of this regulation, the rent fixed by order of the Administrator as provided in this paragraph (g).

The Administrator at any time on his own initiative or on petition of the landlord may enter an order fixing the maximum rent and specifying the minimum services for a room for a particular term or number of occupants for which no maximum rent has been established prior to issuance of the order under any other provision of this regulation. Such maximum rent shall be fixed on the basis of the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on the maximum rent date.

[Paragraph (g) added by Am. 8, 9 F.R. 5003, effective 5-12-44]

SEC. 5. *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required.

In those cases involving a major capital improvement, an increase or decrease in services, furniture, furnishings or equipment, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on March 1, 1943 the difference in the rental value of the housing accommodations by reason of such change: *Provided, however,* That no adjustment shall be ordered where it appears that the rent on the date or during the thirty-day period determining the maximum rent was fixed in contemplation of and so as to reflect such change.

In all other cases, except those under paragraphs (a) (7), (a) (9), (c) (4), (c) (5), and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943: *Provided,* That in cases under paragraph (a) (6) of this section the adjustment may be on the basis of the rental agreement in force during the thirty-day period determining the maximum rent.

[Above paragraph amended by Am. 22, 10 F.R. 15212, effective 12-21-45]

In cases under paragraph (a) (9) of this section, the adjustment in the maximum rent shall be in the amount the Administrator finds necessary to relieve the substantial hardship: *Provided,* That the adjustment shall not result in a maximum rent higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

In cases under paragraph (c) (6) of this section, the adjustment in the maximum rent shall be in the amount the Administrator finds warranted by the modification or elimination of the necessity for the increase in the maximum rent granted under paragraph (a) (9) of this section: *Provided,* That no decrease shall be ordered in an amount greater than the adjustment ordered under paragraph (a) (9) of this section.

In cases involving construction, appropriate allowance shall be made for general increases in costs of construction in the Defense-Rental Area since 1939.

[Above paragraph amended by Am. 22]

In cases under paragraphs (a) (7) and (c) (4) of this section, the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the defense-rental area for comparable housing accommodations during the year ending on March 1, 1943.

In cases under paragraph (c) (5) of this section the adjustment shall be on the basis of the average rent during the period of occupancy of the lease or other rental agreement in effect on the date determining the maximum rent.

[Above paragraphs amended by Am. 5, 9 F.R. 2086, effective 2-22-44; Am. 6, 9 F. R. 2086, effective 2-22-44; Am. 7, 9 F.R. 3422, effective 3-29-44; Am. 10, 9 F.R. 9428, effective 8-3-44; and Am. 11, 9 F. R. 10191, effective 11-1-44]

(a) *Grounds for increase of maximum rents.* Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the ground that:

(1) *Major capital improvement since maximum rent period.* There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement, and maintenance.

(2) *Change prior to March 1, 1943.* There was, on or prior to the maximum rent date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance or a substantial increase in services, furniture, furnishings or equipment, and the rent during the thirty-day period ending on March 1, 1943 was fixed by a lease or other rental agreement which was in force at the time of such change or increase.

[Subparagraph (2) amended by Am. 13, 9 F.R. 11334, effective 9-13-44]

(3) *Substantial increase in services, furniture, furnishings, or equipment.* There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) *Special relationship between landlord and tenant.* The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relation-

ship between the landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1943.

(5) *Lease for term commencing on or prior to March 1, 1942.* There was in force on March 1, 1943, a written lease, for a term commencing on or prior to March 1, 1942, requiring a rent lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

(6) *Varying rents.* The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a higher rent at other periods during the term of such lease or agreement.

[Subparagraphs (5) and 6) corrected, 8 F.R. 14617; Amended by Am. 22, 10 F.R. 15212, effective 12–21–45]

(7) *Seasonal demand.* The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(8) *Peculiar circumstances.* The rent during the thirty-day period determining the maximum rent was materially affected by peculiar circumstances and as a result was substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943.

[Subparagraph (8) added by Am. 9, 9 F.R. 8055, effective 7–17–44]

(9) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a substantial decrease in the net income (before interest) of the property for the current year as compared with a representative period prior to March 1, 1943, due to a substantial and unavoidable increase in property taxes or operating costs.

In proper cases increases in payroll and property taxes in effect on the date of the filing of the petition may be considered by the Administrator in determining whether substantial hardship exists.

Increased operating costs due to wage increases paid by the landlord shall not be included in any petition filed hereunder unless such wage increases have been approved by the appropriate wage or salary stabilization agency of the United States in accordance with Executive Order 9697 and the regulations issued by the Office of Economic Stabilization pursuant thereto, or unless approval is not required by said order or regulations.

[Above paragraphs added by Am. 24, effective 4–10–46]

For the purposes of this paragraph (a) (9) the term:

(i) "Net income (before interest)" means the amount determined by subtracting unavoidable property taxes and operating costs actually paid or accrued from total income earned.

(ii) "Property taxes and operating costs" includes all expenses necessary to the operation and maintenance of the property actually paid or accrued and properly allocated, including depreciation but excluding interest.

(iii) "Property" includes one or more structures operated as a single unit or enterprise.

(iv) "Total income earned" includes rental and other income earned from the property and the rental value of housing accommodations in the property occupied without the full payment of rent.

(v) "Current year" means (*a*) the most recent full calendar or fiscal year used by the landlord, or (*b*) any twelve-month period ending not more than 90 days prior to the filing of the petition: *Provided, however,* That the current year in all cases shall begin on or after the maximum rent date: *And provided, further,* That if allowance is requested for increases in payroll or property taxes not fully reflected in the "current year" as defined above, at least one calendar month must have passed between the end of the current year and the beginning of the month in which the petition is filed.

[Subparagraph (v) amended by Am. 18, 10 F.R. 2406, effective 3–1–45 and Am. 24, effective 4–10–46]

[Subparagraph (9) added by Am. 11, 9 F.R. 10191, effective 11–1–44, corrected 9 F.R. 10718, effective 8–31–44]

(b) *Decreases in minimum services, furniture, furnishings and equipment—*(1) *Decreases existing on November 1, 1943.* If, on November 1, 1943, the services provided for a room are less than the minimum services required by section 3, the landlord shall either restore and maintain such minimum services, or, on or before November 30, 1943, file a petition requesting approval of the decreased services. If, on November 1, 1943, the furniture, furnishings or equipment provided with a room are less than the minimum required by section 3, the landlord shall on or before November 30, 1943, file a written report showing the decrease in furniture, furnishings or equipment.

(2) *Decreases after November 1, 1943.* Except as above provided, the landlord shall, until the room becomes vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the room becomes vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) *Adjustment in maximum rent for decreases.* The order on any petition under this paragraph (b) may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph (b) may be decreased in accordance with the provisions of section 5 (c) (3).

If the landlord fails to file the petition or report required by this paragraph (b) within the time specified, or decreases the services, furniture, furnishings, or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or November 1, 1943, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings, or equipment. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order. If the Administrator finds that the landlord was not at fault in failing to comply with this paragraph (b), the order may relieve the landlord of the duty to refund. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the Act for failure to comply with any requirement of this paragraph (b).

[Subparagraph (3) amended by Am. 20, 10 F.R. 9445, effective 8–1–45]

(c) *Grounds for decrease of maximum rent.* The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) *Rent higher than rent generally prevailing.* The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1943.

(2) *Substantial deterioration.* There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) *Decrease in services, furniture, furnishings, or equipment.* There has been a decrease in the minimum services, furniture, furnishings or equipment required by section 3 since the date or order determining the maximum rent.

(4) *Seasonal demand.* The rent on the date determining the maximum rent for the room was substantially higher than at other times of year by reason of seasonal demand for such rooms. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(5) *Rent concession.* The rent on the date determining the maximum rent was established by a lease or other rental agreement for a period of occupancy of one or more years, which provided for a rent concession during such period of occupancy in the form of either a rent-free period or an abatement of rent.

[Subparagraph (5) added by Am. 6, 9 F.R. 2086, effective 2–22–44]

(6) *Modification or elimination of necessity for increase under section 5 (a) (9).* There has been a modification or elimination of the necessity for the increase in the maximum rent granted under paragraph (a) (9) of this section, since the order issued under that paragraph.

[Subparagraph (6) added by Am. 11, 9 F.R. 10191, effective 11–1–44]

(d) *Orders when facts are in dispute, in doubt or not known.* If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, or the services, furniture, furnishings or equipment provided with the accommodations on the date determining the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed on or before November 30, 1943, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact, or determining the services, furniture, furnishings and equipment provided with the accommodations on the date determining the maximum rent or both. If the Administrator is unable to ascertain such fact, or facts, he shall enter the order on the basis of the rent which he finds was generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1943 and, where appropriate, may determine the services, furniture, furnishings and equipment included in such rent.

[Paragraph (d) amended by Am. 22, 10 F.R. 15212, effective 12–21–45]

(e) *Interim orders.* Where a petition is filed by a landlord on one of the grounds set out in paragraph (a) or (d) of this section, or a proceeding is initiated by the Administrator under paragraph (d), the Administrator may enter an interim order increasing or fixing the maximum rent until further order, subject to refund by the landlord to the tenant of any amount received in excess of the maximum rent established by final order in such proceeding. The receipt by the landlord of any rent authorized by such interim order shall constitute an agreement by the landlord with the tenant to refund to the tenant any amount received in excess of the maximum rent established by final order. The landlord shall make such refund either by repayment in cash or, where the tenant remains in occupancy after the effective date of the final order, by deduction from the next installment of rent, or both.

[Paragraph (e) added by Am. 1, 8 F.R. 14814, effective 11–1–43; and amended by Am. 2, 8 F.R. 15581, effective 11–13–43]

(f) *Uniform daily rent.* The landlord of any establishment containing more than fifty rooms for which maximum rents on a daily basis are established, may petition the Administrator for permission to establish uniform maximum daily rents for substantially identical rooms for each number of occupants for which such rooms are offered for rent. Permission may be granted if the aggregate of the maximum daily rents requested for each group of substantially identical rooms for each number of occupants does not exceed the aggregate maximum daily rents previously established for such rooms for each number of occupants. With the consent of the Area Rent Director, minor adjustments may be permitted as between different classes of rooms and numbers of occupants providing such adjustments shall not result in an increase in aggregate scheduled revenue for the establishment as a whole. Each petition must be accompanied by a verified audit of the period or periods during which the maximum rents were established under Section 4 on forms to be supplied by the Administrator. Such requirement may be waived if the Administrator already has in his possession a complete audit of such period or periods.

[Paragraph (f) added by Am. 21, 10 F.R. 11071, effective 9–1–45]

SEC. 6. *Removal of tenant—*(a) *Restrictions on removal of tenant.* So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated unless:

(1) *Tenant's refusal to renew lease.* The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year, or if the lease was for a term of more than three months and was non-seasonal in character, for a term of not more than one year, for a rent not in excess of the maximum rent, but otherwise on the same terms and conditions as the previous lease or agreement, except insofar as such terms and conditions are inconsistent with this regulation; or

[Subparagraph (1) amended by Am. 18, 10 F.R. 2406, effective 3–1–45 and Am. 22, 10 F.R. 15212, effective 12–21–45]

(2) *Tenant's refusal of access.* The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) *Violating obligation of tenancy or committing nuisance.* The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) [Revoked]

[Subparagraph (4) revoked by Am. 22, 10 F.R. 15212, effective 12–21–45]

(5) *Room not offered for rent.* The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), the landlord shall file a written report on a form provided therefor before renting the room during a period of 6 months after such removal or eviction.

(b) *Administrator's certificate.* No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this regulation and would not be likely to result in the circumvention or evasion thereof. The certificate shall authorize the pursuit of local remedies at the expiration of six months after the date of filing of the petition unless the Area Rent Director has determined that a three months' period is adequate for the purposes of the Act in this area, in which event the applicable period shall be three months. Within the discretion of the Area Rent Director the certificate may authorize the pursuit of local remedies for the removal or eviction of the tenant at a time less than six or three months, as the case may be, after the date of the filing of the petition if the petitioner establishes that unusual hardship would otherwise result, or that a lesser period in the particular case is consistent with the purposes of the regulation and the Act.

[Paragraph (b) amended by Am. 22, 10 F.R. 15212, effective 12–21–45]

(c) *Notice to Area Rent Office.* At the time of commencing any action to remove or evict a tenant (except an action based on nonpayment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the

tenant and the grounds on which eviction is sought.

(d) *Exceptions from section 6.* The provisions of this section do not apply to:

(1) *Subtenants.* A subtenant or other person who occupied under a rental agreement with the tenant where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(2) *Daily or weekly tenants in hotel and daily tenants in rooming house.* A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis: *Provided*, That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to section 2 (b) (3) or (7).

SEC. 7. *Registration and records*—(a) *Registration statement.* On or before December 15, 1943, every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after November 1, 1943 under paragraphs (b) or (c) of section 4 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

Where, since the filing of the registration statement but prior to May 5, 1945, there has been a change in the identity of the landlord, by transfer of title or otherwise, the present landlord, on or before May 31, 1945, shall file a notice of such change on a form provided for that purpose, to be known as a notice of change in identity. Where such a change occurs on or after May 5, 1945, or the effective date of regulation, whichever is the later, the new landlord shall file such a notice within thirty days after the change.

[Above paragraph amended by Am. 22, 10 F.R. 15212, effective 12-21-45]

[Above two paragraphs added by Am. 19, 10 F.R. 5090, effective 5-5-45]

(b) *Posting maximum rents.* On or before December 15, 1943, or within 5 days after a maximum rent is established under paragraph (b), (c) or (g) of section 4, whichever is the later, every landlord shall post and thereafter keep posted conspicuously in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator the landlord shall alter the card or sign so that it states the changed rent or rents.

[Above paragraph amended by Am. 18, 10 F.R. 2406, effective 3-1-45; corrected, 10 F.R. 2617, effective 3-7-45]

The foregoing provisions of this paragraph shall not apply to rooms under section 4 (d). The owner of such rooms shall post a copy of the registration statement in a place where it will be available for inspection by the tenants of such rooms.

[Paragraphs (a) and (b) amended by Am. 3, 8 F.R. 16219, effective 11-29-43]

(d) *Rooms subject to rent schedule of War or Navy Department.* The provisions of this section shall not apply to rooms rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments for which the rent is fixed by the national rent schedule of the War or Navy Department.

(e) *Records*—(1) *Existing records.* Every landlord of a room rented or offered for rent shall preserve, and make available for examination by the Administrator, all his existing records showing or relating to (i) the rent for each term and number of occupants for which such room was rented or regularly offered for rent during the thirty-day period determining the maximum rent for such room, (ii) the rent on any date determining a maximum rent for such room for a particular term and number of occupants under section 4 (c), and (iii) rooms rented and offered for rent on a weekly and monthly basis during June 1943.

[Subparagraph (1) amended by Am. 4, 8 F. R. 16893, effective 12-16-43]

(2) *Record keeping.* On and after November 1, 1943, every landlord of an establishment containing more than 20 rooms rented or offered for rent shall keep, preserve, and make available for examination by the Administrator, records showing the rents received for each room, the particular term and number of occupants for which such rents were charged, and the name and permanent address of each occupant; every other landlord shall keep, preserve, and make available for examination by the Administrator, records of the same kind as he has customarily kept relating to the rents received for rooms.

SEC. 8. *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may from time to time require.

SEC. 9. *Evasion*—(a) *General.* The maximum rents and other requirements provided in this regulation shall not be evaded, either directly or indirectly in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or by tying agreement, or otherwise.

(b) *Purchase of property as condition of rent.* Specifically, but without limitation on the foregoing, no person shall require a tenant or prospective tenant to purchase or agree to purchase furniture or any other property as a condition of renting rooms unless the prior written consent of the Administrator is obtained.

[Paragraph (b) amended by Am. 22, 10 F.R. 15212, effective 12-21-45]

SEC. 11. *Procedure.* All registration statements, reports and notices provided for by this regulation shall be filed with the Area Rent Office. PART 1312—LUMBER AND LUMBER PRODUCTS

[RMPR 293, Amdt. 15]

STOCK MILLWORK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 293 is amended in the following respect:

A new section 13 (c) is added to read as follows:

(c) *Individual adjustment*—(1) *Who may adjust maximum prices.* The Price Administrator or any duly authorized representative may adjust maximum prices for any of the commodities covered by this regulation as hereinafter provided.

(2) *Applications for adjustment.* Any manufacturer of stock millwork may file an application with the Office of Price Administration, Building and Construction Price Division, Washington 25, D. C., for adjustment in his maximum prices for any item of stock millwork covered by this regulation.

An application under this section must be filed in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration. The application shall contain:

(i) Regularly prepared balance sheets, analyses of surplus and statements of profit and loss, reflecting total company operations for the years 1937–1940, inclusive.

NOTE: The filing of these data is optional, provided reports are available from the Bureau of Internal Revenue. Should you prefer, this information will be requested by the Office of Price Administration directly from the Bureau of Internal Revenue.

(ii) Statements of profit and loss covering the company's entire operations for the year 1941 and the last full calendar or fiscal year and the latest available period in the current year, segregated as to the product or products for which an adjustment is requested and all other products together with a complete breakdown, as to direct material, direct labor and factory overhead of the cost of goods produced and sold and of selling, administrative and general expense.

(iii) Balance sheets as of the close of the year 1941 and last full calendar or fiscal year and the latest available period in the current year together with analyses of surplus.

(iv) Statement of the total volume of sales for the item for which price adjustment is requested for the same periods as in (ii) above. The volume should be stated in the units customarily used in the applicant's industry and should show unit quantities applicable to all inventory adjustments with a complete reconciliation between units produced and units sold.

Manufacturers who have previously submitted any of the above required data may omit such items from the data submitted with their application provided they indicate when and in what connection they were submitted.

(3) *Amount of adjustment.* The adjustment will not be generally more than the following:

(i) An amount sufficient to make the adjusted price equal to total cost plus a reasonable net profit on the article or line where the applicant's current over-all earnings on an annual basis are appreciably less than his average annual over-all earnings during the base period years 1937–1940, inclusive, adjusted for changes in net worth.

(ii) An amount sufficient to make the adjusted price equal to total cost, where the applicant's current over-all earnings on an annual basis do not exceed by 15 percent but are not appreciably less than his average annual over-all earnings during the base period years 1937–1940, inclusive, adjusted for changes in net worth.

(iii) An amount sufficient to make the adjusted price equal to manufacturing cost, plus packing cost and shipping cost where delivered prices are quoted or freight is allowed or equalized, where the applicant's current over-all earnings on an annual basis represent an increase of 15 percent or more over his average annual net earnings for the base period years 1937–1940, inclusive, adjusted for changes in net worth.

(iv) In no event shall an adjustment granted a multiple line producer under subdivisions (i) and (ii) be greater than the total amount necessary to make current over-all earnings equal to 115 percent of base period over-all earnings except that any such adjustment shall at least cover manufacturing cost plus packing cost, and shipping cost where delivered prices are quoted or freight is allowed or equalized. Moreover, where such adjustment includes a reasonable profit on a product or line, the total amount of adjustment shall not be greater than that necessary to make current over-all earnings equal to base period over-all earnings.

(v) If the applicant produces the commodity in a line or series of sizes or specifications, and if it is not practical to determine the manufacturing cost or total cost, as the case may be, of each size or specification, a uniform adjustment may be made for the entire line or series. However, any such adjustment for a line or series shall be subject to the limitations in subdivisions (i) to (iv), inclusive, above.

(4) *Meaning of terms used.* In cases where the company was not in business during 1937–1940 and in extremely unusual cases where the period 1937–1940 cannot be considered a representative peacetime period, the Office of Price Administration may make an exception to the use of this base period.

The term "manufacturing cost" means the total of direct materials, direct labor, and manufacturing expenses or factory overhead, applicable to the article.

The term "total cost" means the total of manufacturing cost and reasonable general, administrative, and selling expenses applicable to the article, excluding non-operating expense items and income and excess profits taxes.

The term "over-all earnings" means net profits before income and excess profits taxes experienced on the company's entire operations.

Whenever the applicant is currently operating at a level substantially lower than his normal volume, the overhead items included in "manufacturing cost" and "total cost" may be adjusted to reasonable levels based upon a normal rate of operations. Consideration will not be given, however, to losses due to temporary or non-recurring factors, inadequate plant utilization, illegal wage payments, excessive overhead, selling and other general costs and other unusual factors.

In evaluating costs, the Office of Price Administration will give consideration to whether they are based on a representative period of normal production.

This Amendment No. 15 shall become effective April 16, 1946.

NOTE: All reporting and record-keeping requirements of this Amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 11th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1382—HARDWOOD LUMBER

[MPR 146,[1] Amdt. 23]

APPALACHIAN HARDWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 146 is amended in the following respects:

1. Section 1382.1 is amended to read as follows:

§ 1382.1 *Maximum prices for Appalachian hardwood lumber.* On and after June 1, 1942, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of business, any Appalachian hardwood lumber for direct-mill shipment at prices higher than the maximum prices established by this regulation, and no person shall agree, offer, or attempt to do any of these things.

The retail type of direct mill sale, which is described in paragraph (a) (8) of § 1382.8 as "retail sale" is subject to this regulation. A seller's maximum f. o. b. mill price for hardwood lumber sold on the retail type of direct mill sale is the maximum price that would be permitted to that seller under the provisions of the General Maximum Price Regulation or the maximum price which would be permitted for a sale of such lumber under the provisions of this regulation, whichever is higher.

2. In § 1382.11 (b) price tables (1) through (23) are amended to read as follows:

PART 1389—APPAREL

[RMPR 330,[1] Amdt. 5]

RETAILERS' AND WHOLESALERS' PRICES FOR WOMEN'S, GIRLS', CHILDREN'S AND TODDLER'S OUTERWEAR GARMENTS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 330 is amended in the following respects:

1. Section 4 (a) (4) is added to read as follows:

(4) *Rule 4.* Relief from chart markups for markups 20 or more percentage points below category averages specially computed for this purpose excluding markups below cost.

2. Section 4 (e) is added to read as follows:

(e) *Rule 4; adjustment of abnormally low chart markups.* Under this rule you are permitted to revise markups appearing on your chart where the markup for any cost price shown on your chart is 20 or more percentage points below a special category average computed excluding cost lines shown on the chart which reflect resale prices below cost.

(1) *How to determine your category average for this purpose.* You take from your chart all the costs and selling prices for a category and strike out the cost lines on which your chart reflects a selling price less than cost. Then total the remaining cost prices listed for the category; total the remaining selling prices for the category; subtract the cost total from the sales total and divide the difference by the total of the sales prices. This is the special category average. You may note this on your chart so that it will be necessary for you to compute this only once for each category.

(2) *When you may adjust a markup on your chart.* When you have found the special category average (described in subparagraph (1)) you must then determine whether any of the markups on your chart are 20 or more percentage points below this average. If you have any such markups on your chart you may adjust them in accordance with subparagraph (3).

(3) *How to adjust markups.* For each markup on your chart 20 or more percentage points below the special category average you may adjust the markup for that cost line by taking the markup for the nearest cost line in Table A in section 5. OPA may in accordance with the provisions of subparagraph (5) of this section modify this markup.

Example: If your special category average is 42%, you may adjust all markups on your chart for cost lines in that category which are 22% or less by placing the Table A markups for the nearest cost line opposite each.

(4) *How to note and report adjusted markups.* When you have found the proper markup under subparagraph (3) you must then draw a circle around the old markup on your chart and write in beside it the new markup for the cost line. You must, in addition, before selling any article on which you desire to use the new markup, have filed with your OPA District Office and must have received an acknowledgment for, a list of the new markups indicating the category in which each appears and the cost line for which it is intended.

(5) *Revision of markups.* The Office of Price Administration may at any time by order, revise a markup adjusted under this section where it appears that the markup is out-of-line with the seller's chart.

This amendment shall become effective April 16, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SECTION 1. *Applicability.* Except as provided in paragraph (a) of this section this regulation shall apply to all sales and deliveries within the 48 States and the District of Columbia of the United States of raw and unprocessed soybeans of the 1946 crop.

(a) *Sales excepted.* This regulation shall not apply to

(1) Any sale or delivery of soybeans sold for use as seed for planting in 1947;

(2) Any sale or delivery of soybeans specially cleaned for use in the production of any products for human consumption not involving the extraction of soybean oil;

(3) Any sale or delivery of soybeans to the Commodity Credit Corporation;

(4) Any sale or delivery of soybeans by the Commodity Credit Corportion;

(5) The maximum price at which any person may export soybeans of the 1946 crop shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation;

(6) Any purchase by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative, and as to render it impossible to secure, or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases, upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any soybeans whose transfer is covered by this regulation at a price above the maximum price established by this regulation, nor shall any person agree, solicit, offer or attempt to do any of the foregoing except as provided in the following subparagraph (1) of this paragraph (a).

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of

the Emergency Price Control Act of 1942, as amended. Such authorization shall be given by an order issued by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation may be charged or paid.

SEC. 3. *Addition of transportation tax to maximum prices.* Whenever a maximum price is determined by the addition of transportation charges, the seller may include as a part of such transportation charges the 3 percent transportation tax, when incurred, as provided for under section 620 of the Revenue Act of 1942.

SEC. 4. *Records and reports.* (a) Every seller subject to this regulation shall keep for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his customary records including, if any, all bills, invoices and other documents relating to every sale or delivery of soybeans after the effective date of this regulation.

(b) Upon demand every such seller shall submit such records to the Office of Price Administration.

SEC. 5. *Evasion.* The maximum prices set forth in this regulation shall not be evaded in any manner whatsoever in connection with any offer, solicitation, agreement, sale, delivery, purchase of receipt of, or relating to soybeans alone, or in conjunction with any other charge, discount, premium or privilege, or by tying agreement or other trade understanding or by changing a previous business practice.

SEC. 6. *Enforcement.* Persons violating any provision of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for damages and criminal penalties as provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 7. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended. These provisions do not apply to any producer selling soybeans produced by him.

SEC. 8. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment to any provision of this regulation may do so in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 9. *Definitions.* The definitions set forth in the General Maximum Price Regulation shall apply to this regulation except as follows:

"Producer" means, with respect to any lot of soybeans, a person who grows or harvests the soybeans, whether land owner, landlord or tenant.

"Trucker-merchant" means, with respect to any lot of soybeans, a person who purchases soybeans at the farm from the producer and delivers them to a buyer by truck without warehousing.

"Actual lawful transportation charges necessarily incurred" includes a reasonable charge for transportation, not in excess of any lawful maximum price therefor, when such transportation service is furnished by a seller who owns or controls the means of transportation.

"Supplier" means, as to any seller, the person from whom he purchased the soybeans being priced.

"Country Shipper" means, with respect to any lot of soybeans, a person who has received the soybeans from a producer or a trucker-merchant, and who has placed them in country storage facilities, such as in an elevator or warehouse located at a country shipping point.

"Country storage facilities" means an elevator, warehouse or other facility used for the storage of soybeans, located at a country shipping point, the term being intended to designate storage facilities through which a country shipper makes his sale.

"Storage facilities" means an elevator, warehouse or other facility used for the storage of soybeans.

SEC. 10. *Maximum prices for sales of soybeans*—(a) *Sales by a producer.* The maximum price for a sale by the producer of soybeans, bulk, shall be the applicable price set forth in Appendix A, regardless of where the purchaser takes delivery from the producer.

(b) *Sales by a trucker-merchant.* The maximum price for the sale by a trucker-merchant of soybeans, bulk, delivered to the purchaser, shall be the applicable price set forth in Appendix A, plus 1 cent per bushel plus a transportation charge for the transportation service rendered by him not exceeding the lowest common carrier rate between the points applicable to the shipment, or, if no such rate exists, the reasonable charge for such service.

(1) A trucker-merchant shall, with respect to every sale of soybeans by him, render an invoice to his purchaser stating separately the price for the soybeans and the transportation charge being made; the invoice shall also show the name and address of the producer, the quantity secured at that point, the date of purchase, and the name and address of the trucker-merchant.

(c) *Sales by a country shipper.* The maximum price for the sale of soybeans, bulk, by a country shipper, shall be the applicable price set forth in Appendix A, plus 5 cents per bushel, plus actual lawful transportation charges necessarily incurred by the seller in delivering to his purchaser from his storage facilities.

(d) *All other sales.* The maximum price for the sale of soybeans by any seller not specifically provided for in paragraphs (a) through (c) of this section, shall be the maximum price which the seller's supplier could lawfully have charged the seller, plus actual lawful transportation charges necessarily incurred by the seller in delivering to his purchaser, plus, to the extent permitted under subparagraph (1) of this paragraph, the appropriate one of the following markups:

If the seller owns or maintains storage facilities, except country storage facilities, and he unloads the lot into them, a maximum markup of 2½ cents per bushel; or

In all other cases, a maximum markup of 1 cent per bushel.

(1) The aggregate markup for all sales by all sellers whose maximum prices are established under this paragraph (d) shall not exceed the applicable maximum markup specified in this paragraph, and the markup which a subsequent seller may add on resale is reduced or eliminated as the case may be, by the amount of the markups taken by prior sellers establishing a maximum price under this paragraph (d).

APPENDIX A—BASE PRICES

All prices herein are for a bushel of 60 pounds of soybeans after deducting the weight of foreign material and dockage in excess of 2 percent.

(a) Base prices for soybeans of grade 2. The base prices per bushel for soybeans of grade 2 as set forth in the Handbook of Official Grain Standards of the United States, issued by the United States Department of Agriculture are as follows:

U. S. No. 2, classes III (brown), IV (black), and V (mixed)	1.90

For the purpose of determining the applicable base price, all mixtures of green soybeans in class I and yellow soybeans in class II shall be disregarded, and the base price of $2.10 shall be applicable to all such soybeans unless they contain more than five percent of brown, black, and/or bi-colored soybeans, either singly or in any combination.

(b) *Premiums and discounts.* The following premiums and discounts apply to the applicable base price:

(1) Test Weight—½ cent per bushel discount for each pound under 54 pounds. For the purpose of computing this discount, test weight determinations shall be rounded to the nearest pound.

(2) Moisture—1 cent premium for each ½ percent under 14 percent down to, and including, 11 percent, 1½ cents per bushel discount for each ½ percent in excess of 14 percent up to, and including 18 percent and 2 cents per bushel for each ½ percent in excess of 18 percent. (5) Green damage [1].—⅗ cent per bushel discount for each 1 percent of green damage in excess of 3 percent total damage.

[1] When soybeans contain total damage in excess of 3 percent, the first 3 percent of total damage shall be considered to be damage other than green damage. For the purpose of computing these discounts, total damage and green shall be rounded to the nearest whole percent before computing damage other than green.

(6) Dockage and Foreign Material.—The total weight of foreign material and dockage combined in excess of 2 percent shall be deducted from the total gross weight of soybeans delivered when determining the net number of bushels of soybeans. For the purpose of this determination, dockage shall be expressed in whole percentages and fractional percentages shall be disregarded. Foreign material percentages shall be rounded to the nearest ⅒ percent.

(7) In rounding to the nearest whole number of percent, a fraction of one-half or less shall be disregarded and a fraction of more than one-half shall be considered a whole number or whole percent.

PART 3—LICENSES TO FILE APPLICATIONS FOR PATENTS IN FOREIGN COUNTRIES

EXTENSION OF LICENSES; OPTIONAL PROCEDURE

APRIL 10, 1946.

Two new sections are added reading as follows:

§ 3.20 *Extension of licenses.* Whenever a license to file an application in a foreign country has heretofore been granted by the Commissioner of Patents, under the provisions of Public Law 239, 77th Congress, Approved, August 21, 1941 (55 Stat. 657: 35 U. S. C. 42a), the license, subject to the provisions of any secrecy order as modified from time to time and the regulations of other agencies, is, in each case, hereby revived, renewed and extended to additionally empower the licensee under authority of said license, to file in any foreign country an application the subject matter of which is contained in the application identified therein. Licensee should apply to the envelope in which material is forwarded to the foreign country under this additional authority, the legend "License No. ------ Commissioner of Patents", inserting the number of the license.

§ 3.21 *Optional procedure.* A single petition in letter form may contain a request for one or more licenses to file in foreign countries applications and amendments thereto which include only the subject matter of one or more applications on file in the United States Patent Office and each of the latter applications must be identified by serial number, inventor, title of invention and date of filing. The data of each identified application must be on separate lines double spaced from the data of each other application with a wide margin on each side of the paper for any necessary entries. Each application identified will be sepa-

rately licensed to permit filing in all countries subject to secrecy orders and regulations of other agencies. Licensee, in filing abroad, may combine or divide any licensed subject matter provided such action does not involve further invention.

(Regulations of other agencies at this date prevent filing in Germany and Japan and require that technical data destined for Bulgaria, Austria, Roumania, Hungary, Spain and Argentina be forwarded to the Technical Data Licensing Section, Office of International Trade, Department of Commerce for transmission abroad. In all other cases the licensed material may be mailed or forwarded direct by the licensee without presentation of the license to the transmitting agency.)

The name and address of petitioner should be clearly set forth on all petitions.

MILK IN LOWELL-LAWRENCE, MASS., MARKETING AREA

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED AMENDMENT TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq., 10 F.R. 11791), notice is hereby given of the filing with the hearing clerk of this report of the Assistant Administrator for Regulatory and Marketing Service matters, Production and Marketing Administration, United States Department of Agriculture, with respect to a marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended, (7 U.S.C. 601 et seq.). Interested parties may file exceptions to this report with the Hearing Clerk, Room 1331, South Building, United States Department of Agriculture, Washington, D. C., not later than the close of business on the third day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The proceeding was initiated by the Production and Marketing Administration as a result of a petition filed by the New England Milk Producers' Association for a public hearing to receive evidence on a proposal to increase the price for Class I milk, and to revise the provisions which exempt from the full effect of the order those handlers who dispose of no Class I milk in the marketing area. The hearing notice also included suggested amendments proposed by other persons and by the Dairy Branch, Production and Marketing Administration. It was concluded after consideration of the proposals that a hearing should be held, and a hearing was held at Lawrence, Massachusetts on February 11, 1946, following issuance of notice on February 1, 1946. The issues developed at the hearing concerned the following points:

(a) Increase in the Class I price.

(b) Provision for the same basic formulas for Class I and Class II prices used in the Greater Boston and in the Lowell-Lawrence marketing areas.

(c) Amendment of the provision which exempts from the full effect of the order those handlers who dispose of no Class I milk in the marketing area.

(d) Definition of the marketing area.

(e) Powers and duties of the market administrator.

Two of the issues developed cannot be acted upon immediately. It is desirable that the provision which exempts handlers who dispose of no Class I milk in the marketing area be amended before the season of heaviest production this year, May and June. Accordingly, this report recommends deferring any action on issues involving the Class I price, and making amendments to the order promptly on the other matters. With respect to the issues on which immediate action is recommended, conclusions as to what action should be taken by the Secretary are contained in the remainder of this report. Some of the considerations leading to the conclusions are indicated.

(2) *Provision for the same basic formulas for Class I and Class II prices in the Greater Boston and in the Lowell-Lawrence marketing area.* With respect to the proposal that the basic formula for the Class I price be the same for the Lowell-Lawrence and the Greater Boston marketing areas, it is recommended, as stated above, that action be deferred.

With respect to the proposal that the Class II basic formula be the same for the Lowell-Lawrence and the Greater Boston marketing areas, the evidence warrants the removal of the casein factor from the Lowell-Lawrence Class II price formula for the months of April, May, and June but does not warrant any change in the differential between the city plant price for Class II milk and the country plant price for Class II.

The Dairy Branch proposed that the basic formula in the Lowell-Lawrence Order be made to conform to the formula for Class II milk in the marketing order for the Greater Boston area. The proposal was supported by the history of price relationships between the two markets and the evidence of movements of milk from one market to the other. A report has been issued for exceptions of handlers and producers in the Boston market which recommends an upward revision in the skim factor of the Class II formula for the months August through February. Therefore, the Lowell-Lawrence Order should be amended at this time to incorporate the higher skim factor for those months.

(3) *Amendment of the provision which exempts from the full effect of the order those handlers who dispose of no Class I milk in the marketing area.* Paragraph (f) of the section on application of provisions exempts now from the full effect of the order those handlers who dispose of no Class I milk in the marketing area. There was evidence that under the present language of this section, New England Milk Producers' Association will not be able to assemble the surplus milk of outside dealers at its unregulated plants for most efficient shipment to its plant in the marketing area without causing those plants to become fully subject to the order. It was proposed to amend the order to permit such movements without making these outside plants subject to the order. No basic change in the underlying principle of the provision is involved and the proposal should be adopted, to permit more efficient handling of surplus milk without disadvantage to the producers or handlers in the Lowell-Lawrence market.

The proposal in the hearing notice was intended to accomplish this result by modifying the present paragraph (f) of § 934.8. However, that proposed amendment could have excluded from the pricing provisions of the order a regular country receiving station of a Lowell-Lawrence handler. In order to limit the type of plants to which the exemption from pricing provisions would apply a new paragraph is proposed to describe the plants which the record indicates should be exempted from such provisions.

(4) *Definition of the marketing area.* The towns of Boxford and Dunstable should be removed from the list of cities and towns in the marketing area. Each town has a population of less than one thousand. In the case of Boxford, most of the consumers are supplied with milk originating in areas which are outside the marketing area and which are under state control. Normally, none of its milk supply originates outside of Massachusetts. Except for two handlers who service Dunstable, and who would continue to be subject to the order, the other handlers in the town are producers who are classified as producer-handlers merely because they distribute small quantities of milk.

(5) *Powers and duties of the market administrator.* In verifying the utilization of milk and the quantities utilized, the market administrator must necessarily make determinations in individual cases as to how the order applies. In some instances he has already issued instructions to handlers, advising them of the method he will use in carrying out certain provisions of the order. It should be a regular function of the market administrator to issue as rules and regulations such determinations and instructions as have a general application in administering the order.

The function of preparing and disseminating market information should be transferred from the list of the market administrator's powers to the paragraph which sets forth his duties.

The following proposed amendments to the order, as amended are recommended as the detailed means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because the proposals applicable to it would be the same as those contained in the order, as amended, and as proposed here to be further amended.

Proposed Amendments

1. Delete from § 934.3 (a) (3) the words "Boxford" and "Dunstable."

2. Revise § 934.4 (b) to read as follows:

(b) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof;

(2) To make rules and regulations to effectuate the terms and provisions hereof;

(3) To receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof; and

(4) To recommend to the Secretary amendments hereto.

3. In § 934.4 (c) renumber subparagraphs 5 and 6, and add a new subparagraph 5 to read as follows:

(5) Prepare and disseminate for the benefit of producers, consumers, and handlers statistics and information concerning the operation of this order.

4. Delete § 934.6 (b) (2) (iii) and substitute:

(iii) Compute any plus amount for skim milk value which results from the following calculation. Using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such average quotation by the applicable percentage indicated for the delivery period in the following table and combine the results, subtract 4 cents, and multiply the remainder by 7.5.

Delivery period	Human food products	Animal feed products
	Percent	*Percent*
January	100	0
February	100	0
March	50	50
April	50	50
May	50	50
June	50	50
July	50	50
August	75	25
September	75	25
October	100	0
November	100	0
December	100	0

5. Delete § 934.6 (b) (2) (iv).

6. In § 934.8 add a new paragraph to read as follows:

(g) *Special plant transfers.* In the case of milk or skim milk handled at any of a handler's plants at which milk or skim milk is received from the type of handler described in (f) of this section, and from which all milk or skim milk sold, distributed or disposed of in the marketing area is first moved to another plant of the receiving handler from which Class I milk is disposed of in the marketing area, the provisions of this order shall apply only to the milk so moved. Milk or skim milk so moved shall be considered as a receipt of Class II milk from the type of handler described in (f) of this section: *Provided*, That no greater quantity of milk or skim milk shall be considered as receipts of Class II milk at the plant from which Class I milk is disposed of in the marketing area than the total quantity of milk or skim milk utilized as Class II milk at that plant.

7. In § 934.12 (a) insert after the words ". . . with respect to milk or skim milk received from the type of handler described in § 934.8 (f)", the words "and moved to the marketing area."

This report filed at Washington, D. C., this 11th day of April 1946.

Acting Assistant Administrator for Regulatory and Marketing Service Matters, Production and Marketing Administration.

CLEVELAND BRASS MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 148 under Revised Supplementary Order No. 119. Docket No. 6123-SO119-343. Adjustment of maximum prices for specified low pressure valves and fittings as outlined in Appendix B of Revised Supplementary Order No. 119, manufactured by the Cleveland Brass Manufacturing Company, Cleveland, Ohio.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 13 of Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum prices for Cleveland Brass Manufacturing Company, Cleveland, Ohio.* (1) The above manufacturer may determine his maximum prices for his line of ground key stops and cocks, low pressure stops and waste valves, low pressure ground key oil drum faucets and couplings by increasing by 21 percent his prices on these items in effect on October 1, 1941 to each class of purchaser.

(2) Since the provisions of this order are not intended to reduce properly established maximum prices, the manufacturer may continue to use as his maximum prices to each class of purchaser his properly established prices in effect under Maximum Price Regulation No. 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941 plus the increase provided for in (1) above.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category.

(b) *Resellers' maximum prices.* All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their presently established maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted the manufacturer by this order.

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first invoice after the adjustment granted by this order is put into effect:

Order No. 148 under Revised Supplementary Order No. 119 authorizes a 21 percent increase in October 1, 1941 net prices for sales of ground key stops and cocks, low pressure stops and waste valves, low pressure ground key oil drum faucets and couplings manufactured by this company.

Resellers (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their existing maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted by Order No. 148.

This order shall become effective April 10, 1946.

(a) This order establishes uniform retail ceiling prices for sales in all parts of the country for all small electrical appliances manufactured by Liberty Electric Company, Inc., 1915-25 Madison Avenue, Indianapolis, Indiana, and which are sold under that company's standard brand, as follows:

(1) The uniform retail ceiling price in each zone of an article which the manufacturer sold or offered for delivery during March 1942 shall be the price the manufacturer suggested as the retail price as indicated by the manufacturer's last retail price list in effect prior to April 1, 1942, reflecting only the amount of Federal excise tax paid at that time on a sale to a distributor.

(2) The uniform retail ceiling price in each zone of an article which the manufacturer did not sell or offer for delivery during March 1942, and for which a maximum price to consumers has been previously established by an order under Maximum Price Regulation No. 188, shall be the maximum price for sales to consumers which was established by such an order.

(3) The uniform retail ceiling price, of an article which the manufacturer did not sell or offer for delivery during

March 1942, and for which a maximum price to consumers has not been previously established for sales to consumers by an order under Maximum Price Regulation No. 188, shall be the retail ceiling price computed in accordance with the provisions of sections 4 (b) (1) and 4 (b) (3) of Order No. 6.

ELJER CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 147 under Revised Supplementary Order No. 119. Authorization of maximum prices for sales of cast iron plumbing fixtures manufactured by the Eljer Company (Los Angeles plant only) Los Angeles, California; Docket No. 6123-SO 119-52.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of Supplementary Order No. 119, *It is ordered:*

(a) The Eljer Company (Los Angeles Plant), Los Angeles, California, may determine its maximum prices for its line of cast iron plumbing fixtures and trimmings by increasing by 22 percent its prices in effect on October 1, 1941 to each class of purchaser.

(b) Since the provisions of this order are not intended to reduce properly established maximum prices, the Eljer Company (Los Angeles Plant) may continue to use as its maximum prices to each class of purchaser for its line of cast iron plumbing fixtures, exclusive of all fittings and trimmings its properly established prices in effect under Maximum Price Regulation No. 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941 plus the increase provided for in (a) above.

(c) The Eljer Company (Los Angeles Plant), Los Angeles, California, shall notify, in writing, each of its purchasers at or before the issuance of the first invoice after the effective date of the order of the actual dollar-and-cents increase for each item of cast iron plumbing fixtures, exclusive of all fittings and trimmings, over its properly established maximum price in effect on April 10, 1946 to that class of purchasers.

(d) The maximum price for sale by any reseller of the cast iron plumbing fixtures, exclusive of all fittings and trimmings, manufactured by the Eljer Company (Los Angeles Plant) shall be his properly established price in effect on April 10, 1946 to each class of purchaser plus the actual dollar-and-cents increase in acquisition cost resulting from the increase granted the manufacturer under (a) above.

A seller shall not be considered a "reseller" within the meaning of this paragraph when he uses the cast iron plumbing fixtures exclusive of all fittings and trimmings on or in connection with the sale of another article (such as a sink cabinet) and his maximum price for the cast iron plumbing fixtures and the other article is established on the basis of a lump sum.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective April 11, 1946.

SIMMONS CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Simmons Company, Kenosha, Wisconsin, may compute its adjusted ceiling prices for all articles of steel household furniture in its lines of sun tan cots and spring steel chairs with upholstered cushion seat and back which it manufactures, as follows:

(1) For an article in its line during May 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by the appropriate percentage set forth below:

Product line:	*Percentage increase*
Sun tan cots with metal frame	34
Spring steel chairs with unholstered cushion seat and back	32.6

(2) For an article not in its line during May 1941, but which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increase or adjustment changes) increased by the percentage determined for the appropriate product line in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by these regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on April 10, 1946.

Issued this 10th day of April 1946.

Administrator.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Simmons Company, Elizabeth, New Jersey, may compute its adjusted ceiling prices for all articles of steel household furniture in its lines of sun tan cots and spring steel chairs with upholstered cushion seat and back which it manufactures, as follows:

(1) For an article in its line during May 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by the appropriate percentage set forth below:

Produet line:	*Percentage increase*

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on April 10, 1946.

Issued this 10th day of April 1946.

PAUL A. PORTER,
Administrator.

[MPR 188, Order 10]

PHOTOGRAPHIC EQUIPMENT

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. *Purpose of this order.* Photographic equipment has been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation No. 188. This order is issued under that section and fixes new ceiling prices for sales by manufacturers (other than to ultimate consumers) by permitting them to increase their prices in effect between October 1 and October 15, 1941, or established under certain provisions of Maximum Price Regulation No. 188, by a specified price increase factor.

This order also contains provisions establishing new ceiling prices for distributors' and dealers' sales of articles for which manufacturers' ceiling prices are fixed by this order.

SEC. 2. *Articles and persons covered.* (a) This order applies to sales by manufacturers, distributors, and dealers of "photographic equipment." For the purpose of this order, photographic equipment means such articles as still cameras, motion picture cameras, enlargers, printers, etc., and accessories used for photographic purposes, both amateur and professional, which are covered by Maximum Price Regulation No. 188. However this order does not cover sensitized materials including films, papers and plates, photographic chemicals or any article for which the manufacturer's ceiling price has been fixed under Order 4332, under § 1499.159b of Maximum Price Regulation No. 188, or amendments or revisions of that order. This order does not include photographic machinery and equipment covered by MPR 136, such as commercial 35 mm motion picture cameras and equipment or machinery and equipment designed specifically for use in commercial photographic processing plants or printing trades. Used photographic equipment covered by Maximum Price Regulation 516 is also excluded from the coverage of this order.

(b) As used in this order:

(1) "Manufacturer" means:

(i) The person who makes the first sale of the completed article, that is, the first person having title to the article after it has been fabricated, and is ready for use, regardless of whether or not he has fabricated it. If a person purchases a completed article and then resells it after making changes in it, he is the manufacturer of the changed article, or

(ii) A person who sells an article which has been produced on his account from materials or parts owned by another.

(2) "Distributor" for the purposes of this order, means a person maintaining adequate facilities for warehousing a substantial portion of the photographic equipment which he sells and who sells the majority of that equipment to regularly established photographic equipment dealers.

(3) "Dealer" refers to persons making sales at retail as defined in the General Maximum Price Regulation.

(4) "Mail order house" means an establishment selling at retail which, as a separate operating unit, makes offerings through catalogs or printed price lists, receives orders by mail, and makes deliveries by mail, railway, express, or other common carrier.

(5) "Manufacturer's price" for the purpose of calculating resellers' ceiling prices means his ceiling price, for sales to the designated class of purchaser, f. o. b. point of shipment (exclusive of Federal excise tax) as provided by section 3 of this order, his adjusted ceiling price, f. o. b. point of shipment, or his selling price to that class of purchaser, if it is lower than that ceiling price.

SEC. 3. *Manufacturers' ceiling prices.* (a) A manufacturer's ceiling price (exclusive of Federal excise tax) for a sale of an article of photographic equipment to each class of purchaser is the highest of the applicable of the following:

(1) 114% of his highest price (exclusive of Federal excise tax) to each class of purchaser, other than ultimate consumers, in effect between October 1 and October 15, 1941.

(2) 107% of the highest price (exclusive of Federal excise tax) at which he delivered or offered the article for delivery during March 1942, to each class of purchaser, other than ultimate consumers, in the case of an article which was not sold or offered for sale between October 1 and October 15, 1941.

(3) 114% of his ceiling price (exclusive of Federal excise tax) to each class of purchaser, other than ultimate consumers, established under the provisions of the First, Second or Third pricing methods of Maximum Price Regulation No. 188, provided that price was based on maximum prices of comparable articles which were no higher than the October 1 to October 15, 1941 prices, or 107% of his ceiling price when that price was based on maximum prices of comparable articles which were higher than their October 1 to October 15, 1941 prices.

(4) 107% of his ceiling price (exclusive of Federal excise tax) to each class of purchaser, other than ultimate consumer, established under the provisions of the Fourth Pricing Method (§ 1499.158) or under § 1499.159c of Maximum Price Regulation No. 188.

(5) His adjusted ceiling price (exclusive of Federal excise tax) to each class of purchaser, other than ultimate consumers, established under the provisions of Supplementary Orders 118, 119, 133, or 148.

(b) Manufacturers may also collect, in addition to the ceiling price authorized by the preceding provisions, the amount of Federal excise tax, (if any) paid by him, including Federal excise taxes paid by the manufacturer's suppliers on components included in any completed article of photographic equipment.

(c) Orders may be issued under this section denying a manufacturer permission to sell at prices adjusted by all or part of the increases authorized by this section when it appears that the manufacturer has discontinued or will discontinue production of his low-priced models of any type of photographic equipment, or will decrease the proportions of low-priced to high-priced models which he manufactures, so that his present or prospective production is not representative of his sales between October 1 and October 15, 1941. The average price at which the manufacturer's products will be sold will be considered in determining how much, if any, of the increases will be granted to such a manufacturer.

SEC. 4. *Retail ceiling prices.* This section provides for the determination of retail ceiling prices of articles of photographic equipment covered by this order. Manufacturers, except in the case of articles which are sold only to another manufacturer, are required to calculate the retail ceiling prices of their products in accordance with the provisions of this section and to comply with the tagging provisions of section 6.

Method A, below, may be used only by manufacturers who published retail price lists prior to November 1, 1941. A manufacturer who calculates retail ceiling prices under that provision will use as the basis the retail price list he had in effect between October 1 and October 15, 1941.

Method B shall be used by all manufacturers who do not use Method A.

(a) *Method A.* If between October 1 and October 15, 1941, a manufacturer published a suggested retail price list and took measures to insure that his products were sold at retail at the suggested prices, he may determine the retail ceiling prices of his products under this paragraph based on the retail prices which he suggested between October 1 and October 15, 1941, when (1) the photographic equipment sold by the manufacturer is identified by a company or brand name, (2) the manufacturer's products were sold at retail at substantially uniform prices prior to November 1, 1941.

(i) The retail ceiling price of an article of photographic equipment which the manufacturer listed in his October 1 to 15, 1941 price list shall be computed by the manufacturer to reflect the total of the following adjusted to the nearest 5¢:

(*a*) The price set forth in the manufacturer's published retail price list in effect between October 1 and October 15, 1941, less the amount applicable to the Federal excise tax included in that price.

NOTE: The amount of tax to be deducted from the retail list price shall be computed as follows:

(*1*) For a manufacturer who maintained between October 1 and 15, 1941, the same percentage discount to his largest class of purchaser as he had in September 1941, the tax is 9.1% of the retail list price.

(*2*) For a manufacturer who has changed the percentage discount to his largest class of purchaser between September 1941 and October 1 to 15, 1941, the tax is 9.1% of the retail list price after it is adjusted to reflect the percentage mark-up the manufacturer maintained in September 1941.

(*b*) The dollar and cents amount of the adjustment included in the "manufacturer's price" for sales to the class of purchaser to which the manufacturer granted the lowest discount in his Published Price List in effect between October 1 to October 15, 1941. However, when that lowest discount is less than 33⅓%, the dollar and cents amount of the adjustment shall be 9⅓% of the retail list price (exclusive of Federal excise tax).

(c) The dollar and cents amount of Federal excise tax applicable to the article on sales to the class of purchaser used in subdivision (b) immediately above.

(2) The retail ceiling price for an article first sold or offered for sale by the manufacturer after October 15, 1941, or which was not listed in his published retail price in effect between October 1 and October 15, 1941, shall be computed as follows and adjusted to the nearest five cents:

(i) Determine the "manufacturer's price" for that article for sales to the class of purchaser to whom he sells at the lowest discount.

(ii) Calculate the percentage by which the retail ceiling price is greater than the manufacturer's ceiling price, f. o. b. factory to the same class of purchaser for the most similar article of photographic equipment for which the manufacturer has determined a retail ceiling price under paragraph (a) (i) immediately above.

(iii) Apply that percentage to his "manufacturer's price" to determine the retail ceiling price for the article being priced.

(b) *Method B.* Manufacturers who do not determine the retail ceiling prices of their products in accordance with Method A above shall determine those ceiling prices as follows:

(1) The retail ceiling price, except for a sale by a mail order house, of an article for which the manufacturer has a ceiling price to distributors shall be the total of the following adjusted to the nearest 5¢:

(i) The "manufacturer's price" (exclusive of Federal excise tax) to the class of distributors to which he sells in the largest dollar volume.

(ii) 91% of that "manufacturer's price."

(iii) 15% of the total of (i) and (ii) above when the entire article is subject to the Federal excise tax. When only part of the article is subject to that tax, the 15% shall be applied only to the taxable part of the article.

(2) The retail ceiling price, except for sale by a mail order house, of an article for which the manufacturer does not have a ceiling price to distributors, shall be the total of the following adjusted to the nearest 5¢:

(i) The "manufacturer's price" (exclusive of Federal excise tax) at which the manufacturer sells to dealers, other than mail order houses in the largest dollar volume.

(ii) 51% of that "manufacturer's price".

(iii) 15% of the total of (i) and (ii) above when the entire article is subject to the Federal excise tax. When only part of the article is subject to that tax, the 15% shall be applied only to the taxable part of the article.

(3) The retail ceiling price for a sale by a manufacturer is the retail ceiling price determined in accordance with paragraphs (b) (1), or (b) (2) above whichever is applicable.

(4) The retail ceiling price for a sale by a mail order house is the applicable of the following:

(i) The retail ceiling price determined under Method A.

(ii) 15% less than the retail ceiling price determined under Method B.

(c) *Discounts.* (1) A dealer's ceiling prices fixed by this section are subject to the cash discounts, delivery terms, allowances and other price differentials which he had in effect during March 1942, or which have been established under the applicable OPA regulations.

(2) A dealer who did not sell photographic equipment during March 1942, shall allow the same cash discounts, delivery terms, allowances and other price differentials which the dealer's closest competitor dealer, who did sell photographic equipment during March 1942, is required to allow in accordance with the provisions of this order.

(3) A dealer who cannot ascertain the cash discounts, delivery terms, etc., which his nearest competitor dealer is required to allow, shall apply to the nearest District Office of the Office of Price Administration for an order under this section establishing the conditions to which his ceiling prices are subject. Such application may be made by letter and shall state the type of business he is operating (distributor, dealer), when he started to sell photographic equipment, and the classes of purchasers to whom he sells. An order will be issued under this section establishing the terms, allowances and other price differentials and conditions of sale in line with the conditions of sale generally fixed by this order.

(4) If a dealer who did not sell photographic equipment during March 1942, does not allow the same discounts, delivery terms, and other price differentials allowed by his nearest competitor who did sell photographic equipment during March 1942, or does not file an application in accordance with the provision of this section, or if he fails to provide any of the information required by this section, the Price Administrator may, on his own motion, issue orders under this section fixing discounts, allowances and other price differentials in line with conditions of sale fixed by this order. Conditions of sale so established will apply to all sales and deliveries made on and after May 11, 1946.

SEC. 5. *Distributors' ceiling prices.* Manufacturers, except in the case of articles which are sold only to another manufacturer, are required to calculate distributors' ceiling prices in accordance with the provisions of this section. Paragraph (a) may be used only when the retail ceiling price was determined under Method A.

(a) A distributor's ceiling price for an article of photographic equipment is the manufacturer's ceiling price to the same class of dealer, or the following adjusted to the nearest 5¢:

(b) The retail ceiling price for the article (including Federal excise tax) for sales by a dealer, other than a mail order house, less:

(i) 28% when no differentials are in effect for sales in different quantities, or

(ii) 27% for sales in the smallest quantities and 32% for sales in the largest quantities, for which the distributor had a price in effect during March 1942, or for which maximum prices have been previously established under applicable OPA regulations.

Ceiling prices for sales in quantities other than the smallest and largest shall reflect the distributor's established differentials for sales in those quantities.

(c) *Discounts.* (1) A distributor's ceiling prices fixed by this section are subject to his cash discounts, delivery terms, allowances and other price differentials which he had in effect during March 1942, or which have been established under applicable OPA regulations.

(2) A distributor who did not sell photographic equipment during March 1942, shall allow the same cash discounts, delivery terms, allowances and other price differentials which his closest competitive distributor, who was distributing photographic equipment during March 1942, is required to allow in accordance with the provisions of this order.

(3) A distributor who cannot ascertain the cash discounts, delivery terms, etc., which his nearest competitor is required to allow, shall apply to the nearest District Office of the Office of Price Administration for an order under this section, establishing the conditions to which his ceiling prices are subject. Such application may be by letter and shall state the type of business he is operating (distributor, dealer), when he started to sell photographic equipment, and the class of purchasers to whom he sells. An order will be issued under this section establishing the terms, allowances and other price differentials and conditions of sale in line with the conditions of sale generally fixed by this order.

(4) If a distributor who did not sell photographic equipment during March 1942 does not allow the same discounts, delivery terms and other price differentials allowed by his nearest competitor who did not sell photographic equipment during March 1942, or does not file an application in accordance with the provisions of this section, or if he fails to provide any of the information required by this section, the Price Administrator may, on his own motion, issue orders under this section fixing discounts, allowances and other price differentials in line with such conditions of sale fixed by this order. Conditions of sale so established will apply to all sales and deliveries made on and after May 11, 1946.

SEC. 6. *Retail price tags.* (a) On and after May 11, 1946, unless otherwise authorized by order of the Office of Price Administration, a manufacturer may not ship to any purchaser a photographic accessory for which the retail ceiling price fixed by this order is $5.00 or more, or any camera, projector or enlarger covered by this order, unless a retail ceiling price tag or label is attached to it. That tag or label shall state: the manufacturer's name or the brand name; the model designation of the article; the retail ceiling price (inclusive of Federal excise tax), and that the tag or label may not be removed before the article is delivered to the consumer.

However, a manufacturer is not required to comply with the foregoing tagging provision with respect to articles which are shipped to another manufacturer or to mail order houses (including mail order houses which also operate as any other type of retailer) or with respect to articles which are shipped for export.

(b) On and after May 11, 1946, no dealer may display, offer for sale, sell or deliver at retail, an article of photographic equipment for which the retail ceiling price is fixed by this order (except photographic accessories retailing at less than $5.00) unless there is attached to it a tag or label containing all the information required by paragraph (a) of this section, except that mail order houses are not required to comply with this provision with respect to those articles for which a price no higher than their retail ceiling price is published in their current catalog or price list.

All dealers who receive "untagged" an article which the manufacturer is required to tag with the retail ceiling price, must tag it with the proper retail ceiling price before it is displayed, offered for sale, sold or delivered at retail.

SEC. 7. *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale of an article of photographic equipment covered by this order, each manufacturer and distributor shall notify purchasers for resale of the retail ceiling prices fixed under this order for resellers. These notices may be given in any convenient form.

Section 1499.159d of Maximum Price Regulation No. 188 requires manufacturers to file with the Office of Price Administration 3 copies of each new price list or catalog which is issued to the trade. The manufacturer shall file two copies with the District Office of the Office of Price Administration having jurisdiction over the area in which his principal place of business is located and one copy with the Housewares & Accessories Price Branch, Office of Price Administration, Washington 25, D. C.

SEC. 8. *Revision of ceiling prices by order.* Any ceiling prices reported or established under this order may at any time be disapproved or revised when it appears that those ceiling prices are not in line with the general level of ceiling prices established by this order. In such instances the Office of Price Administration may, on its own motion, issue an order under this section establishing ceiling prices in line with the general level of ceiling prices established by this order.

SEC. 9. *Credit charges on dealers' sales.* Charges for the extension of credit may be added to the retail ceiling prices established by this order or by any order issued under this order unless otherwise provided. No such credit charge may exceed that permitted by this section.

(a) Dealers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of photographic equipment, may collect a charge for the extension of credit on sales under this order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Dealers who did not then so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by dealer's closest competitor who made such a separately stated charge.

An installment plan sale as used in the above paragraph means a sale where the unpaid balances is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this section, shall for the purpose of this order, be considered to be part of the price charged for the article sold.

(c) No dealer may require as a condition of sale that the purchaser must buy on credit.

SEC. 10. *Relationship between this order and other regulations.* The provisions of this order supersede the provisions of the General Maximum Price Regulation, of Maximum Price Regulation No. 188, and of any other orders previ-

ously issued under those regulations and orders, with respect to sales and deliveries for which ceiling prices are established by this order to the extent that they are inconsistent with the provisions of those regulations.

SEC. 11. *Revocation of certain ceiling prices.* Regardless of any provisions of the General Maximum Price Regulation, Maximum Price Regulation No. 188, or any approval or order obtained or issued thereunder by the Office of Price Administration, except Order No. 4332 under Maximum Price Regulation No. 188, all ceiling prices heretofore or hereafter established by any seller under those regulations or orders do not apply to any sales or deliveries made after May 11, 1946, except those manufacturers' ceiling prices continued in effect by section 3 of this order.

In addition, all resellers' ceiling prices approved or established by orders at any time under Supplementary Order No. 118, Revised Supplementary Order No. 119, Supplementary Order No. 133, or Supplementary Order No. 148 shall not apply to any articles which are delivered by the manufacturer on or after May 11, 1946. Resellers' ceiling prices for such articles shall be determined in accordance with the provision of this order.

SEC. 12. *Compliance with this order—*(a) *No buying or selling at over ceiling prices.* Prices established by this order are ceiling prices. Prices lower than ceiling prices may be charged and collected at any time. However, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any photographic equipment at a price higher than the ceiling price fixed by this order or before the manufacturer has properly determined his ceiling price under this order.

If, in violation of this provision, a sale, offer to sell, or delivery of any photographic equipment is made before its ceiling price has been properly established in accordance with this order, the ceiling price applicable to the sale, offer to sell, or delivery shall be the correct ceiling price for the photographic equipment properly determined in accordance with this order.

(b) *Certain practices forbidden.* It shall be a violation of this order to charge a price above the applicable ceiling price in connection with any sale of photographic equipment, either alone or in conjunction with any other consideration, even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of photographic equipment to make payment over a period of time; to require him to finance the purchaser through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the article's ceiling price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring, or trading in any other photographic equipment or commodity. Where there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the photographic equipment or commodity exchanged, transferred or traded-in, which is less than its reasonable value.

SEC. 13. *Definitions.* Unless otherwise defined herein or the context otherwise requires, the definitions contained in § 1499.40 of the General Maximum Price Regulation and § 1499.163 of Maximum Price Regulation No. 188, whichever is applicable, shall apply to all terms used herein.

SEC. 14. *Delegation of authority.* Any Regional Administrator or District Administrator authorized by the appropriate Regional Administrator, may issue orders under sections 4 (c) and 5 (c) of this order.

SEC. 15. *Modification of the provisions of this order.* The provisions of this order, as applicable to articles or persons subject hereto, may be modified by orders of general applicability issued under this section.

Effective date. This order shall become effective on the 11th day of April, 1946.

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Region I Order G–4 Under Gen. Order 68]

WESTERN SOFTWOOD PLYWOOD IN BOSTON REGION

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of General Order No. 68, as amended, and Third Revised Maximum Price Regulation No. 13, section 5 (a), it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales of the sizes and types of plywood listed in the annexed price tables made by sellers located in the States of Massachusetts, Connecticut, Rhode Island, New Hampshire, Vermont and Maine, excepting a portion of Northern Maine, namely, Aroostook County and those portions of Penobscot, Piscataquis and Somerset Counties which are located on or are served by the Bangor and Aroostook Railroad and have no other railroad connections.

SEC. 2. *Definition of retail sale.* A retail sale means any sale to the ultimate consumer, or to a contractor for installation rather than resale, except "direct mill sales" and "plywood distribution plant sales" as defined by Third Revised Maximum Price Regulation No. 13. The excepted sales include all those in which shipment of the plywood originates at a plywood mill or at a warehouse or yard which in the first six months of 1941 received more than 20% of its dollar income from sales of plywood or veneer of any kind. The provisions of Third Revised Maximum Price Regulation No. 13 continue to apply to all such excepted sales.

SEC. 3. *Maximum prices.* Maximum prices for retail sales of plywood as herein set forth are established for two classes of sellers known as Class I sellers and Class II sellers.

Class I sellers are those who after June 30, 1945, receive or have received at least one carload of plywood in a direct mill shipment. Any shipment which comes directly from a plywood mill without becoming an integral part of the stock of a distribution plant or a retail yard is a direct mill shipment no matter who the seller is.

Class II sellers are all other retail sellers, principally those who buy their plywood from distribution plants.

Maximum prices for Class I sellers of Douglas Fir plywood are set forth in Tables I–A and I–B. The maximum prices of Class II sellers of Douglas Fir plywood are set forth in Table II–A and II–B. The maximum prices that may be charged for Ponderosa Pine plywood by both classes of sellers are set forth in Tables III–A and III–B. All the aforementioned price tables are hereby annexed and made a part of this order.

SEC. 4. *Additions for delivery.* The maximum prices set forth in the price tables includes delivery to any point within the seller's free delivery zone as recognized by him during March, 1942. If delivery is made outside the free delivery zone, the seller may add for delivery the amount computed by multiplying the estimated weights of the plywood sold, as shown in section 22 of Third Revised Maximum Price Regulation No. 13, by the applicable rail freight or common carrier rate. Any such additional charges for delivery must be shown separately on the invoice.

SEC. 5. *Additions for certain Class II sellers.* Those Class II sellers who are located at such a distance from their normal sources of supply that they are obliged to pay more than $0.45 per hundred pounds for inbound common carrier freight may add that part of the actual freight paid which is in excess of $0.45 per hundred pounds, to the price computed from the applicable dollars-and-cents prices set forth in the price tables. Normal sources of supply are those which customarily supplied Class II sellers in a particular area during and prior to 1941. All such additional charges for excess inbound freight must be shown separately on the invoice.

SEC. 6. *Discounts and allowances.* The maximum prices in this order include all commissions. All customary discounts for cash in effect in March, 1942, must be continued. Differentials in price based on quantity sold must be observed as set forth in the price tables.

SEC. 7. *New sellers.* A new Class I or Class II seller who was not in business in March, 1942, must:

(a) Maintain a free delivery zone at least equal in area to that maintained by his most closely competitive seller of the same class in March, 1942, and

(b) Grant the discounts for cash which were granted by his most closely competitive seller of the same class in March, 1942.

If the new seller is unable to ascertain the delivery or discount practices of his most closely competitive seller during March, 1942, he may apply to his nearest Price Control Board or District Office for assistance in obtaining the required information.

SEC. 8. *Sales slips and records.* (a) For any sale of $50.00 or more each seller (regardless of previous custom) must keep records so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

(b) Every seller covered by this order shall give to the purchaser an invoice, sales slip, receipt or other evidence of purchase showing the name and address of the seller, the date of purchase, a description, quantity and the price of each item sold; the said description to be in detail sufficient to determine whether the price charged has been properly computed under this order. However, in the case of sales amounting to less than a total of $5.00 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare the invoices, sales slips, receipts, or other evidence of purchase hereinbefore described, in duplicate, and he must keep a duplicate copy for at least one year after delivery.

(c) Each seller shall keep records or other satisfactory evidence showing his customary practices relative to free delivery and cash discounts in effect during March, 1942, or, in case he is a new seller, evidence of the customary practices of his most closely competitive seller during March, 1942, shall be preserved.

(d) All records, copies of invoices and other evidence required by this section shall be made available for inspection by representatives of the Office of Price Administration during ordinary business hours at the seller's place of business.

SEC. 9. *Relationship of this order to Third Revised Maximum Price Regulation No. 13.* The maximum prices fixed by this order supersede any maximum price or pricing method previously established by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of Third Revised Maximum Price Regulation No. 13 shall apply to sales covered by this order.

SEC. 10. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of his list of maximum prices as fixed by this order in each place of business within the area covered by this order. A Class I seller of Douglas Fir plywood shall post Tables I–A and I–B, and a Class II seller of Douglas Fir plywood shall post Tables II–A and II–B. All retail sellers of Ponderosa Pine plywood shall post Tables III–A and III–B.

SEC. 11. *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective April 10, 1946.

Issued this 29th day of March 1946.

ELDON C. SHOUP,
Regional Administrator.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, as amended, it is ordered:

SECTION 1. *What this order covers.* This order covers all "retail sales" of the commodities listed in Appendix A, Table I, by any seller in the State of New Hampshire. For the purposes of this order a "retail sale" means a sale to an ultimate user, or a sale to a contractor or builder for resale on an installed basis.

SEC. 2. *Items covered by this order.* This order covers the list of hard building materials set forth in Appendix A, Table I, appearing below and made part of this order. Orders published thereafter shall be added from time to time.

ferentials and terms as were in effect for such seller during March, 1942.

(c) In Column B of Table I of the Appendix where the words "customary discount" appear in place of dollar and cents prices for Large Sale Units, maximum prices for such Large Sale Units shall be the maximum price for small sale units listed in Column A of said Table I reduced by the customary discounts granted during March 1942 by the seller to purchasers of the same class on sales of the same quantity.

SEC. 4. *Delivery.* The maximum prices fixed by this order include free delivery by the seller within a twenty-mile radius of his customary place of business. However, where a seller's free delivery zone during March, 1942 exceeds the twenty-mile radius of his customary place of business, he shall nevertheless continue to maintain his March 1942 free delivery zone. Transportation charges may be made for deliveries beyond the free delivery zones referred to in the preceding sentences at the rates or by the method customarily charged or used by the seller during March 1942. In the case of an isolated sale of a Small Sale Unit the seller may maintain his customary delivery practices relating to such sales which were in effect for him during March 1942.

SEC. 5. *New sellers.* In addition to the requirements for delivery as set forth in section 4 and in addition to the requirement to grant the 2% discount provided for in section 3 (b), a seller who was not engaged in the retail sale of hard building materials during March 1942, must

(a) Grant the "customary discount", further discounts, allowances, differentials, and terms as were in effect during March, 1942, for his most closely competitive seller of the same class, and

(b) Use the same delivery practices, delivery rates and methods of computing such rates as were in effect for such competitor during that period.

SEC. 6. *Sales slips and records.* (a) For any sale of $50.00 or more, each seller (regardless of previous custom) must keep records so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following:

1. Name and address of buyer;
2. Date of transaction;
3. Place of delivery;
4. Complete description of each item sold and price charged;

evidence of purchase, hereinbefore described, in duplicate, and he must keep a duplicate copy for at least one year after delivery.

(c) Records or other satisfactory evidence of each seller's delivery practices, delivery rates, methods of computing such rates, "customary discounts," further discounts, allowances, differentials and terms as were in effect during March, 1942, for each seller shall be kept and made available for inspection by representatives of the Office of Price Administration. A new seller shall obtain such records or other satisfactory evidence from his most closely competitive seller of the same class and shall also keep them and make them available for inspection by representatives of the Office of Price Administration. If a new seller is unable to ascertain or obtain from his most closely competitive seller such records or evidence, he may apply to his nearest Price Control Board or to the New Hampshire District Office for assistance to obtain the required information.

SEC. 7. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices or pricing methods previously fixed by any other order or regulation issued by the Office of Price Administration. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation shall apply to sales covered by this order.

SEC. 8. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A, Table I in his customary place of business in a manner plainly visible to all purchasers. "Customary place of business" means the location where the materials are generally stored and available for delivery.

SEC. 9. *Evasion.* The price limitations of this order shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodities covered by this Regulation or by way of commissions, services, transportation, or other charges, or by tying agreement or other trade understandings, or by making the terms and conditions of the sale more onerous to buyers than they were in March, 1942

Region I Order G-3 Under Gen. Order 68]

HARD BUILDING MATERIALS IN NEW HAMPSHIRE

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, as amended, it is ordered:

SECTION 1. *What this order covers.* This order covers all "retail sales" of the commodities listed in Appendix A, Table I, by any seller in the State of New Hampshire. For the purposes of this order a "retail sale" means a sale to an ultimate user, or a sale to a contractor or builder for resale on an installed basis.

SEC. 2. *Items covered by this order.* This order covers the list of hard building materials set forth in Appendix A, Table I, appearing below and made part of this order. Other related items may be added from time to time.

SEC. 3. *Maximum prices.* (a) The prices listed in Appendix A, Table I, appearing below, and made a part of this order, shall be the maximum prices for "retail sales" of the respective items of hard building materials listed in said table.

(b) Maximum prices established by this order shall be reduced by 2% whenever cash payment is made to the seller within 10 days of receipt of an invoice by the buyer. In addition to the 2% discount required by the preceding sentence, the seller shall continue to grant such further discounts, allowances, differentials and terms as were in effect for such seller during March, 1942.

(c) In Column B of Table I of the Appendix where the words "customary discount" appear in place of dollar and cents prices for Large Sale Units, maximum prices for such Large Sale Units shall be the maximum price for small sale units listed in Column A of said Table I reduced by the customary discounts granted during March 1942 by the seller to purchasers of the same class on sales of the same quantity.

SEC. 4. *Delivery.* The maximum prices fixed by this order include free delivery by the seller within a twenty-mile radius of his customary place of business. However, where a seller's free delivery zone during March, 1942 exceeds the twenty-mile radius of his customary place of business, he shall nevertheless continue to maintain his March 1942 free delivery zone. Transportation charges may be made for deliveries beyond the free delivery zones referred to in the preceding sentences at the rates or by the method customarily charged or used by the seller during March 1942. In the case of an isolated sale of a Small Sale Unit the seller may maintain his customary delivery practices relating to such sales which were in effect for him during March 1942.

SEC. 6. *Sales slips and records.* (a) For any sale of $50.00 or more, each seller (regardless of previous custom) must keep records so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following:

1. Name and address of buyer;
2. Date of transaction;
3. Place of delivery;
4. Complete description of each item sold and price charged.

(b) Every seller covered by this order shall give to the purchaser an invoice, sales slip, receipt or other evidence of purchase showing the name and address of the seller, the date of purchase, a description, quantity and the price of each item sold; the said description to be in detail sufficient to determine whether the price charged has been properly computed under this order. However, in the case of sales amounting to less than a total of $5.00 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare the invoices, sales slips, receipts, or other evidence of purchase, hereinbefore described, in duplicate, and he must keep a duplicate copy for at least one year after delivery.

(c) Records or other satisfactory evidence of each seller's delivery practices, delivery rates, methods of computing such rates, "customary discounts," further discounts, allowances, differentials and terms as were in effect during March, 1942, for each seller shall be kept and made available for inspection by representatives of the Office of Price Administration. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation shall apply to sales covered by this order.

SEC. 10. *Enforcement.* Persons violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses, provided by the Emergency Price Control Act of 1942 as amended.

[Region III Order G-4 Under Gen. Order 68]

STOCK MILLWORK IN THE CINCINNATI, OHIO, AREA

For the reasons set forth in an opinion issued simultaneously herewith, filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job. This order does not cover sales made by "mail order" sellers.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Hamilton County in the State of Ohio, and Kenton and Campbell Counties in the state of Kentucky.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in Table 1, remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached Table 1, are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers, or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintain records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulations. Contract sales may not exceed the sum total of the maximum stock millwork prices for each and all items in the contract. Prices lower than the maximum prices may be charged.

(b) The prices set out in Table 1, are base prices for sales to ultimate users and are subject to the following discounts:

(1) A discount of not less than 5% of these prices shall be granted to all bona fide purchasers for resale installed when buying in less than house lots;

(2) A discount of not less than 10% of these prices shall be granted to all bona fide purchasers for resale installed when buying in house lots regardless of the time and method of delivery by the seller;

(3) For all sales made to bona fide "re-sellers on an installed basis", a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis;

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and loaded on cars for shipment to a purchaser for resale installed or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the ceiling permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA so long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
5. If the stock millwork is sold on a firm contract price basis and includes two or more different items, the seller must keep a record describing his calculations of each item sold by reason of such firm contract price.

SEC. 8. *Prohibitions and evasions.* (a) No person shall sell, and no person shall buy in the course of trade or business at prices greater than the maximum prices set forth in the price list attached hereto.

(b) All sales shall be made subject to the allowances and discounts set forth herein. Every seller shall be subject to the notification invoice and record provisions set forth above. No provisions to this order shall supersede any requirement or prohibition set forth in any price regulation except insofar as the requirements of this order are inconsistent with requirements of any other regulation or order issued by the Office of Price Administration. Persons violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942.

SEC. 9. *Posting.* Every seller making a sale covered by this order shall post a copy of the list of maximum prices fixed by this order.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective March 21, 1946.

Issued March 7, 1946.

J. F. KESSEL,
Regional Administrator.

CRESCENT PUBLIC SERVICE CO. ET AL.

SUPPLEMENTAL ORDER GRANTING APPLICATIONS AND DECLARATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of April A. D. 1946.

In the matters of Crescent Public Service Company, Central Ohio Light & Power Company, Colorado Central Power Company, Empire Southern Service Company, Helene Curley Rea, Robert W. Rea, Floyd W. Woodcock, Kathleen T. Woodcock, Robin Corporation, (Applicants), File No. 54-108; Crescent Public Service Company Central Ohio Light & Power Company, Colorado Central Power Company, Empire Southern Service Company, (Respondents), File No. 59-81.

Crescent Public Service Company ("Crescent"), a registered holding company, and Central Ohio Light & Power Company ("Central Ohio"), a subsidiary of Crescent, having filed herein amended

applications and declarations pursuant to sections 6 (b) and 12 of the Public Utility Holding Company Act of 1935 and Rule U-50 regarding the proposed issue and sale at competitive bidding by Central Ohio of 12,000 shares of new preferred stock, the acquisition, redemption and retirement by Central Ohio, using the proceeds of such issue and sale, of the 12,000 $6 preferred shares of Central Ohio to remain outstanding upon consummation of the recapitalization heretofore approved herein, including 28 shares held by Crescent, and the sale by Crescent to Central Ohio of said 28 $6 preferred shares of Central Ohio; and

The Commission by order dated March 28, 1946, having granted and permitted to become effective said amended applications and declarations, including the application of Central Ohio with respect to the proposed sale at competitive bidding of 12,000 shares of new preferred stock, subject, however, to the condition that said proposed sale should not be consummated until the results of competitive bidding pursuant to Rule U-50 should have been made a matter of record in this proceeding and a further order entered in the light of the record so completed; and

The Commission in said order having reserved jurisdiction over the payment of all legal fees and expenses of counsel in connection with the proposed transactions, including the fees and expenses of counsel for the prospective bidders; and

Central Ohio having filed a further amendment herein on April 10, 1946, setting forth the action taken to comply with the requirements of Rule U-50 and showing that pursuant to the invitation for competitive bids, bids for said 12,000 shares of preferred stock were submitted as follows:

Underwriting group	Price to company per share	Dividend rate	Annual cost to company
		Percent	*Percent*
Kidder, Peabody & Co	$100.929	3.60	3.5668
The First Boston Corp.	100.519	3.60	3.58
W. E. Hutton & Co....	100.5199	3.70	3.68
E. H. Rollins & Sons, Inc.....	100.41	3.80	3.78
Otis & Co	100.2679	3.90	3.89
W. C. Langley & Co...	101.089	4.00	3.96

Said amendment having further stated that Central Ohio has accepted the bid of Kidder, Peabody & Co. for the preferred stock, as set out above, and that the securities will be offered for sale to the public at a price of $102.489 per share resulting in an underwriters' spread of $1.56 per share; and

The Commission having examined the amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be paid to the company, the dividend rate on the preferred stock, the redemption price therefor and the proposed underwriters' spread, and further finding that the fees and expenses proposed to be paid to counsel by the successful bidders are not unreasonable and that jurisdiction over them should now be released;

It is ordered, That the applications and declarations herein, as amended, be and they are hereby granted and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24, and that the jurisdiction heretofore reserved with respect to fees and expenses of counsel for the bidders be, and the same hereby is, released.

It is further ordered, That the jurisdiction heretofore reserved with respect to the payment of all legal fees and expenses in connection with these proceedings, with the exception of the fees and expenses of counsel for the bidders which may be paid, be and it is hereby continued.

By the Commission.

EXECUTIVE ORDER 9711

PROVIDING REEMPLOYMENT BENEFITS FOR FEDERAL CIVILIAN EMPLOYEES WHO ENTER CIVILIAN SERVICE WITH THE WAR OR NAVY DEPARTMENTS IN OCCUPIED AREAS

WHEREAS the maintenance of world peace and formal commitments entered into by the Government of the United States require that this Government assume a portion of the occupation duty in defeated-enemy territories; and

WHEREAS it is the desire of this Government to discharge its occupation responsibilities with the minimum possible numbers of military personnel, thereby hastening demobilization; and

WHEREAS the employment of qualified civilian personnel will contribute to this objective of replacing present military occupation forces; and

WHEREAS there are former Federal employees now in the armed forces who are about to be discharged therefrom whose services are essential to the effective performance of the occupation mission, and who would accept civilian employment in occupied territories if their reemployment rights in their original Federal positions would not thereby be lost; and

WHEREAS there are permanent civil-service employees in the various Federal agencies and departments whose services are essential to the effective performance of the occupation mission, and who would accept employment with the War Department or the Navy Department for the accomplishment of this mission if their employment rights in their original Federal positions would not thereby be lost:

NOW, THEREFORE, by virtue of the authority vested in me by section 1753 of the Revised Statutes of the United States and section 2 of the Civil Service Act (22 Stat. 403), it is hereby ordered as follows:

Section 1. Any former employee of a department or agency of the Federal Government who is entitled to the benefits granted by subsection 8 (b) (A) of the Selective Training and Service Act of 1940 (54 Stat. 890), as amended, and who has entered or enters civilian employment under the Military Government authorities of the United States in any of the occupied territories within 90 days after separation from active military or naval service shall, if qualified to perform the duties of his position, be reemployed in his original civilian position or in a position of like seniority, status, and pay, upon application for such reemployment, made to the original employing department or agency within 90 days after termination of such civilian employment in any of the occupied territories, and upon presentation of a statement by the Secretary of War or the Secretary of the Navy, or their authorized representatives, reciting the date of termination of such civilian employment, that his services have been satisfactory, and that termination was not the result of delinquency or misconduct on the part of the employee.

Section 2. Any permanent civil-service employee of a department or agency of the Federal Government who possesses special qualifications or experience of particular use to the Military Government authorities of the United States may be transferred, with his consent and that of the department or agency by which he is employed and upon request by the Secretary of War or the Secretary of the Navy, to a civilian position under the Military Government authorities of the United States in any of the occupied territories. Upon termination of the service of the employee in the position to which he is transferred under the provisions of this section, he shall, if qualified to perform the duties of his position, be reemployed in his original position or in a position of like seniority, status, and pay, upon application for such reemployment, made to the original employing department or agency within 90 days after termination of such service in any of the occupied territories and upon presentation of a statement by the Secretary of War or the Secretary of the Navy, or their authorized representatives, reciting the date of termination of such civilian service, that his services have been satisfactory, and that such termination was not the result of delinquency or misconduct on the part of the employee.

If property is transferred by a corporation to a shareholder, for an amount less than its fair market value, regardless of whether the transfer is in the form of a sale or exchange, such shareholder shall include in gross income the difference between the amount paid for the property and the amount of its fair market value to the extent that such difference is in the nature of a distribution of earnings or profits taxable as a dividend. SUBPART A—GENERAL PROVISIONS

§ 1002.101 *"Approved" and "unapproved" salary increases.* As used in §§ 1002.101 to 1002.112, inclusive, an "approved" salary increase means an increase approved in accordance with the provisions of §§ 1002.104 to 1002.112, inclusive. An "unapproved" salary increase means any other salary increase.

§ 1002.102 *What salary increases are lawful.* While the making of an unapproved salary increase on or after February 14, 1946 is subject to the conditions stated in § 1002.103, the making or payment of such an increase is not unlawful, except in the following case:

(a) The establishment or payment of a new salary rate in a new plant or in a new department in an existing plant in excess of a salary rate deemed approved in accordance with the provisions of paragraph (c) of § 1002.104.

The Commissioner of Internal Revenue with the approval of the Director of Economic Stabilization may, by amendment to this section, define further classes of salary increases which will be unlawful unless made with prior approval.

SUBPART B—UNAPPROVED SALARY INCREASES

§ 1002.103 *Right to seek approval after making increase.* Any employer may make a salary increase without the prior approval of the Commissioner and without prejudice to his right of applying for approval of the increase thereafter (and using it, to the extent that it is approved, as a basis for seeking an increase in price ceilings or for any other of the purposes described in section 202 of the Supplementary Wage and Salary Regulations of the Director of Economic Stabilization) if either:

(a) The employer has no present intention of using the increase as a basis for seeking an increase in price ceilings or for any other of the purposes described in section 202 of the Supplementary Wage and Salary Regulations of the Director of Economic Stabilization, and so states in a notice describing the increase filed in duplicate with the appropriate Regional Office of the Salary Stabilization Unit within thirty days after the increase is first reflected in current payrolls; or

(b) The increase was put into effect prior to March 15, 1946, or a firm agreement or definite commitment was made by the employer before such date to put it into effect as of the beginning of the first payroll period following the date of the agreement, and application for approval is filed with the appropriate Regional Office of the Salary Stabilization Unit within thirty days after the increase is first reflected in current payrolls.

SUBPART C—APPROVAL OF SALARY INCREASES

§ 1002.104 *Salary increases which are approved without further application.* Except as provided in § 1002.102, any salary increase of a kind described in this section shall be deemed to be approved for the purposes of §§ 1002.101 to 1002.112, inclusive, without the necessity of filing an application:

(a) Any salary increase which, prior to February 14, 1946 was approved or lawfully made without approval. A salary increase will, for purposes of this paragraph, be deemed lawfully made without approval prior to February 14, 1946 where there was a firm agreement or a definite commitment by the employer before such date to put a salary increase into effect and such increase was actually put into effect prior to March 15, 1946.

(b) Any individual or other salary increase made in accordance with the terms and conditions of a salary rate schedule or plan (including a bonus plan) which was lawfully in effect before August 18, 1945.

(c) Any salary increase made in accordance with those provisions of §§ 1002.13 and 1002.14 of Treasury Decision 5295, as amended, which authorizes increases to be made without approval.

(d) Any salary increase made at any time in accordance with and pursuant to the terms of a governmental recommendation in a wage controversy announced before February 14, 1946.

(e) Any salary increase made on or after February 14, 1946, by an employer who at the time the increase was put into effect employed not more than eight employees in a single business; *Provided, however,* That the Commissioner of Internal Revenue may, by amendment to this paragraph, make such exclusions from this exception as he may deem necessary to carry out the purposes of Executive Order No. 9697.

(f) Any salary increase made on or after February 14, 1946, resulting from the institution of a plan which provides for (1) not more than six paid holidays per year, or (2) extra payments for night work, to the extent that such extra payments do not exceed five cents per hour for work on a second shift or ten cents per hour for work on a third shift, or (3) paid vacations to employees, to the extent that such paid vacations do not exceed one week for any employee having completed one year or more of employment with the employer and two weeks for any employee having completed five or more years of employment with the employer.

(g) Any salary increase made in order to correct intra-company inequities occasioned by the granting of wage or salary increases under the terms of a regulation or general order issued by the National Wage Stabilization Board under section 308 (a) of the Supplementary Wage and Salary Regulations of the Director of Economic Stabilization to the extent that:

(1) The increase in salary of any individual employee is not in excess of the dollars and cents increase under such regulation or general order of an equal amount of wages or salary, or, if there be no equal amount of wages or salary, the increase is not in excess of the dollars and cents increase of the next lower wages or salary in which an increase is permissible under such regulation or general order: *Provided, however,* That any increase hereunder shall be reduced by the amount of any general salary increase made by the employer since August 17, 1945.

(2) The increase is not granted to an employee whose salary is in excess of $7,500.00 per annum, and

(3) The increase in the salary of any individual employee is not effective prior to the effective date of such regulation or general order.

Increases made under this paragraph may be applied to salary rate schedules to the extent that the minimums, maximums, and control points are increased in the same dollar amounts as is provided for above in the case of individual salary rates.

(h) Any salary increase made in accordance with the provisions of a regulation or general order issued by the Commissioner pursuant to section 308 (a) of the Supplementary Wage and Salary Regulations of the Director of Economic Stabilization.

§ 1002.105 *Salary increases approvable only on application.* A salary increase which does not fall within one of the classes listed in § 1002.104 may be approved only on application. Such an increase shall be approved only if it falls within one or more of the classes of cases described in §§ 1002.106 to 1002.110 and only to the extent to which it is found approvable under the terms of those sections. Upon the approval of a salary increase by the Commissioner, such increase shall be deemed to be approved also by the Economic Stabilization Director.

§ 1002.106 *Increases consistent with industry or local area pattern.* A salary increase shall be approved which is found to be consistent with the general pattern of salary adjustments which has been established in a particular industry, or in a particular industry or related industries within a particular local labor market area, during the period between August 18, 1945 and February 14, 1946.

§ 1002.107 *Increases to correct gross inequalities.* In any case in which it is found that no applicable pattern of salary adjustments was established during the period between August 18, 1945 and February 14, 1946, a salary increase shall be approved which is found necessary to eliminate a gross inequity between salaries in related industries, related plants in the same industry or locality, or related job classifications in the same plant and which would interfere with the effective transition to a peacetime economy. In determining whether there exists a gross inequity between related industries, within the meaning of this section, consideration shall be given to the extent to which the take-home pay of the employee in the industries involved has been reduced as a result of the transition to a peacetime economy.

§ 1002.108 *"Cost of living" increases.* As used in this section, the following terms shall have the meanings indicated:

"Appropriate unit" means all personnel of a particular employer whose salaries are under the jurisdiction of the Commissioner, and whose salaries do not exceed $10,000.00 per annum.

"Salary" means the rate of compensation per annum, regularly paid, before deductions of any kind, including bonuses or other additional compensation regularly paid, but does not include additional compensation contingent upon added hours of work, shift differentials, or the like.

"Average salary" means the aggregate of all salaries, as defined above, of employees in an appropriate unit divided by the number of such employees.

"Base period" ordinarily means the first payroll period ended in the month of January 1941.

"Comparison period" means the payroll period ending nearest the date of an application filed under this section.

For the purpose of this section, it is determined that the cost of living between January 1, 1941 and September 1945 has increased 33 percent. Therefore, in any case in which it is found that no applicable pattern of salary adjustments was established during the period between August 18, 1945 and February 14, 1946, a cost of living increase may be approved where the average salary of the appropriate unit has not increased by as much as 33 percent since January 1941; *Provided,* That such increase is necessary to correct a maladjustment which would interfere with the effective transition to a peacetime economy. The fact that the average salary for an appropriate unit in the comparison period is less than 133 percent of such average salary in the base period will ordinarily, but not necessarily, be deemed to establish the existence of the maladjustment referred to in this paragraph.

For example: If the average salary for the base period is $3,000.00 and the average salary for the comparison period is $3,100.00, the average salary approvable under this section would be $3,000.00 x 1.33, or $3,990.00. From $3,990.00 subtract $3,100.00 (the comparison period average salary), leaving $890.00, which would be the amount of increase in the average salary allowable to bring such average to the level comparable to the increase in cost of living.

In cases where it is necessary to substitute a base period later than January 1941, the amount approvable as a cost of living salary increase will be a salary increase which results in raising the average salary for the comparison period by some percentage less than 33 percent above the average salary paid in the substitute base period. The amount of the applicable maladjustment allowance to be used in such cases (which corresponds with the proportionate amount of the rise in the cost of living between any given substitute base period and September 1945) is indicated in the table set forth at the end of this section.

For example: In a case where the substitute base period falls within the month of April 1944, the applicable maladjustment allowance will be 4 percent instead of 33 percent. If the average salary for the substitute base period is $3000.00 and the average salary for the comparison period is $3,100.00, the average salary approvable under this section will be $3,000.00 x 1.04, or $3,120.00. From $3,120.00 subtract $3,100.00 (the comparison period average salary), leaving $20.00, which would be the amount of increase in the average salary allowable to bring such average to the level comparable to the increase in cost of living.

An applicant for increases under this section shall submit information to show the average salary for the base period and the comparison period. There shall also be submitted, as a part of the application, a statement setting forth the method under which the increase, if approved, will be distributed among employees in the appropriate unit.

A plan of distribution which would result in the creation of inequities between employees in the appropriate unit or between employees in that unit and other employees of the particular employer will not be approved.

No adjustment made under this section shall be used as a basis for approval of any other salary increase.

§ 1002.109 *Increases to correct substandards of living.* A salary increase may be approved which is found necessary to correct substandards of living.

§ 1002.110 *Increases falling within standards in effect prior to August 18, 1945.* A salary increase may be approved which falls within one of the standards in effect on August 17, 1945 (except the standards relating to "rare and unusual" cases) under which applications for salary increases were approved.

§ 1002.111 *Agreements for conditional salary increases.* No consideration will be given to or action taken upon an application for approval of any salary increase which appears to be conditioned in whole or in part upon the granting of an increase in price or rent ceilings. This provision, however, shall not be a bar to consideration of an increase which is conditioned upon approval by the Commissioner, or of an increase which is not to be put into effect until a determination has been made by the Office of Price Administration as to whether an increase in price or rent ceilings is required.

§ 1002.112 *Applicability.* Sections 1002.101 to 1002.112, inclusive, supersede all previous regulations of the Commissioner of Internal Revenue set forth in Treasury Decision 5295, as amended by Treasury Decision 5406, Treasury Decision 5416, Treasury Decision 5435, Treasury Decision 5450, Treasury Decision 5462 and Treasury Decision 5489 to the extent that such previous regulations are inconsistent herewith.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33 as Amended Apr. 12, 1946]

VETERANS' EMERGENCY HOUSING PROGRAM

§ 944.54 *Priorities Regulation 33—(a) What this regulation does—(1) General.* This regulation provides priorities assistance to carry out the Veterans' Emergency Housing Program which calls for the construction of moderate and low-cost housing accommodations to meet the needs of returning veterans and members of the Armed Forces. It also provides for giving specific authorization under the Civilian Production Administration Veterans' Housing Program Order 1 to persons wishing to construct, repair, make additions or alterations to, improve or convert, or install fixtures or mechanical equipment in housing accommodations. This regulation explains who may apply for such an authorization and for priorities assistance (an HH rating and the right to place certified orders, generally referred to in this regulation simply as HH ratings), the circumstances under which applications will be approved, the way in which the priorities assistance given under the regulation may be used, and the conditions which will be imposed on the builder and succeeding owners in selling or renting the accommodations as long as this regulation is in force. Schedule A to this regulation lists the materials for which priorities assistance given under the regulation may be used. If a person building housing accommodations needs priorities assistance for materials not listed on Schedule A he may apply under Priorities Regulation 28 if he qualifies under its provisions. Directions to the regulation contain additional provisions about using priorities assistance given under this regulation and also contain provisions restricting distributors and producers of the materials.

(2) *Housing accommodations covered by this regulation.* This paragraph tells what kind of housing accommodations are covered by this regulation. All applications concerning buildings covered by this regulation are under the jurisdiction of the National Housing Agency and should be made on Form CPA-4386 and filed as indicated in paragraph (b) (2). Applications for buildings not covered by this regulation are subject to the jurisdiction of the Civilian Production Administration and applications should be filed as indicated in Veterans' Housing Program Order 1 (for authorization) or Priorities Regulation 28 (for priorities assistance). The following kinds of buildings are covered by this regulation: Any building or structure primarily designed for occupancy by families (at least 75% of the floor space in the case of one-family or two-family houses; at least 85% in the case of multiple family dwellings); farmhouses and farm dwellings, including bunkhouses for transitory farm laborers, apartment hotels and rooming houses (not primarily for transients) and dormitories or other group housing facilities constructed by educational institutions or public organizations to provide accommodations for veterans. The following kind of buildings or structures are not covered by this regulation: Military housing, institutional housing and dormitories (except those for veterans described above), camps, hotels designed primarily to accommodate transients, trailers, and buildings which do not fall within this regulation because less than the requisite part of the building is used for housing families.

(b) *Applications.* (1) Applications for authorization under Veterans' Housing Program Order 1 or for priorities assistance under this regulation or both may be made by the following:

(i) A veteran of World War II or a member of the Armed Forces who wishes to build, alter or repair a house for his own occupancy. A proposed sales price (except in cases of farmhouses) must be stated, if the application covers the construction of a house, to be applicable in case of sale of the house.

(ii) A person who wishes to build, complete or convert moderate or low-cost dwelling accommodations (either by new construction or by alterations or conversion) to which veterans of World War II and members of the Armed Forces will be given preference in selling or renting. The maximum sales price for applications of this sort may not exceed $10,000 for a one-family dwelling or $17,000 for a two-family dwelling. The maximum shelter rent may not exceed $80 a month for each dwelling unit, except for conversion units for which rent need not be specified under paragraphs (g) (3) (i) and (g) (4) (i).

(iii) A person who wishes priorities assistance to complete dwelling accommodations under construction on March 26, 1946 (and therefore exempt under Veterans' Housing Program Order 1), which cannot come within paragraph (b) (1) (ii) either because it will be impracticable because of commitments made or construction done to sell or rent them within the specified amounts or to give the initial preference to veterans or members of the Armed Forces called for by that paragraph. The governmental agency processing the application may waive the requirements stated in paragraph (b) (1) (ii) where appropriate in such cases. Except in unusual circumstances, applications of this sort will not be approved if the proposed sales price is over $15,000 or if the proposed shelter rent is over $120 a month.

(iv) A person who wishes to reconstruct or repair dwelling accommodations destroyed or damaged by fire, flood, tornado or other similar disaster, where the reconstruction or repair is necessary to eliminate hardship. If the proposed work involves rebuilding more than half of the building, maximum sales prices or rents must be given, and except where this would result in great hardship, these must be limited to $10,000 and $80 a month respectively.

(v) A person who wishes to make repairs or alterations to dwelling accommodations in order to maintain them in a habitable condition or to return them to a habitable condition or to provide space for additional persons. Authorizations will be given where necessary under Veterans' Housing Program Order 1, but no priorities assistance will be granted except for repairs necessary to return the dwelling to a habitable condition if it has been vacant for at least six months for lack of repairs.

(vi) A person who wishes to construct, repair or alter dwelling accommodations, where the construction or repairs are necessary to increase or maintain the production of a scarce material or product. Housing accommodations requested under this paragraph will be approved only on the recommendation of the Civilian Production Administration. Sales prices or rents must be stated. The maximum sales price for applications of this sort may not exceed $10,000 for a single family or $17,000 for a two-family dwelling. The maximum shelter rent

may not exceed $80 a month for the dwelling or any apartment in it.

(vii) A person who wishes to construct, repair or alter a farm dwelling where the construction, repair or alteration is necessary to increase or maintain the production of essential food products. The construction of a farm dwelling requested under this paragraph will be approved only on the recommendation of the appropriate County Agricultural Conservation Committee. No sales price or rent need be stated in an application under this paragraph, but the cost of the construction of any such dwelling shall not exceed $10,000.

(viii) An educational institution or a public organization which wishes to construct, repair or alter a dormitory or other group housing facility for veterans or members of the Armed Forces. The application will not be approved if the maximum shelter rent proposed is more than the amount charged by the builder for similar accommodations in its other facilities.

(2) Applications under this regulation should be made on Form CPA-4386. Applications covering dwelling accommodations on a farm should be filed with the appropriate County Agricultural Conservation Committee. Applications by educational institutions or public organizations should be filed with the appropriate Regional Office of the Federal Public Housing Authority. Other applications under this regulation should be filed with the appropriate State or District Office of the Federal Housing Administration. Applications should not be filed unless the construction is already under way (in the case of construction started before the issuance of Veterans' Housing Program Order 1) or unless the builder plans to start actual construction within 90 days of the approval of the CPA-4386 (the priorities assistance and authorization under Veterans' Housing Program Order 1 will expire, and rated orders already placed must be unrated unless construction has started within 90 days of the approval of the CPA-4386 or unless an extension has been obtained from the agency which approved the CPA-4386). The application should not be filed unless the builder has already obtained effective control of the land involved, and gives evidence of readiness to start within 90 days (for example, by getting necessary building permits, getting assurance of financing, making arrangements for utilities and the like). The builder must also state the proposed sales prices or rents for the accommodations, where these are required.

(c) If the application satisfies the requirements indicated in paragraph (b) and any applicable regulations of the National Housing Agency, if the proposed accommodations meet the standards as to space, accommodations and the like which are customary in the community for year-round occupancy, if the proposed sales prices or rents (where required) are reasonably related to the proposed accommodations, and if the available supply of building materials reserved for the program or for the appropriate part of the program has not been fully committed, the application may be approved. One copy of the application will be returned to the builder, bearing a project serial number. A placard or placards will also be sent to the builder, stating that the housing accommodations are being built under the Veterans' Emergency Housing Program.

(1) If the application covers the construction of accommodations to be rented or sold to veterans or members of the Armed Forces under paragraph (b) (1) (ii) or paragraph (b) (1) (viii), the placard will contain a statement to this effect and will contain spaces for the maximum sales price or rent and the project serial number. The builder must insert in the placard or placards clearly, legibly and permanently the project serial number and the appropriate rent and sales price, not in excess of those specified in the application as approved. The builder must set up a placard in front of each separate residential building on the project site in a conspicuous location within 5 days after the time construction has started (as defined in paragraph (d) (4), and must keep the placard there until completion of the building, and, unless all the accommodations in the building have been sold or rented to veterans or members of the Armed Forces in accordance with paragraph (h), for 30 days afterwards.

(2) If the application is not based on paragraph (b) (1) (ii) or paragraph (b) (1) (viii), the placard will contain a space for the project serial number which must be inserted by the builder. This placard must be set up in front of the building in a conspicuous location within 5 days after construction has started (as defined in paragraph (d) (4)), or after receipt of the placard in case of an application under (b) (1) (iii), and must be kept there until the work is completed.

(d) *Use and effect of HH ratings.* (1) The HH rating assigned for a project may be used only to get materials of the kinds listed on Schedule A of this regulation which are required for the project. The rating may be applied to a purchase order only by placing on the order the following certificate (the certificates set forth in Priorities Regulations 3 and 7 may not be substituted for this certificate):

VETERANS' EMERGENCY HOUSING PROGRAM
Project Serial Number ------
Rating: HH

I certify to the Civilian Production Administration that the materials covered by this order will be used only in a housing project being built under the Veterans' Emergency Housing Program at ---------- (give location of project), and that I will comply with the limitations on sales prices or rents and the preference to veterans provided in Priorities Regulation 33 and my approved application.

Builder

NOTE: If the application on Form CPA-4386 is not based on paragraph (b) (1) (ii) or paragraph (b) (1) (viii) and the placard described in paragraph (c) (2) above is sent to the applicant, he need only use the part of the certificate ending with the location of the project.

(2) The HH rating may be used to get materials by the builder, or by contractors or sub-contractors doing all or any part of the construction work for the builder. Contractors and sub-contractors using the rating must observe all provisions of this paragraph (d) applying to the use of HH ratings by builders. The builder must not use the rating or give others the right to use it before his application is approved. A contractor or sub-contractor may not use it or give others the right to use it unless he has received a statement in substantially the following form from a person who is himself authorized to use the rating (when a contractor or sub-contractor uses the HH rating under this provision, he need only use the part of the certificate in paragraph (d) (1) ending with the location of the project):

Veterans' Emergency Housing Program
Project Serial # ------
Rating HH

You are hereby authorized to use the HH rating to get materials of the kinds listed on Schedule A of Priorities Regulation 33 which are required for the project. Your use of this rating is subject to the provisions of Priorities Regulation 33.

Builder

(3) The preference rating assigned may be used only to get the minimum quantities of the materials on Schedule A which are needed for the project. The builder must not specify delivery dates on purchase orders for rated materials more than 30 days before the time they are to be incorporated in the project. This provision applies to materials ordered with an HH rating, instead of the usual rule in Priorities Regulation 32. Furthermore, the builder must not place rated purchase orders for materials in which delivery is specified later than during the third full calendar month after the time when the purchase order is placed. In accordance with Priorities Regulation 1, materials obtained by using the HH rating must, if possible, be used in the construction of the project.

(4) The right to use the HH rating for a project expires 90 days after the issuance of the rating, unless the builder has begun construction on the project by physically incorporating at the site of the project materials which will be an integral part of the construction. If the builder has not begun construction within this time, he must unrate all orders for materials for the project to which he has applied the HH rating. If the application covers a number of different buildings, the right to use the rating for materials going into any individual building expires unless that particular building has been started within the 90 day period. However, before the expiration of the 90 day period, he may apply to the Federal Housing Administration for an extension of the starting date, showing why he was unable to begin construction in accordance with his original application and giving his revised starting date. Unless the request for an extension is denied, he need not unrate his orders but he must postpone the delivery dates so as to comply with paragraph (d) (2).

(5) [Deleted Apr. 12, 1946.]

(e) *Construction of the project.* A builder who constructs, converts, alters or repairs housing accommodations under this regulation must do the work in accordance with the description given in the application, except where he has obtained written approval for a change from the agency which approved the original application.

(f) *Reports.* All persons affected by this regulation shall file such reports as may be requested by the CPA, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Maximum sales prices and rents*—(1) *General.* The restrictions on sales prices and rents contained in this paragraph (g) must be observed so long as this regulation remains in effect. They apply to dwellings of the kinds described below when built or converted under this regulation. Approval of a proposed sales price or rent should be considered merely as a limit upon the price or rent to be charged. It should not be considered as a statement that the sales price or rent represents the value of the dwelling or the apartment for other purposes. In the case of remodelling or rehabilitation, the Office of Price Administration may reduce the maximum rent specified in the application, unless prior approval of the rent has been obtained from that agency.

(2) *One-family dwellings.* (i) An application to build or convert a one-family dwelling (a building designed for occupancy by one family and to be occupied, rented or sold as a unit, including a detached or semi-detached house or a row house but not including an apartment house or a two family "one-over-one" house) must contain a statement of the proposed maximum sales price, whether or not the builder proposes to sell the building except under the conditions described in paragraph (b) (1) (iv), or (b) (1) (vii). If the builder proposes to rent the building the application must also contain a statement of the proposed maximum rent and maximum shelter rent.

(ii) A builder must not sell a one-family dwelling built or converted under this regulation, including the land and all improvements (including garage if provided), for more than the maximum sales price specified in the application, as approved, including within this sales price the amount of any brokerage fees or commissions paid in connection with the sale, whether paid by the builder or by the purchaser.

(iii) No other person shall sell a one-family dwelling built or converted under this regulation, including the land and all improvements, for more than the maximum sales price specified in the application as approved, plus the amount of any normal and customary brokerage fees or commissions actually paid for services which have been rendered in connection with the sale being made, whether paid by the seller or the purchaser, plus normal and customary brokerage fees actually paid for services rendered in connection with previous sales of the dwelling (after the sale by the builder) whether paid by previous sellers or purchasers.

(iv) No person shall rent a one-family dwelling built or converted under this regulation for more than the maximum specified in the application as approved. If no rent is specified in the application, the person wishing to rent the dwelling may request the Federal Housing Administration to set a rent on the basis of information given in the original application and any supplemental information filed, and no person shall rent the dwelling for more than the amount set. A rent of more than $80 a month will not be approved except as a result of an appeal showing that unusual hardship would result.

(3) *Two-family dwellings.* (i) An application for a two-family dwelling (a building designed for occupancy by two families which will be sold as a unit, not including semi-detached or row houses covered by paragraph (g) (2)) must contain statements of both the proposed maximum sales price for the entire dwelling and the proposed maximum rent and maximum shelter rent for each apartment in the dwelling, whether the builder proposes to sell the dwelling or rent it or the apartments in it. However, if a person wishes to convert a one-family dwelling to a two-family dwelling and he or a continuing tenant is going to occupy part of the dwelling himself, he need not specify a proposed maximum sales price for the entire dwelling nor need he specify a proposed maximum shelter rent for the part of the dwelling he or a continuing tenant is to occupy.

(ii) A builder must not sell a two-family dwelling built or converted under this regulation, including land and all improvements (including garage if provided), for more than the maximum sales price specified in the application, as approved, including within this sales price the amount of any brokerage fees or commissions paid in connection with the sale, whether paid by the builder or the purchaser.

(iii) No other person shall sell a two-family dwelling built or converted under this regulation, including the land and all improvements, for more than the maximum sales price specified in the application as approved, plus the amount of any normal and customary brokerage fees or commissions actually paid for services which have been rendered in connection with the sale being made, whether paid by the seller or the purchaser, plus brokerage fees actually paid for services rendered in connection with previous sales of the dwelling (after the sale by the builder), whether paid by previous sellers or purchasers.

(iv) No person shall rent an apartment in a two-family dwelling built or converted under this regulation for more than the maximum rent specified for the apartment in the application as approved.

(4) *Multiple-family dwellings.* (i) An application for a multiple-family dwelling (a building containing three or more separate living accommodations for three or more families) must contain a statement of the proposed maximum rent and the proposed maximum shelter rent for each apartment or for each group of apartments having the same maximum rents. However, if a person wishes to convert a one or two-family dwelling to a multiple-family dwelling and he or a continuing tenant is going to occupy part of the dwelling himself, he need not specify a proposed maximum shelter rent for the part of the dwelling he or a continuing tenant is to occupy.

(ii) No person shall rent an apartment in a multiple-family dwelling built or converted under this regulation for more than the maximum rent specified for the apartment in the application as approved.

(5) *Dormitories and group housing facilities.* (i) An application by an educational institution or public organization for a dormitory or group housing facility must contain a statement of the maximum shelter rent to be charged to each occupant.

(ii) As long as this regulation remains in effect, no person (whether the builder or any other person) shall rent accommodations in a dormitory or other group housing facility built under this regulation for more than the maximum shelter rent specified in the application as approved.

(6) *Definition of maximum rent and maximum shelter rent.* "Maximum rent" means the total consideration paid by the tenant for the accommodations including charges paid by the tenant for tenant services specified on the application and including charges paid by the tenant for garage as specified on the application, but excluding charges covering the actual cost on a pro rata basis for gas and electricity for the tenant's do-

mestic purposes when the application specifies that such charges will be made. "Maximum shelter rent" means the maximum rent, less charges for tenant services and garage. The total charge for tenant services will not be approved if more than $3 per room per month. The charge for garage will not be approved if more than $10 per month and will be allowed only for multiple-family dwellings.

(7) *Requests for increases in sales prices and rents by builders.* A builder may apply to the Federal Housing Administration for an increase in the sales price or rent specified in the application before the house is sold (i. e. before title has passed) or initially rented. The application will not be approved unless he can show that he has incurred or will incur additional or increased costs in the construction over which he had, or has, no control, or if he can show that he will incur additional or increased costs in the operation of rented accommodations over which he has no control, and that these increased or additional costs will make it impracticable for him to sell or rent at the price or rent specified in the application. No increase in sales price or rent will be granted in excess of the increase in construction cost, or a proper proportion of it, or the increase in operating cost, as the case may be. However, no increase in sales price to an amount more than $10,000 (or $17,000 in the case of a two-family dwelling) will be granted and no increase in shelter rent to more than $80 a month will be granted except on appeal where unusual hardship would result.

(8) *Requests for increases in sales prices or rents by subsequent owners.* An owner of a dwelling built under this regulation, other than the builder, may apply to the Federal Housing Administration for an increase in the sales price or rent specified in the application if the subsequent owner has made improvements to the dwelling which would warrant an increase. No increase will be granted in excess of the cost of construction of the improvement, or a proper proportion of it in the case of a requested increase in rents. However, no increase in sales price to an amount more than $10,000 (or $17,000 in the case of a two-family dwelling) will be granted and no increase in shelter rent to more than $80 a month will be granted, except on appeal where unusual hardship would result. If an increase in rent is needed because of subsequent improvements, and the accommodations have previously been rented and are in a Defense Rental Area established by the Office of Price Administration, the owner should apply to the Area Rent Office of the Office of Price Administration for an increase (or in the District of Columbia to the Office of Administrator of Rent Control for the District of Columbia). If an increase is granted, one copy of the instrument granting the increase must be filed with the appropriate office of the Federal Housing Administration. Upon the filing of this copy with the Federal Housing Administration, the new rent granted becomes the maximum shelter rent under this regulation. (Note: Under Veterans' Housing Program Order 1 it may be necessary to get authorization to make these alterations.)

(h) *Preferences for veterans of World War II and members of the Armed Forces*—(1) *General.* This paragraph tells how preferences will be given under this regulation to veterans of World War II and members of the Armed Forces as long as this regulation remains in effect. As used in this regulation, "veterans of World War II and members of the Armed Forces" (sometimes referred to in this regulation as "veterans" or as "veterans of World War II") include the following: (i) A person who has been on active service in the U. S. Army, Navy, Coast Guard or Marine Corps or in the U. S. Merchant Marine during World War II (i. e., on or after September 16, 1940) and who was discharged or released under condtions other than dishonorable; (ii) a person who is serving in the U. S. Army, Navy, Coast Guard, Marine Corps or in the U. S. Merchant Marine; (iii) the spouse of a member of the Armed Forces who died in service during World War II or the spouse of a deceased veteran of World War II, if the spouse is living with a child or children of the deceased; or (iv) a citizen of the United States who served in the Armed Forces of an allied nation during World War II. Although the preference for veterans and members of the Armed Forces lasts during construction and for 30 days after completion, or for 30 days at the time of a later sale or rental, the restrictions of paragraph (g) on sales prices and rents continues as long as this regulation remains in effect. The preferences for veterans and members of the Armed Forces provided by this paragraph (h) do not apply to sales in the course of judicial proceedings. Sales subsequent to such judicial sales, however, are subject to the provisions of this paragraph. The provisions of paragraph (h) do not apply to dwellings for which neither a maximum sales price nor a maximum rent is established under this regulation and do not apply to dwellings approved on applications under (b) (1) (vi) or to the initial occupancy of a dwelling or an apartment in it approved under this regulation for the occupancy of the applicant or the continued occupancy of his tenant.

(2) *One-family dwellings.* (i) A builder who has built or converted a one-family dwelling under this regulation must, during construction and for 30 days after completion, publicly offer it for sale or for rent at or below the maximum sales price or the maximum rent specified in the application as approved to veterans of World War II or members of the Armed Forces for their own occupancy.

(ii) If a one-family dwelling built under this regulation is being offered for sale, the owner (whether the builder or any subsequent purchaser) must not sell or otherwise dispose of it to any person other than a veteran of World War II unless he has publicly offered it for sale to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the builder) at or below the maximum sales price.

(iii) If a one-family dwelling built under this regulation is being offered for rent, the owner (whether the builder or any subsequent purchaser) must not rent it to any person other than a veteran of World War II unless he has publicly offered it for rent to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the builder) at or below the maximum rent.

(3) *Two-family dwellings.* (i) A builder who has built or converted a two-family dwelling under this regulation must, during construction and for 30 days afterwards, publicly offer it for sale or the apartments in it for rent at or below the maximum sales price or the maximum rent specified in the application, as approved, to veterans of World War II and members of the Armed Forces for their own occupancy.

(ii) If a two-family dwelling built or converted under this regulation is being offered for sale, the owner, whether the builder or subsequent purchaser, must not sell or otherwise dispose of it to any other person than a veteran of World War II unless he has publicly offered it for sale to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the builder) at or below the maximum sales price.

(iii) If an apartment in a two-family dwelling built or converted under this regulation is being offered for rent, the person offering it for rent must not rent it to any person other than a veteran of World War II unless he has publicly offered it for rent to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the builder) at or below the maximum rent specified for the apartment in the application as approved.

(4) *Multiple-family dwellings.* (i) A builder who has built or converted a multiple-family dwelling under this regulation must, during construction and for 30 days after completion, publicly offer the apartments in it for rent to veterans of World War II and members of the Armed Forces for their own occupancy at or below the maximum rent given in the application as approved.

(ii) As long as this regulation remains in effect, no other person shall rent an apartment in a multiple-family dwelling built under this regulation to any person other than a veteran of World War II unless he has publicly offered the apartment for rent to such veterans for at least 30 days (or during construction and for 30 days after completion) at or below the maximum rent specified in the application.

(5) *Dormitories and group housing facilities.* A builder who has built or converted a dormitory or other group housing facility under this regulation must make the accommodations available exclusively for veterans of World War II and members of the Armed Forces otherwise eligible to occupy the accommodations, except that if an educational institution builds a dormitory under this program it may make available to non-veterans 40% of the accommodations in the dormitory if it makes available to veterans of World War II an equivalent number of similar or better accommodations in other dormitories at rents not larger than the rents specified in the application as approved.

(6) [Deleted Apr. 12, 1946]

(i) *Notices in advertisements and deeds.* (1) If the placard described in paragraph (c) (1) is sent to the applicant, as long as this regulation remains in effect a builder who has used the HH rating to get materials for a dwelling, or who could not, under Veterans' Housing Program Order 1, have built or converted the dwelling without approval under this regulation, and every other person who has acquired title to such a dwelling (whether completed or not) must include a statement in substantially the following form in any deed, conveyance or other instrument by which the dwelling is sold, transferred or mortgaged to any other person:

> The building on the premises hereby conveyed was built (converted) under Priorities Regulation 33 (Builder's Serial No. ——). Under that regulation a limit is placed on either the sales price or the rent for the premises or both and preferences are given to veterans of World War II or members of the Armed Forces in selling or renting. As long as that regulation remains in effect, any violation of these restrictions by the grantee or by any subsequent purchaser will subject him to the penalties provided by law. The above is inserted only to give notice of the provisions of Priorities Regulation 33 and neither the insertion of the above nor the regulation is intended to affect the validity of the interest hereby conveyed.

(2) If the placard described in paragraph (c) (1) is sent to the applicant, as long as this regulation remains in effect the builder and every subsequent owner, and their agents and brokers, must include a statement in substantially the following form in any advertisement printed or published in which accommodations built under Priorities Regulation 33 are offered for sale or for rent:

> This house (apartment) is being (was) built under the Veterans' Emergency Housing Program for sale (for rent) at or below $———— (insert maximum sales price or rent). It is offered for sale (for rent) only to veterans of World War II or members of the Armed Forces during construction and until 30 days after completion (for the next 30 days in the case of sale or rent after initial occupancy).

(j) *Transfer of ratings forbidden.* No person to whom an HH rating has been assigned shall transfer the rating to any other person (as distinguished from applying the rating to purchase orders) and any transfer attempted is void. If for any reason a builder wishes to abandon a project and another builder wishes to continue with the project, the new builder should apply to the appropriate FHA office, attaching to his application a letter from the former builder or the representatives of the former builder joining in the request for the assignment of ratings to the new builder.

(k) *Appeals.* Any person affected by this regulation or a direction to it who considers that compliance with its provisions would result in an exceptional and unreasonable hardship on him may appeal for relief. An appeal from any provision of this regulation except paragraph (d) should be filed with the appropriate local office of the Federal Housing Administration or other agency with which applications may be filed under this regulation, and the appeal shall be forwarded to the Washington office of that agency for consideration together with any recommendations made by the local office. An appeal from paragraph (d) of this regulation or a direction to this regulation, unless the direction expressly states otherwise, should be filed by letter in duplicate addressed to the Civilian Production Administration, Washington 25, D. C., Ref: Direction —— to PR-33.

(l) *Amendments and supplemental applications.* A builder may apply to the agency which approved his application for an amendment to it. If the amendment covers changes in the specifications of the proposed dwelling or dwellings or changes in the proposed sales price or rent (see paragraph (g) (6)), or a change in the construction schedule of a project involving several buildings, the request for an amendment may be made by letter in triplicate. If the request for an amendment is granted, the provisions of this regulation apply to the application as amended. If the request is for permission to use the rating for dwellings listed on the original application but not to be started within 90 days of issuance, the request should be filed on Form CPA-4387. If the request for an amendment requires additional buildings or dwelling units not included in the original application, a new application on CPA-4386 covering the new units should be filed.

(m) *Communications.* All communications about this regulation (except about paragraph (d), Schedule A or directions to the regulation) should be addressed to the appropriate State or District Office of the Federal Housing Administration or other appropriate agency indicated in paragraph (b) (2). Communications about paragraph (d), Schedule A or directions to the regulation should, unless specifically directed otherwise, be addressed to the Civilian Production Administration, Washington 25, D. C., or to the appropriate Civilian Production Administration Construction Field Office.

(n) *Violations.* Any person who wilfully violates any provision of this regulation or who, in connection with this regulation, wilfully conceals a material fact or furnishes false information to any Department or Agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining any further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-926, Amdt. 2]

M. R. FLEISCHMAN CO.

Charles Fleischman and Dorothy V. Fleischman, a copartnership, d/b/a M. R. Fleischman Company, with principal place of business now at 62 First Street, San Francisco, California, engaged in the manufacture of women's wear, have appealed from the provisions of Suspension Order No. S-926. The Chief Compliance Commissioner has further reviewed the case and has directed that the suspension order be further amended by substituting the following paragraph (b) for the present paragraph (b):

In view of the foregoing: It is hereby ordered, that: § 1010.926 *Suspension Order No. S-926* be further amended by substituting the following paragraph (b) for the present paragraph (b):

(b) Charles Fleischman and Dorothy V. Fleischman, a co-partnership, d/b/a M. R. Fleischman Company, shall not receive any authorization from Civilian Production Administration to place orders bearing CC ratings for textiles during the first quarter of 1946, and they shall not place any orders bearing CC ratings for textiles during that period, except that they may place orders for the second quarter of 1946 on or after March 15, 1946, for not more than 70 percent of the yardage of the fabric that

they would normally have been authorized under directions 9 or 10 to receive on M-328B CC rated orders in the first quarter of 1946, until further authorization may be obtained from Civilian Production Administration. This authorization, which was prohibited by the terms of the suspension order, would have amounted to 31,736 yards of rayon body fabric for women's and misses' dresses and 11,358 yards of rayon body fabric for women's and misses' blouses. Any rated orders hitherto placed by respondents in excess of the quantities herein authorized shall be cancelled forthwith.

Issued this 11th day of April 1946.

If the manufacturer's total sales in the calendar year 1944 exceeded $30,000, the application shall be filed with the Office of Price Administration, Washington, D. C. The application shall set forth (1) a description in detail of the mechanical rubber good for which a maximum price is sought (including the manufacturing process); (2) a statement of the facts which make it impossible for him to use the methods for determining a maximum price set forth in paragraphs (a) and (b) of this section; (3) the proposed pricing method; and (4) a statement of the reasons why he believes that the use of this method will result in prices which are consistent with the level of maximum prices established by this regulation. Such authorization will be given in the form of an order issued by the office of the Office of Price Administration with which the manufacturer is required to file his application and shall prescribe a specific maximum price for a particular commodity or a method of determining maximum prices for some or all of the mechanical rubber goods manufactured by the applicant which cannot be priced under paragraph (a) or (b) of this section.

Any regional administrator (or any district administrator authorized by the appropriate regional administrator) may act on applications required to be filed with the regional office (or the district office) by this paragraph and may issue orders establishing maximum prices for the mechanical rubber goods covered by an application properly filed with the appropriate office of the Office of Price Administration in accordance with this paragraph.

If after December 7, 1942, the manufacturer produces any mechanical rubber goods, the gross margin for which is determined by methods and rates other than those he has already filed with the Office of Price Administration, he must file such methods and rates with the appropriate office of the Office of Price Administration prior to first offering such article for sale. However, if as of December 8, 1942, the maximum prices of all other mechanical rubber goods produced by the manufacturer are established by this regulation by reference to a schedule or price list or by some other regularly quoted prices, the manufacturer shall report that fact to the appropriate office of the Office of Price Administration on or before May 7, 1946.

7. Section 1315.28 (b) is amended to read as follows:

(b) This paragraph (b) is applicable to mechanical rubber goods the maximum price of which cannot be determined by reference to the price stated in the schedule or price list of the manufacturer in effect on the base date (October 1, 1941, for articles listed in Appendix A, and January 5, 1942, for articles listed in Appendix B) or by reference to a price regularly quoted in some other manner on the base date. If any mechanical rubber good be listed as a new standard list good, the manufacturer shall report to the office of the Office of Price Administration with which he filed the reports required by subparagraph (1) above, that the article is being so listed and, prior to offering such mechanical rubber good for sale, shall report a detail description thereof (including the size), the maximum price of each such article, the calculations used in determining the maximum price, the proposed selling price, and the terms of sale of each class of purchaser. 8302.12 Regulations by disposal agencies to be reported to the War Assets Administrator.

AUTHORITY: §§ 8302.1 to 8302.12, inclusive, issued under Surplus Property Act of 1944, 58 Stat. 765; 50 U.S.C. App. Sup. 1611 and under Pub. Law 181, 79th Cong., 1st Sess. (59 Stat. 533), and Executive Order 9689 (11 F.R. 1265).

§ 8302.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Government agency" means any executive department, independent establishment, board, bureau, commission, or other agency of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(2) "Standard administrative and maintenance property" means all property from time to time listed in stock catalogues issued by the Procurement Division of the Treasury Department. These catalogues normally include, among other items, office supplies, furniture, and equipment, and maintenance operating supplies.

(3) "State and local governments" means any State, territory, or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

§ 8302.2 *Scope.* This part shall apply only to disposals made by disposal agencies within the United States, its territories or possessions; *Provided*, That § 8302.7 shall apply only within the continental United States. This part shall not apply to any disposals of real property; nor to personal property appurtenant to, or severed from, or assigned for disposal in connection with, real property, and disposed of pursuant to Parts 8305,[1] 8310,[2] 8316,[3] or 8320.[4]

§ 8302.3 *Applicability of regulations and directives of War Production Board, Civilian Production Administration, Office of Price Administration, and Secretary of Agriculture; and disposals which may be exempted from this part*—(a) *Applicability of regulations and directives of War Production Board, Civilian Production Administration, Office of Price Administration, and Secretary of Agriculture.* All disposals hereunder shall be subject to applicable regulations and directives of the War Production Board, Civilian Production Administration, the Office of Price Administration, and the Secretary of Agriculture.

(b) *Disposals which may be exempted from this part.* Subject to the provisions of paragraph (a) of this section, disposal agencies may dispose of surplus property without regard for any provisions of this part:

(1) To supply the needs of the armed forces;

(2) When the property is of such nature or in such situation that its immediate disposal is necessary to prevent its deterioration, spoilage, or serious loss or damage, or when its disposal is necessary to relieve critical storage requirements;

(3) When upon application to the War Assets Administrator by a disposal agency, the Administrator shall find that it is impracticable or uneconomical to require the disposal of designated property according to the provisions of this part;

(4) When the nature or condition of any surplus property sold is such that it is not usable or safe for use by the consumer in its existing form without processing, reprocessing, reconditioning, or repackaging;

(5) When the cost (estimated if not known) of all substantially similar items of such property in the possession of the disposal agency at any one location at any one time does not exceed $300; or when the cost (estimated if not known) of any item or group of identical items, normally constituting a single entry on Form SPB–1, and in the possession of the disposal agency at any one location at any one time, does not exceed $100.

§ 8302.4 *Information about available property*—(a) *Availability of records of surplus property; Governmental requirements officers.* Disposal agencies shall establish procedures to insure that designated representatives or procurement officers of Government agencies and State and local governments shall have access to the information on the property records of the disposal agencies, and shall upon request from time to time inform such representatives or procurement officers about surplus property for which declarations have been received or are anticipated. Each disposal agency shall appoint in its central office and in each regional office thereof a government requirements officer or officers, whose duties shall include (1) transmitting to Government agencies and State and local governments information concerning surplus property which is or may become available for disposal; (2) assisting in programming sales or offerings in such a manner as to afford Government agencies and State and local governments an opportunity to purchase any and all kinds of property they desire; (3) ascertaining the probable needs for all kinds of property of Government agencies and State and local governments within the region served by each regional office to the end that the reservations established under § 8302.5 may be adequate to supply the probable needs of Government agencies and State and local governments within the region served by the office; (4) cooperating with such advisory committees as the Administrator may appoint; and (5) taking all other necessary or desirable steps to see that all requirements of this part are complied with. It shall be the responsibility of Government agencies, in order to avoid making purchases through commercial channels, continuously to consult such records and to determine whether their requirements for all items of property, except standard administrative and maintenance property subject to the provisions of § 8302.7, can be satisfied out of surplus property in the hands of the disposal agencies.

(b) *Notice of offering.* Disposal agencies shall adopt procedures which will allow Government agencies and State and local governments to receive notices of what surplus property is available or offered for sale within the area in which the offering is made. Government agencies and State and local governments shall have the right upon request to be put on mailing lists for notices in all cases where such lists are used to offer property for disposal, including mailing lists otherwise reserved to special classes of buyers, unless the disposal agency shall find that the giving of such notices to Government agencies and State and local governments shall for any particular type of property become impracticable, unduly expensive to the Government, or unreasonably burdensome on the facilities of the disposal agency. When public advertising is used as the method of offering, no other notice need be given to Government agencies and State and local governments.

§ 8302.5 *Reservations of surplus property for Government agencies and State and local governments.* (a) Each disposal agency, based upon experience and demonstrated demand, shall estimate the quantity of each item of surplus property which it is necessary to hold in reserve in order to provide an adequate supply thereof to satisfy the probable needs for such item of Government agencies and State and local governments. Such quantities shall be reviewed and adjusted periodically by the disposal agency in the light of the changing requirements of Government agencies and State and local governments and the areas in which such requirements exist. There need be no earmarking of specific property, but the quantities of surplus property so estimated shall be reserved for exclusive disposal to Government agencies and State and local governments, and any property in excess of such reserved quantities may be promptly disposed of to others.

(b) In order to assist the disposal agencies to reserve quantities of surplus property adequate to satisfy the needs of Government agencies, including the needs of Reconstruction Finance Corporation as successor to Smaller War Plants Corporation for resale to small business under section 18 (e) of the Surplus Property Act of 1944, Reconstruction Finance Corporation shall advise the disposal agencies from time to time of the quantities and kinds of surplus property which it needs or may need for such purposes, and the disposal agency shall thereupon take such steps as may be necessary to reserve an adequate supply with which to fill such needs. Purchases by Reconstruction Finance Corporation for resale to small business shall be subject to equitable allocation as provided in § 8302.6 (b). Prospective purchasers to whom Reconstruction Finance Corporation proposes to resell any surplus property shall have the right to inspect such property before it is purchased by Reconstruction Finance Corporation.

§ 8302.6 *Transfers to Government agencies.* (a) Subject to the provisions of § 8302.7, disposal agencies shall transfer to a Government agency on its order surplus property in quantities not smaller than the smallest lots consistent with commercial practice and at the fair value of such property as provided in § 8302.9. Disposal agencies shall make such transfer of surplus property to a Government agency without reimbursement or transfer of funds whenever a transfer on such terms by the owning agency by which such property was declared surplus would be authorized by law to be made to the agency desiring such property. The agency desiring property without reimbursement or transfer of funds shall pay all transportation charges, but not the cost of packing, and shall furnish when necessary a Government bill of lading bearing identification of the appropriation against which such transportation charges are to be charged. Government agencies may place orders with a disposal agency for surplus property at any time, and such orders shall be filled from any available surplus property. If no property is available or likely to be available, the disposal agency shall notify the claimant, and upon the dispatching of such notification the order shall lapse. Property already advertised for public competitive bids or for sale at auction or for immediate purchase at a fixed time and property specifically selected by a prospective purchaser shall not be considered available.

(b) Disposals to Government agencies under this section shall be accorded priority over disposals to all others. This priority shall extend to transfers to any Government agency when acquiring surplus property to be used for the contribution of the United States to the United Nations Relief and Rehabilitation Administration. Whenever two or more Government agencies shall claim the same item or items of surplus property, the disposal agency shall fill the orders in the sequence in which they have been received, or on such other equitable basis as the disposal agency may determine in any case when it has reason to believe that the quantity of any type of property available at any time will be insufficient to supply the needs of all interested Government agencies.

§ 8302.7 *Transfers of surplus standard administrative and maintenance property to the Treasury Department, and acquisition of such property by Government agencies.* (a) In order to facilitate the transfer of surplus property from one Government agency to other Government agencies for their use, the Treasury Department may acquire, or have earmarked for a reasonable period for its future acquisition, from the disposal agencies such quantities of surplus standard administrative and maintenance property as the Treasury Department shall estimate may be needed to satisfy the needs and requirements for such property of all Government agencies within the continental United States, other than the War Department, Navy Department, Veterans Administration, Commodity Credit Corporation, and each disposal agency for the types of property for which it is designated as such under Part 8301.[4] The periods for which such property may be earmarked shall be established by the disposal agency based upon the estimates of the Treasury Department and the requirements of such Government agencies pursuant to such estimates. Such Government agencies shall cooperate with the Treasury Department in compiling such estimates and shall provide the Treasury Department with such information concerning their requirements as it may need in order to promote the fullest utilization of surplus property.

(b) Disposal agencies shall transfer surplus standard administrative and maintenance property to the Treasury Department in accordance with the provisions of § 8302.6 and at the fair value of the property less an amount which reflects the estimated expenses to be incurred by the Treasury Department in making distribution to Government agencies, and the Treasury Department shall promptly upon such transfer take possession and assume responsibility for the care, handling, and disposition of such property.

(c) It shall be the responsibility of all such Government agencies, in order to avoid making purchases of such property through commercial channels when such property is available from surplus, continuously to consult the stock catalogues issued by the Procurement Division of the Treasury Department.

(d) Except in cases where transfers may be made without reimbursement or transfer of funds, no Government agency other than the War Department, Navy Department, Veterans' Administration, Commodity Credit Corporation, and each disposal agency for the types of property for which it is designated as such under Part 8301, shall within the continental United States acquire by direct transfer from a disposal agency any surplus standard administrative or maintenance property which is offered for disposal by the Treasury Department and immediately available for acquisition by such Government agency, *Provided*, That, Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, shall be entitled to acquire any such property from a disposal agency for resale in accordance with the Surplus Property Act of 1944 and applicable regulations of the War Assets Administrator.

§ 8302.8 *Disposals to State and local governments.* (a) Disposal agencies shall dispose of surplus property to State and local governments in quantities not smaller than the smallest lots consistent with commercial practice and at the fair value of such property as provided in § 8302.9. State and local governments may place orders with a disposal agency at any time and such orders shall be filled from any available surplus property. If no property is available or likely to be available, the disposal agency shall notify the claimant, and upon the dispatching of such notification the order shall lapse. Property already advertised for public competitive bids or for sale at auction or for immediate purchase at a fixed time and property specifically selected by a prospective purchaser shall not be considered available.

(b) Disposals to State and local governments shall have priority over disposals to all others except Government agencies under § 8302.6. Whenever two or more State and local governments shall claim the same item or items of surplus property, the disposal agency shall fill the orders in the sequence in which they have been received, or on such other equitable basis as the disposal agency may determine in any case when it has reason to believe that the quantity of any type of property available at any time will be insufficient to supply the needs of all interested State or local governments.

(c) The disposal agencies shall adopt procedures designed to distribute surplus property equitably to State and local governments throughout the country.

(d) No surplus property disposed of under this section shall be resold or otherwise transferred by the purchaser thereof within one (1) year of the date of purchase without the consent in writing of the disposal agency. At the request of a disposal agency, any State or local government shall submit a certificate made by a responsible officer setting forth that the property is sought for the use of a State or local government as defined in § 8302.1 (b) (3).

§ 8302.9 *Fair value.* Disposal agencies shall fix the fair value at which property disposed of under §§ 8302.5, 8302.6, and 8302.8 shall be acquired by Government agencies and State and local governments. Such fair value shall not be greater than the lowest price which is offered to any trade level at the time of acquisition by the Government agency or State or local government.

§ 8302.10 *Right of Government agencies and State and local governments to acquire property in competition with others.* In addition to acquiring property under §§ 8302.5, 8302.6, and 8302.8, Gov-

PART 8305—SURPLUS NONINDUSTRIAL REAL PROPERTY

Surplus Property Administration Revised Regulation 5, March 6, 1946, entitled "Surplus Nonindustrial Real Property", as amended through March 23, 1946 (11 F.R. 2644, 3301), is hereby further amended in the following respects:

1. The first sentence of § 8305.3 is amended to read:

Scope. This part applies to surplus real property located within the continental United States, its territories and possessions, and to any personal property appurtenant thereto or severed therefrom, or assigned for disposal in connection therewith; but does not include industrial, transportation, or marine industrial real property, or airport property.

2. Section 8305.12 (f) is amended by adding a new subparagraph to be designated (6) reading as follows:

(6) *Water rights.* Water rights in connection with real property subject to irrigation shall ordinarily be disposed of with the real property to which they relate, whether such rights are evidenced by stock certificates in irrigation projects or otherwise, and shall be disposed of subject to the provisions of this part.

In order to meet the objectives of the act to discourage disposals for speculative purposes, it shall be the policy of the Administrator to dispose of such rights to the owners of the real property who may be entitled to the benefits thereof, rather than to persons who are not owners, and in quantities proportionate to the amount of property owned by such persons.

Former owners shall be entitled to a priority for any such rights acquired from them in connection with real property which they sold to the Government where such former owners are entitled to and claim priority as to such property.

Except as to former owners who are governed by the provisions of § 8305.12 (h) (2) as to price, the price to be charged for such water rights shall be the fair value thereof.

3. Section 8305.12 (n) is amended by the addition of a new subparagraph to be designated (3) which shall read as follows:

(3) Any structures, whether on Government-owned or non-Government-owned land, which are disposed of intact and separately from the land shall be disposed of under and subject to the provisions of this part, as though such structures were real property. Where such structures are demolished and the Government retains the residue materials, such materials shall be disposed of under other applicable regulations.

This amendment shall become effective April 10, 1946.

Administrator.

[Order 2177]

ELECTRIC ENERGY GENERATED AT RESERVOIR PROJECTS IN THE MISSOURI RIVER BASIN UNDER THE CONTROL OF THE WAR DEPARTMENT

DISPOSITION BY BUREAU OF RECLAMATION

MARCH 29, 1946.

I. The Bureau of Reclamation (hereinafter called the "Bureau") is hereby designated the marketing agent for the electric energy, directed by the act of December 22, 1944 (58 Stat. 887), to be marketed by the Secretary of the Interior, that is generated at all reservoir projects in the Missouri River Basin under the control of the War Department.

II. Subject to all applicable statutes, Executive orders and orders of the Secretary, and within the limits of appropriations that may be available therefor:

1. The Bureau shall sell and dispose of all electric energy for which it is hereby made the marketing agent in such manner as to encourage the most widespread use thereof at the lowest possible rates to consumers consistent with sound business principles, giving preference in sales to public bodies and cooperatives. To the extent and in the manner that in its judgment may be necessary or appropriate for such effective marketing of the energy available to it, the Bureau shall (a) interconnect and arrange for the integrated operation of the electric facilities of all projects for which it is the marketing agent; and (b) interconnect such projects with other electric power systems and interchange electric energy with and purchase and sell electric energy from and to such systems. The Bureau may exercise the powers and functions vested in the Secretary by section 5 of the act of December 22, 1944 (58 Stat. 887), including the construction or acquisition by purchase or other agreement, and operation of transmission lines and other electrical facilities, and may employ such personnel and take such other action as may be necessary or appropriate to carry out the provisions of this order.

2. The Bureau may make such surveys, investigations, studies, and informational reports and may undertake, cooperate in, or participate in such engineering, research and demonstrational work as it may determine to be useful and appropriate to aid the development of markets for the disposition of electric energy for which it is hereby made the marketing agent, the widespread distribution and abundant utilization of such energy for industrial, domestic, agricultural, and other purposes. So far as practicable, the Bureau shall consult and cooperate with the Federal agencies, including agencies within the Department of the Interior, having an interest in the economic development of the area, and with the states and public and cooperative agencies therein, in the collecting and dissemination of information and data, the development of plans and the research and demonstrational work contemplated by this order.

3. To provide the widest possible use of and reasonable outlets for electric energy marketed by the Bureau and the purchase thereof by the ultimate consumer at the lowest possible rates consistent with sound business principles, and to prevent the monopolization of such energy by limited groups, the Bureau, to the extent and in the manner that in its judgment may be required, shall advise and assist public bodies and cooperatives who are purchasers or potential purchasers of electric energy from the Bureau in acquiring, operating, and maintaining distribution systems, or any portion or portions thereof, and related electric facilities and equipment.

4. The Bureau shall dispose of electric energy under contracts or agreements which contain such terms and conditions, including resale rate provisions, as in the judgment of the Bureau may be desirable and appropriate to effectuate the marketing policies established by the Congress and expressed in this order. Provision shall be made in contracts with privately owned utilities engaged in the sale of electric energy to the general public to preserve and effectuate the preferential position of public bodies and cooperatives which may exist or thereafter be organized and which may desire to become purchasers of electric energy.

III. The Bureau shall include operations under the provisions of this order in its monthly reports to the Division of Power and in addition shall submit promptly to the Secretary through the Division of Power an annual consolidated report of power operations, covering all projects for which the Bureau is the marketing agent under the provisions of this order, that show income and expenses, allocation of fixed capital investments, and related financial and statistical information connected with the transmission, purchase and sale of electric power and energy by the Bureau under the provisions of this order.

IV. The Bureau shall work out such arrangements with the Corps of Engineers, including the Division and District offices, as may be necessary or desirable to enable the Bureau to perform its functions and duties hereunder, including arrangements for the exchange of financial information and data, and arrangements for the scheduling and delivery to the Bureau of electric power and energy for which it is hereby made the marketing agent.

V. For the coordination and integration of the programs, projects, and activities of the agencies in the Department having an interest in the development of the resources of the area, and for the elimination of waste and duplication of effort, the Bureau shall advise such other agencies of the nature, scope, and progress of its activities hereunder that may concern or affect the activities of such other agencies, and shall make available to them such data and information in relation thereto as may be useful in the performance of their duties. All agencies within the Department, including field offices thereof, shall cooperate in like fashion with the Bureau.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 27th day of March 1946;

The Commission having under consideration the above application of W. J. Marshall, for a permit to construct a new standard broadcast station at Cleveland, Ohio;

It is ordered, That the said application be designated for hearing in a consolidated proceeding with the application of P. C. Wilson, Canton, Ohio (File No. B2-P-4117, Docket No. 6915), upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the areas and populations proposed to be served.

4. To determine whether the operation of the proposed station would cause objectionable interference with the service proposed in the pending application of P. C. Wilson, Canton, Ohio (File No. B2-P-4117, Docket No. 6915), and/or with any other pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with services rendered by any existing broadcast station and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine upon a comparative basis which, if either, of the applications in this consolidated proceeding, should be granted.

By the Commission.

MERCED BROADCASTING CO. (STATION KYOS)[1]

PUBLIC NOTICE CONCERNING PROPOSED TRANSFER OF CONTROL

The Commission hereby gives notice that on March 25, 1946, there was filed with it an application (B5-TC-482) for its consent under section 310 (b) of the Communications Act (47 USCA 310) to the proposed transfer of control of Merced Broadcasting Company (licensee of standard broadcast station KYOS, Merced, California) from Marjory McClung, executrix of the estate of Ray McClung, deceased, to Hugh McClung, Post Office Box 717, Merced, California. The proposed transfer of control of the above license is based upon an agreement, entered into between Marjory McClung, executrix, and Hugh McClung, proposed transferee, which has been approved by order of February 4, 1946 of the Superior Court of the State of California for Merced County. Under the terms of this agreement, the executrix, Marjory McClung, proposes to sell to Hugh McClung 8,000 shares of the capital stock of licensee for a total consideration of $51,000; of this amount, $14,000 in cash has been paid upon execution of the agreement and the balance of $37,000 is to be payable in monthly installments of not less than $500 beginning February 15, 1946, with interest therefrom at 5% per annum. The $37,000 is to be evidenced by purchaser's note and secured by pledge of the 8,000 shares of stock.

The sale of said shares by the executrix to Hugh McClung is contingent upon the sale of 50 shares of stock of the Golden Empire Broadcasting Company (which is the licensee of Stations KHSL in Chico, California, and KVCV in Redding, California) by the executrix to Mrs. Mickey McClung for a consideration of $51,000 of which not less than 25% shall be paid in cash at the time of sale; the balance, due upon said proposed sale, is also to be evidenced by purchaser's note and secured by the stock sold. Neither sale is to be made or consummated without the other. Further details as to the arrangements between the parties or pertaining to the application may be determined from an examination of the application and associated papers on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter, on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, consideration of such applications would be deferred unless applicants desired to follow the procedure proposed in the WLW decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notice. Pursuant thereto, the Commission was advised on March 25, 1946, that notice of the filing of the application has been inserted in a Merced, California newspaper of general circulation.

In accordance with the procedure proposed in the WLW decision and that announced in the Commission's release, no action will be had upon the KYOS application for a period of 60 days from March 25, 1946, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract.

[Order 53 Under 19a, Amdt. 1]

REFINED CORN SUGAR IN BULK, CORN STARCH AND DEXTRINE PRODUCTS IN BULK, CORN SYRUP, UNMIXED IN BULK, CORN SYRUP SOLIDS IN BULK AND CRUDE CORN SUGAR IN BULK

ADJUSTMENT OF MAXIMUM PRICES

Order No. 53 permitted sellers of Refined Corn Sugar in bulk having a dextrose content of over 90%, subject to the General Maximum Price Regulation, to sell and deliver the product at a price to be adjustable to that resulting from final action of the Office of Price Administration.

Petitions have now been filed requesting increases in the prices established by Supplementary Regulation 14C under the General Maximum Price Regulation for Corn Starch and Dextrine products in bulk, Corn Syrup unmixed in bulk, Corn Syrup Solids in bulk and Crude Corn Sugar in bulk. It is the contention of the petitioners that they are unable to manufacture these commodities under existing price structures.

It is the opinion of the Administrator that those petitions require further consideration; that authority to use adjustable pricing for sales of these products, pending final action on the requests for increases in the maximum prices, is necessary to allow unhampered production and distribution; and that the granting of such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599 and 9697.

Therefore, in accordance with § 1499.19a of the General Maximum Price Regulation, *It is ordered*, That:

Paragraphs (a), (b) and (c) of Order 53 are amended to read as follows:

(a) Pending final action of the Office of Price Administration respecting requests for increasing the prices of Refined Corn Sugar in bulk having a dextrose content of over 90%, corn starch and dextrine products in bulk, corn syrup unmixed in bulk, corn syrup solids in bulk and crude corn sugar in bulk, sellers subject to the General Maximum Price Regulation and Supplementary Regulation 14C under the General Maximum Price Regulation may sell and deliver these products at a price to be adjustable to that resulting from final action of the Office of Price Administration. Denial of the requests now pending before this Office or issuance of a regulation or amendment for increasing the maximum prices of these products constitutes final action for the purposes of this order. Prior to such final action, no prices shall be paid in excess of the prices prevailing on the date of delivery.

(b) As used in this order, the terms:

(1) Refined Corn Sugar means all commercial types of purified and crystallized corn sugar having a dextrose content of over 90%.

(2) Corn starch and dextrine means the carbohydrates extracted from corn grain by the wet milling process commercially dry, in suspended form, thin boiling, thick boiling, oxidized rolled or roasted but does not include products commercially known as refinery products.

(3) Corn syrup unmixed means all commodities manufactured by the wet corn milling process commercially known as refinery products except crude corn sugar, hydrol or corn molasses, corn syrup solids, and fully refined sugar.

(4) Corn syrup solids means all types and grades of dehydrated commodities manufactured by the wet corn milling process and commercially known as refinery products having a dextrose equivalent of 65 percent or less.

(5) Crude corn sugar means those commodities manufactured by the wet corn milling process and commercially known as refinery products having an average dextrose content between and including 70 percent to 80 percent; 70 sugar and 80 sugar when used in reference to crude corn sugar refer to minimum average dextrose content.

(6) Bulk or in bulk means in tank cars, tank wagons, barrels, half-barrels, steel drums, in bags, in bulk in cars, or in other containers of more than 10 pounds net weight, except that when sales of corn starch and dextrine are made to any government purchasing agency, bulk or in bulk means in tank cars, tank wagons, barrels, half-barrels, steel drums, in bags, in bulk in cars, or in other containers of more than 4 pounds net weight.

(c) This amended order shall be automatically revoked upon the effective date of a price regulation or amendment issued by the Office of Price Administration increasing maximum prices for Refined Corn Sugar in bulk, Corn Starch and Dextrine Products in bulk, Corn Syrup unmixed in bulk, Corn Syrup Solids in bulk and Crude Corn Sugar in bulk. It may be revoked or amended by the Price Administrator at any time.

This amendment shall become effective April 11, 1946.

Issued this 11th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

Approved: April 11, 1946.

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job. This order does not cover sales made by "mail order" sellers.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Butler, Montgomery, Preble and Warren Counties in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in Table 1, remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached Table 1, are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintains records showing complete calculations for such item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valued at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in Table 1, are subject to the following condition:

(1) For all sales made to bona fide "resellers on an installed basis," a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis.

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and loaded on cars for shipment to a purchaser for resale on an installed basis or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request, a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the maximum permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA so long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
5. If the stock millwork is sold on a firm contract price basis and includes two or more different items, the seller must keep a record describing his calculations of such item sold by reason of such firm contract price.

SEC. 8. *Prohibitions and evasions.* (a) No person shall sell, and no person shall buy in the course of trade or business at prices greater than the maximum prices set forth in the price list attached hereto.

(b) All sales shall be made subject to the allowances and discounts set forth herein. Every seller shall be subject to the notification invoices and record provisions set forth above. No provision to this order shall supersede any requirement or prohibition set forth in any price regulation except insofar as the requirements of this order are inconsistent with requirements of any other regulation or order issued by the Office of Price Administration. Persons violating any provision of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942.

SEC. 9. *Posting.* Every seller making a sale covered by this order shall post a copy of the list of maximum prices fixed by this order.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective March 21, 1946.

Issued: March 7, 1946.

Regional Administrator.

[Region III Order G-13 Under Gen. Order 68]

STOCK MILLWORK IN PORTSMOUTH, OHIO, AREA

For the reasons set forth in an opinion issued simultaneously herewith, filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Lawrence, Pike and Scioto Counties in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in Table 1 remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached table are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order; *Provided*, He maintains records showing complete calculations for such item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valued at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in the Table 1 are base prices for sales to ultimate users and are subject to the following condition;

(1) For all sales made to bona fide "resellers on an installed basis", a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis.

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases

RE-ROOFING AND RE-SIDING IN LEXINGTON, KY. AREA

An opinion accompanying this order issued simultaneously herewith has been filed with the Division of Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable, and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, and by section 9 of Revised Maximum Price Regulation No. 251, it is ordered that:

SECTION 1. *What this order does.* This order fixes maximum prices for all sales of re-roofing and re-siding when sold installed on residential structures in the area hereinafter described.

(a) The term "re-roofing" includes composition re-roofing, such as asphalt shingles, mineral surface roll re-roofing and smooth surface roll re-roofing, but does not include wood, metal or slate re-roofing.

The term "re-roofing" when sold installed means and includes related materials and services of installation of such materials such as nails, mastic, and flashing around chimneys and vents.

The term "incidental" construction work in connection with "re-roofing" means any installation of building materials or construction work other than installed re-roofing described in this order when sold by installers of re-roofing.

"Installed basis" in connection with "re-roofing" means a transaction in which the seller furnished roofing materials and related materials or services required to incorporate such roofing into a building or structure.

(b) "Composition siding" means types of siding used in new and re-siding jobs, such as roll brick and insulated brick or stone, but not wood shingles or wood siding.

"Installed basis" in connection with re-siding means a transaction in which the seller furnished composition siding and related materials or services required to incorporate such siding into a building or structure including the furnishing and installation of leveling strips, felt, felt strips, corner beads, caulking, mouldings, nails and other materials, labor cost and other job costs.

SEC. 2. *Applicability.* This order shall apply to all sales made in the following counties in the State of Kentucky: Fayette, Scott, Grant, Pendleton, Harrison, Bourbon, Clark, Madison, Jessamine, Boyle, Mercer, Franklin and Woodford.

SEC. 3. *Relationship of this order to Revised Maximum Price Regulation No. 251.* (a) The provisions of this order supersede sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing or re-siding when sold installed on residential structures. All other provisions of Revised Maximum Price Regulation No. 251 not inconsistent with this order are applicable to transactions covered by this order.

(b) On and after the effective date of this order, regardless of any contract or other obligation, no person shall contract to sell, offer to sell or deliver re-roofing or re-siding, sold on an installed basis on residential structures as herein defined, at prices higher than the maximum prices established by this order: *Provided*, That deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. 4. (a) *Maximum prices for sales of re-roofing on an installed basis.* The maximum prices for sales of re-roofing on an installed basis on residential structures shall be as shown in the following Table 1, and shall be upon a price per square.

The above prices include all related materials and services.

On all sales of re-roofing on an installed basis covered by this order, an additional charge of 50% of the maximum price per square may be made for the actual areas of the following covered only: Towers, eye brows, bay windows, overhangs and shelves.

(b) *Maximum prices for sales of re-siding on an installed basis.* The maximum prices for sales of re-siding on an installed basis on residential structures shall be as shown in the following Table 2, and shall be upon a price per square:

TABLE 2

The above prices include all related materials and services.

SEC. 5. *Guaranteed prices.* A seller may sell a re-roofing or re-siding job covered by this order on the basis of a guaranteed price, but such guaranteed price must not be higher than the maximum price figures in accordance with the pricing methods and requirements of this order.

SEC. 6. *Incidental construction work.* If, on any job, any installed building materials are furnished or any construction services performed by the seller, other than re-roofing or re-siding and related materials and services the cost of such work shall not be included in the cost of installed re-roofing or re-siding, but shall be separately priced and billed on all invoices. The maximum price of any incidental work shall be determined under Revised Maximum Price Regulation No. 251, or other applicable regulation or order.

SEC. 7. *Measurements.* It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 10% from the maximum price computed under the terms of this order.

SEC. 8. *Notification.* Every person making sales subject to this order shall, if requested by the purchaser, make available to the purchaser a copy of this order and copy of Revised Maximum Price Regulation No. 251. The seller shall also include in such statement the date on which the installation was completed, the names and addresses of the sellers and buyers, job site and terms of sale.

SEC. 9. *Evasion.* Any practice or device which results in a higher price to the purchaser of re-roofing or re-siding on an installed basis and incidental construction work than is permitted by this order is a violation, and subjects the seller to all the penalties provided by the Emergency Price Control Act of 1942 as amended.

SEC. 10. *Records.* All sellers of installed re-roofing, re-siding and incidental construction work covered by the terms of this order must keep records concerning each sale subject to this order, including the name and address of the purchaser, the location of the job, the date of the transaction, a description of the materials and services involved, the number of squares and price per square of re-roofing or re-siding, a separate statement of any incidental construction work, and the total charge for the entire job.

All such records shall be made available for inspection by representatives of the Office of Price Administration so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

The Commission on September 3, 1942, having entered an order instituting these proceedings (File No. 59–54) under sections 11 (b) (2), 12 (c), 12 (f), 15 (f) and 20 (a) of the Public Utility Holding Company Act of 1935 (the Act) with respect to Kewanee Public Service Company (Kewanee) to determine what steps, if any, are necessary and should be required to be taken by the Company in order to comply with said provisions of the Act; hearings having been held on the issues presented in said proceedings, evidence having been presented by the parties, and the hearings having been adjourned on November 4, 1943, subject to the call of the trial examiner;

It now appearing appropriate to the Commission that said hearings be reconvened for the purpose of permitting the introduction of any other relevant evidence, for the purpose of bringing up to date such documentary evidence previously introduced to whatever extent may be necessary for a prompt disposition of this matter, and for the purpose of permitting the parties to be heard with respect to whether an order should not be promptly issued pursuant to section 11 (b) (2) as more fully hereinafter ordered;

It appearing also that North American Light & Power Company (Light & Power), a registered holding company, and its subsidiary, Kewanee, have jointly filed an application for approval of a plan under section 11 (e) of the act (File No. 54–141), proposing action described as necessary to effectuate the provisions of section 11 (b) of the act, which application recites in part as follows:

As of November 30, 1945, Kewanee had outstanding $729,800 principal amount of 6% bonds redeemable on any interest paying date at $100.50 and accrued interest; had issued and outstanding 7,000 shares of 7% cumulative preferred stock, par value $50 per share, with accrued and unpaid dividends to December 31, 1945, on said stock of $45.50 per share, and 10,000 shares of common capital stock, without par value. All of the bonds are held by the public except those held by the Trustee for sinking fund purposes; that Light & Power owns 10,000 shares or all of the common capital stock of Kewanee and 1,496 shares of the preferred stock; Light & Power also holds a promissory note of Kewanee on which there is a balance due in the amount of $210,000 plus accrued interest as of November 30, 1945, in the amount of $20,212.50.

It appearing that the substance of said plan (which is on file in the offices of the Commission and to which interested persons are referred for a full statement of the transactions therein proposed) is in summary form as follows:

(a) The property and plant account of Kewanee is to be written down from $2,120,764.55 to $1,501,812.00, and the reserve for depreciation and retirements is to be reduced from $665,930.03 to $345,452.71.

(b) The charter of Kewanee is to be amended to provide for a new issue of common stock with a stated value of $650,000, divided into 50,000 shares without par value, the new common stock to be issued to the public preferred stockholders and to Light & Power in such proportion as to distribute fairly the available equity between such parties. It is proposed that the exact number of shares to be distributed to the public preferred stockholders and to Light & Power will be supplied by amendment to the application.

(c) It is proposed, on consummation of the above transactions, to retire the outstanding 6% bonds in the principal amount of $729,800 with the proceeds of new bonds in the principal amount of not less than $600,000 and not more than $650,000 and the use of cash belonging to Kewanee and in possession of the Trustee under the terms of the present indenture.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing that such plan, as submitted and amended or as modified, is necessary to effectuate the provisions of subsection (b) of section 11, and is fair and equitable to the persons affected by such plan; and

It appearing to the Commission that said plan under section 11 (e) of the act may properly be considered in connection with these proceedings under section 11 (b) (2), and that for that purpose the application to approve said plan under section 11 (e) (File No. 54–141) may properly be consolidated with the proceedings heretofore filed under section 11 (b) (2) (File No. 59–54), that the evidence heretofore taken should be considered in connection with the proposed plan and that the said proposed plan should be considered in connection with said proceedings under section 11 (b) (2);

It is ordered, That: 1. The hearing in this matter under section 11 (b) (2) of the act (File No. 59–54) is hereby reconvened, and shall be held at 10:00 a. m., e. s. t., on the 1st day of May 1946, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318.

2. The application for approval of the aforesaid plan under section 11 (e) of the act (File No. 54–141) is hereby consolidated with these proceedings under section 11 (b) (2) (File No. 59–54) and shall be heard in the aforesaid proceedings at said hearing. Such consolidation shall be without prejudice to the Commission's right, upon its own motion or the motion of any interested party, to separate in whole or in part any issues which may hereafter arise in these proceedings, or to permit any interested party, for due cause, further to cross-examine witnesses previously called in these proceedings, or to introduce other relevant evidence where previous opportunity was not afforded for that purpose.

3. North American Light & Power Company and Kewanee Public Service Company, respondents in these proceedings, shall, at said reconvened hearing, show cause why an order should not be promptly entered under section 11 (b) (2) of the act, directing that Kewanee Public Service Company recapitalize on a basis of a single class of common stock, such common stock to be issued to the present security holders of Kewanee in such respective proportions as their interests may appear.

4. At said hearing, consideration will also be given to the aforesaid plan under section 11 (e) and, in connection with said plan, particular attention will be directed to the following matters and questions:

(a) Whether the proposed plan, as submitted and amended or as modified, is necessary to effectuate the provisions of section 11 (b) of the act;

(b) Whether the proposed plan, as submitted and amended or as modified, is fair and equitable to the persons affected thereby;

(c) Whether the transactions proposed in said plan comply with all the requirements of the applicable provisions of the act and the rules promulgated thereunder;

(d) Whether, and to what extent, the proposed plan should be modified or

terms and conditions imposed to ensure adequate protection of the public interest and the interests of investors and consumers and compliance with all applicable provisions of the act.

5. Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said act and to a Trial Examiner under the Commission's rules of practice.

6. Notice of said hearing shall be given to The North American Company; North American Light & Power Company; Kewanee Public Service Company; Illinois Power Company; The City of Kewanee, Illinois; and the Illinois Commerce Commission by mailing a copy of this notice and order by registered mail. Notice shall be given to all other persons by a general release of the Commission distributed to the press and mailed to the mailing list for releases under the act, and by publication of this notice and order in the FEDERAL REGISTER.

7. Kewanee Public Service Company shall give notice of this hearing to all of the holders of its capital stock (in so far as the identity of such holders is known or available to Kewanee) by mailing a copy of this notice and order to such holders at least 15 days prior to the date of said hearing.

By the Commission.

PART 165—ARTIFICIAL LIMB INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 12th day of April, A. D. 1946.

Due proceedings having been held under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the trade practice rules of Group I and Group II, as hereinafter set forth, which have been approved and received, respectively, by the Commission in this proceeding, be promulgated as of April 16, 1946.

Statement by the Commission

Trade practice rules for the Artificial Limb Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The products of the industry consist of artificial legs, arms, hands, fingers, feet, toes, and similar prosthetic devices or appliances, and parts and accessories therefor. All persons or concerns engaged in the business of manufacturing, repairing, selling, or distributing any such products are members of the industry.

The manufacturers in the industry number in excess of three hundred. Users of artificial limbs and devices total about 600,000 persons of our population and include over 16,000 members of the American armed forces who suffered loss of legs or arms in the service of their country during World War. II. Rehabilitation of persons who have undergone amputations, with resulting restoration to a self-supporting and normal way of life, is largely dependent upon the ability and safety of the industry's prosthetic devices and upon their proper fit, alignment, and appearance when put to actual use.

Protection of physically handicapped persons from misrepresentation and deception in their purchases of such products is an objective of the rules. Various practices which are deceptive or otherwise unfair or harmful are defined and provision made for their elimination and prevention. These and the other provisions included in the rules are aimed at maintaining, in the public interest, fair and lawful competition and high standards of ethical business conduct throughout the industry. It is to this end, and to the exclusion of any act or practice which injures, destroys, or prevents fair competition, or which unlawfully restrains trade, that the rules are to be applied.

At the suggestion of the Subcommittee on Aid to Physically Handicapped of the Committee on Labor of the House of Representatives, and in cooperation with industry members, proceedings to formulate and establish fair trade practice rules were instituted under the regular trade practice conference procedure of the Commission. A general industry trade practice conference was held in Chicago, Illinois, at which suggested rules were considered and submitted for Commission approval. Thereafter, a draft of proposed rules in appropriate form was published by the Commission and made available to all interested or affected parties, including users of industry products, upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, amendments, or objections as they desired to offer, and to be heard in the premises. Pursuant to such notice, public hearing was held in Washington, D. C., on February 15, 1946, and all matters presented, or otherwise received in the proceeding, were given due consideration.

Thereupon, and after full consideration of the entire matter, final action was taken by the Federal Trade Commission whereby it approved and received, respectively, the trade practice rules hereinafter appearing in Group I and Group II.

Group I

The unfair trade practices embraced in the Group I rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

AUTHORITY: §§ 165.1 to 165.27, inclusive, issued under 38 Stat. 717, as amended, and pursuant to other provisions of law administered by the Commission.

§ 165.1 *Deception (General).* (a) It is an unfair trade practice to sell, offer for sale, or distribute any industry product, or promote the sale or distribution thereof, by any method or under any circumstance or condition which has the capacity and tendency or effect of deceiving purchasers or prospective purchasers as to the construction, composition, design, model, origin, manufacture, value, quality, weight, absence of noise in operation, strength, durability, life expectancy, appearance, fit, comfort, alignment, utility, ease of operation, or safety to wearer, of such product, or in any other material respect; or to mislead purchasers or prospective purchasers with respect to the need for repair, maintenance, or replacement of parts, of such product after its purchase and use, or with respect to any service offered concerning maintenance of product or training of purchaser in the use thereof.

(b) In this connection, under paragraph (a) of this section, it is an unfair trade practice to represent or infer, unless such be wholly true and nondeceptive, that the product:

(1) Will give use and satisfaction to wearer equivalent or nearly equivalent to that afforded by the human limb or other body member for which the product is proposed as a substitute; or that such product

(2) Has the appearance of, or cannot be detected from, the human limb or body member; or

(3) Is in compliance with any Government specifications or standard; or

(4) Has the latest improvements in construction composition, design, appearance, or utility; or

(5) Is immune from damage or impairment by water; or

(6) Has the approval of any doctor, hospital, or Government agency or official.

(c) The inhibitions of this section shall apply with respect to every species of advertisement or form of representation, whether in newspapers, periodical, telephone directory, sales catalogue, sales promotional literature, on the radio, or otherwise, or whether by use of any word, design, sound, or combination thereof; and such inhibitions shall also apply with respect to labeling and to impressions created by reason of failure to reveal limitations or material facts. [Rule 1]

§ 165.2 *Disclosures to be made before sale.* It is an unfair trade practice for any member of the industry to fail to disclose to any purchaser of an industry product, prior to his or her purchase or making of contract for purpose thereof from such member:

(a) Any and all latent defects of which such member is aware, or has reason to believe exist, with respect to the product being offered for sale; and

(b) The fact that the degree of usefulness and benefit to be derived by the wearer will be dependent in substantial part upon the place and character of his or her amputation, the condition of his or her stump or body member to which the product is to be fitted and applied, his or her age, strength, agility, and state of health, and his or her diligence and persistence in accustoming himself or herself to the use of such product, development of muscles, and acquiring skill in the manipulation and use thereof; and

(c) In the case of a recent amputation, or of the prospective purchaser's previous nonuse of a prosthetic device, the fact that shrinkage of his or her stump is likely to occur by reason whereof the product, though fitting properly at time of delivery, may not continue to be in proper fit after such shrinkage;

such nondisclosure having the capacity and tendency or effect of deceiving purchasers or prospective purchasers as to the true efficacy or benefit to be derived from such product. [Rule 2]

§ 165.3 *Representation or promise that product will "fit".* It is an unfair trade practice for any member of the industry to represent, promise, or guarantee that any industry product will be made to fit any individual purchaser or prospective purchaser thereof, when such representation, promise, or guarantee is not made in good faith or the industry member is not possessed of the requisite skill, knowledge, and equipment to assure of his ability to fulfill such representation, promise, or guarantee.

NOTE: Textile articles or accessories sold by members of the industry are to be labeled or marked with respect to their fiber content as required by applicable provisions of law or regulation. For example, stump socks containing or purporting to contain wool are subject to the requirements of the Wool Products Labeling Act and regulations issued thereunder.

NOTE 1: An industry prosthetic device shall not be considered as fitting unless properly shaped and sized for the stump or body member to which it is to be applied, is in proper alignment and conformity with the physique of the person to wear such product, and affords the optimum of comfort and use on the part of the wearer thereof without injury to stump or other body member. In cases where there is any likelihood of shrinkage of stump after fitting and delivery of the product, full explanation of such shrinkage should be made to the purchaser and the necessity of refitting by reason thereof should be clearly pointed out to him.

NOTE 2: It is the consensus of the industry that the term "perfect fit" should not be used by members, as perfection is not attainable.

[Rule 3]

§ 165.4 *Protection of public with respect to apparent agency.* (a) It is an unfair trade practice for any member of the industry to aid or abet any person in effecting a deception of purchasers or prospective purchasers as to his or her authority to represent and make commitments in behalf of such industry member.

(b) For an industry member to supply any person, not his agent, with samples, sales literature, guarantees of such industry member, or any indices of agency, and accept orders secured by such person and then refuse to fulfill the commitments implied to such purchaser by the use of such samples, sales literature, etc., is an unfair trade practice. [Rule 4]

§ 165.5 *Deceptive testimonials or depictions.* (a) It is an unfair trade practice for a member of the industry to use any testimonial of a user of any prosthetic device, or of any other person, or to use any picture or depiction, which is false, misleading, or deceptive in any respect.

(b) It is an unfair trade practice to cause any testimonial or picture of a user of a prosthetic device to be employed in a manner having the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers into the belief that:

(a) Such testimonial was given, or that the picture was taken and is being used, without solicitation or payment of any consideration, when such is not the fact; or

(b) That the testimonial or picture pertains to the certain kind, model, or make of prosthetic device which is being offered for sale, when such is not the fact.

(c) No member of the industry should use any testimonial which he has good reason to believe contains untrue or exaggerated statements, or display any picture of a wearer of any prosthetic device, or other depiction, which serves to create a false impression as to the actual utility, appearance, or benefits derived from the use of such device. To avoid misunderstanding or deception, proper testimonials and pictures of wearers of such devices should be accompanied by a disclosure of pertinent data, such as the date of the making thereof, the make, manufacture, model, and composition of the certain device worn by the person at the time of his or her making of such testimonial or the taking of such picture, together with disclosure as to the place of his or her amputation, his or her age at the time of loss of limb or body member, and the period of time that he or she has been using such device. [Rule 5]

§ 165.6 *Deceptive demonstrations.* (a) In the sale, offering for sale, or distributing of an industry product, or in promoting the sale or distribution thereof, it is an unfair trade practice to demonstrate any such product in a manner or under circumstances having the capacity and tendency or effect of creating a false impression as to the actual benefits from the use thereof that may reasonably be expected to be had by a purchaser or prospective purchaser of such or a similar industry product.

(b) In this connection, to avoid misunderstanding or deception, no demonstration of an industry product should be made to a purchaser or prospective purchaser unless in conjunction therewith, and before sale or contract for sale is made, there is full disclosure as to:

(1) The make, model, and composition of the particular product demonstrated;

(2) The age of the demonstrator at the time of his or her loss of limb or body member, the place of his or her amputation, and the period of time that such demonstrator has been using a prosthetic device of the kind demonstrated;

(3) The fact that similar benefits and use on the part of the person or persons to whom the product is demonstrated may not be realized by reason of difference of place of amputation, condition of stump, age, occupation, health, agility, strength, or inability or disposition to accustom himself or herself to, and become skillful in the use of, such device; and

(4) The fact that the demonstrator is in the employ of seller, or has an interest in effecting a sale of the product, or is otherwise not wholly disinterested in the promotion of the sale of such product. [Rule 6]

§ 165.7 *Misuse of terms "Custom Made," "Custom Built," "Tailored," Etc.* In the sale, offering for sale, or distribution of industry products, it is an unfair trade practice for a member of the industry to use the terms "custom made," "custom built," "tailored," or any other word or term of similar import, as descriptive of any prosthetic device when such device is not one that has been or will be made, aligned, sized, and fitted to the individual needs and specifications of a consumer-purchaser as distinguished from a product which is a ready-made or stock prosthetic device. [Rule 7]

§ 165.8 *Guarantees, warranties, etc.* (a) Guarantees which afford purchasers or users substantial and adequate protection, and are fully and fairly stated or disclosed and scrupulously adhered to by the guarantor, are desirable and recommended. It is an unfair trade practice to use or cause to be used any guarantee which is false, misleading, deceptive, or unfair to the purchasing or consuming public.

(b) Under this rule guarantees of the following type or character shall not be used:

(1) Guarantees containing statements, promises, representations, or assertions which have the capacity and tendency or effect of misleading and deceiving as to quality, physiological changes, fit, comfort, or utility under use; or

(2) Guarantees which are so used or are of such form, text, or character as to import, imply, or represent that the guarantee is broader than is in fact true, or that the guarantee covers the entire product or certain parts thereof which are not in fact covered, or will afford more protection to purchasers or users than is in fact true; or

(3) Guarantees in which any condition, qualification, or contingency applied by the guarantor thereto is not fully and nondeceptively stated herein, or is stated in such manner or form as to be deceptively minimized, obscured, or concealed, wholly or in part; or

(4) Guarantees which are stated, phrased, or set forth in such manner that although the statements contained therein are literally and technically true, the whole is misleading in that purchasers or users are not made sufficiently aware of certain contingencies or conditions which are applicable to such guarantees and materially lessen the value thereof as a guarantee to purchasers or users; or

(5) Guarantees which purportedly extend for such indefinite or unlimited period of time or for such long period of years as to have the capacity and tendency or effect of thereby misleading or deceiving purchasers or users into the belief that the product has or is definitely known to have greater degree of serviceability, utility, comfort, or durability in actual use than is in fact true; or

(6) Purported guarantees in the form of documents, promises, representations, or other form which are represented or held out to be guarantees when they are not such in fact, or when they are service contracts of the type which are not guarantees, or when they involve any deceptive or misleading use of the word "Guarantee" or term of similar import; or

(7) Guarantees issued, or directly or indirectly caused to be used, by any member of the industry when or under which the guarantor fails or refuses to scrupulously observe his obligations thereunder or fails or refuses to make good on claims coming reasonably within the terms of the guarantee; or

(8) Guarantees which in themselves or in the manner of their use are otherwise false, misleading, or deceptive.

(c) This section shall be applicable not only to guarantees but also to warranties, to purported warranties and guarantees, and to any promise or representation in the nature of or purporting to be a guarantee or warranty. [Rule 8]

§ 165.9 *Misrepresenting products as conforming to standard.* Representing, through advertisement or otherwise, that any products of the industry conform to a standard recognized in or applicable to the industry when such is not the fact, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice. [Rule 9]

§ 165.10 *Deception as to rebuilt or second-hand products.* (a) It is an unfair trade practice for any member of the industry to sell, offer for sale, advertise, or otherwise represent, any product of the industry as being new when such is not the fact.

(b) In the marketing of rebuilt or second-hand products of the industry, or parts thereof, or the marketing of products containing rebuilt or second-hand parts, it is an unfair trade practice to fail or refuse to make full and nondeceptive disclosure, by mark, tag, or label, or other writing supplied purchaser, of the fact that such product or parts are not new but are used, rebuilt, or second-hand, as the case may be, such failure or refusal to disclose having the capacity or tendency or effect of misleading or deceiving the purchasing or consuming public. [Rule 10]

§ 165.11 *Substitution of products.* The practice of shipping or delivering products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without the consent of the purchasers to such substitutions, or with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice. [Rule 11]

§ 165.12 *False invoicing.* It is an unfair trade practice to withhold from or insert in invoices any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, with the effect of thereby misleading or deceiving the purchasing or consuming public. [Rule 12]

§ 165.13 *Misrepresentation as to installment sales contracts, their terms, conditions, etc.:* It is an unfair trade practice to make or publish, or cause to be made or published, directly or indirectly, any false, misleading, or deceptive statement or representation, through advertising or otherwise, concerning installment sales contracts used or their terms and conditions, including down payments, interest, carrying charges, etc., or respecting any other matters relative to such contracts or their terms and conditions. [Rule 13]

§ 165.14 *Misrepresentation as to character of business:* It is an unfair trade practice for any concern, in the course of or in connection with the distribution of industry products, to represent, directly, or indirectly, that it is a manufacturer of industry products, or that it owns or controls a factory making such products, when such is not the fact, or in any other manner to misrepresent the character, extent, or type of its business. [Rule 14]

§ 615.15 *Deception through failure to differentiate between wholesale and retail transactions:* It is an unfair trade practice for any member of the industry to represent or imply that any of his sales are at wholesale or at wholesale price, when such is not the fact. When sales at wholesale and at retail are made in the same establishment, such differentiation between the two types of transactions should be made as is necessary to prevent misunderstanding or deception of purchasers. [Rule 15]

§ 165.16 *Defamation of competitors or disparagemcnt of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of competitors' products in any respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 16]

§ 165.17 *Procurement of competitors' confidential information by unfair means and wrongful use thereof.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of any employee or agent of such competitor, by false or misleading statements or representations, by the impersonatfon of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 17]

§ 165.18 *Unfair threats of infringement suits.* The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of thereby harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring, or prejudicing competitors in their business, is an unfair trade practice. [Rule 18]

§ 165.19 *Deceptive use of trade or corporate names, trade-marks, etc.* The use of any trade name, corporate name, trade-mark, or other trade designation which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the character, name, nature, or origin of any product of the industry, or any material used therein, or which is false or misleading in any other respect, is an unfair trade practice. [Rule 19]

§ 165.20 *Misuse of the word "free," etc.* It is an unfair trade practice for any member of the industry to use the term "free," or any other term or representation of similar import or meaning, to describe, designate, or refer to any industry product which is not given to the recipient thereof without cost and unconditionally. [Rule 20]

§ 165.21 *Coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice. [Rule 21]

§ 165.22 *Fictitious prices.* It is an unfair trade practice to sell or offer for sale industry products at prices purported to be reduced from what are in fact fictitious prices, or to sell or offer for sale such products at a purported reduction in price when such purported reduction is in fact fictitious or is otherwise misleading or deceptive. [Rule 22]

§ 165.23 *Inducing breach of contract.* It is an unfair trade practice to induce or attempt to induce the breach of existing lawful contracts between competitors and their customers, or their suppliers, by any false or deceptive means whatsoever, or wilfully to interfere with or obstruct the performance of any such contractual duties or services by any such means, with the purpose or effect of unduly hampering, injuring or prejudicing competitors in their business. [Rule 23]

§ 165.24 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry wilfully to entice away employees of competitors with the purpose or effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition. [Rule 24]

§ 165.25 *Combination or concern to fix prices, suppress competition, or restrain trade.* It is an unfair trade practice for a member of the industry or any other person:

(a) To use, directly or indirectly, any form of threat, intimidation, or coercion against any member of the industry or other person to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade.

(b) To enter into or take part in, directly, or indirectly, any agreement, understanding, combination, conspiracy, or concerted action with one or more members of the industry, or with one or more other persons, to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade. [Rule 25]

§ 165.26 *Discrimination*—(a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[1] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce[1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (i) the market for the goods concerned, or (ii) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for, or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Purchases by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit.* The foregoing provisions of this section relate to practices within the purview of the Robinson-Patman Antidiscrimination Act, which Act and the application thereunder of this section are subject to the limitations expressed in the amendment to such Robinson-Patman Antidiscrimination Act, which amendment was approved May 26, 1938, and reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That nothing in the Act approved June 19, 1936 (Public, Numbered 692, Seventy-fourth Congress, second session), known as the Robinson-Patman Antidiscrimination, Act, shall apply to purchases of their supplies for their own use by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit." 52 Stat. 446; United States Code, 1940 Edition, Title 15, Sec. 13c.)

(g) *Purchases by U. S. Government; applicability of Robinson-Patman Antidiscrimination Act to same.* In an opinion submitted to the Secretary of War under date of December 28, 1936, the U. S. Attorney-General advised that the Robinson-Patman Antidiscrimination Act "is not applicable to Government contracts for supplies." (39 Opinions, Attorney-General 539) [Rule 26]

§ 165.27 *Aiding or abetting use of unfair trade practices.*

It is an unfair trade practice for any person to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in this part. [Rule 27]

[1] As here used, the word "commerce" means trade or commerce among the several States and Territories, including the District of Columbia, in accordance with the full scope of the definition of such term found in section 1 of the Clayton Act (38 Stat. 730; 15 USCA, Sec. 12.)

Group II

Compliance with trade practice provisions embraced in Group II rules is considered to be conducive to sound business methods and is to be encouraged and promoted individually or through voluntary cooperation exercised in accordance with existing law. Nonobservance of such rules does not per se constitute violation of law. Where, however, the practice of not complying with any such Group II rules is followed in such manner as to result in unfair methods of competition, or unfair or deceptive acts or practices, corrective proceedings may be instituted by the Commission as in the case of violation of Group I rules.

RULE A. *Disapproval of solicitation when benefits unlikely.* The industry condemns the practice of soliciting or promoting the sale of any of its products to persons who by reason of their physical state, age, or infirmity, cannot be expected to obtain reasonable use and benefit from such products. This rule shall not be regarded as preventing the purchase of an industry product by any person who requests such a device, notwithstanding such person may not thereby obtain a reasonable degree of use and benefit therefrom.

RULE B. *Cooperation with doctors.* The industry fully realizes that the interest of amputees is best promoted by the cooperation of the doctor and industry member with respect to the site of amputation and the type and fitting of industry products, and as to the appropriate time for consideration by the patient of the purchase of a prosthetic device. The industry pledges its members to give every assistance and advice to doctors prior to and after the amputation that the amputee may have the optimum of benefit from the industry product which he may later purchase and use, whether or not such industry member sells, or has opportunity to solicit the purchase of, his products; and to do everything possible to promote mutual trust and confidence between the industry and members of the medical profession.

RULE C. *Importance of personal fitting.* The industry disapproves of the practice of undertaking to supply an artificial limb that will fit an amputee by mail-order specifications and without personal fitting thereof, as it believes that satisfactory and proper fit cannot be attained except by personal fitting. This rule shall not be construed as prohibiting sale of artificial limbs by mail order without personal fitting when no misrepresentation is made, directly or by implication, as to fit.

RULE D. *Minimizing importance of "fit" by exploitation of less important features.* It is the consensus of the industry that proper fit and alignment are of vital importance with respect to the satisfactory use of its products by amputees and should not be minimized by the undue exploitation of other aspects or features of less importance.

RULE E. *Sharing of improved techniques.* Believing that the interest of amputees is its first concern, the industry favors the making available to all of its members and the general public any improved technique that may be used or developed by any of its members in respect to the making, fitting, aligning, or servicing of industry products. Further, the industry desires to be an active and cooperative factor in all progressive developments of improved techniques that will contribute to the welfare and comfort of all amputees.

Promulgated and issued by the Federal Trade Commission April 16, 1946.

Secretary.

Chapter VI—National Wage Stabilization Board

[General Wage Approval 7]

PART 805—GENERAL WAGE APPROVALS

ELECTRICAL INDUSTRY

§ 805.7 *General wage approval for the electrical industry.* This section is issued pursuant to section 3 (a) of Executive Order 9697 dated February 14, 1946, and sections 303 and 308 (a) of the Supplementary Wage and Salary Regulations of the Office of Economic Stabilization, dated March 8, 1946.

(a) Any wage or salary increase granted to employees within the jurisdiction of the National Wage Stabilization Board who are employed in a plant coming within the definition of paragraph (b) (1) of this section shall be deemed approved within the meaning of section 3 (a) of Executive Order 9697 to the extent that such increase does not exceed 18½ cents per hour over and above the straight-time rates paid on August 17, 1945.

(b) This section shall apply only to wage or salary increases to employees in plants:

(1) Which are engaged primarily in manufacturing one or more of the following items: radios, radio tubes, phonographs; telephone and telegraph equipment and electric signalling apparatus; electrical refrigerators and refrigeration machinery, including compressors, evaporators, condensors and other related mechanical devices essential to electrical refrigeration; complete electrical air-conditioning units; household electrical appliances, including heating, cooking, cooling, cleaning and laundry equipment; lighting fixtures; wiring devices and supplies; carbon and artificial graphite products for the electrical industry; electrical measuring instruments; electrical prime movers and other electric power equipment (including motors, generators, steam turbine generator sets, transformers, switchboards, panel-boards, and other transmission accessories) for employment in the generation, transmission or utilization of electric energy; wire and cable for the transmission of electrical energy; automotive electrical equipment; electric lamps; storage and primary batteries (wet and dry); or electrotherapeutic and electromedical apparatus; and

(2) In which general wage or salary rate increases, which in the aggregate were not less than 13 cents per hour and not more than 18 cents per hour, were granted during the period between January 1, 1941 and August 17, 1945.

(c) An employer who seeks an adjustment in the price ceiling for his product based upon the wage or salary adjustments herein approved shall indicate to the Office of Price Administration in any price relief application that the adjustments have been made or agreed upon pursuant to this section, and shall set out the wage rate in formation called for by paragraph (b) (2) of this section.

(d) In accordance with sections 201 and 202 of the Supplementary Wage and Salary Regulations of the Office of Economic Stabilization, issued March 8, 1945, any increase in a plant in the electrical industry not covered by the terms of this section requires the prior approval of the Board or the filing of a notice with the appropriate Regional Wage Stabilization Board if the employer is not to be deemed to have waived, during the continuation of the stabilization laws, the right to use such increase as a basis for seeking price relief or for increasing costs to the Government. The terms of this preapproval shall not constitute any standard for the approvability of wage or salary increases to employees in any plant not satisfying the conditions set forth in paragraphs (b) (1) and (2) of this section. This preapproval shall have effect only where a wage or salary adjustment has been finally determined or agreed upon by the party or parties involved.

(e) On request of any employer or collective bargaining representative involved, accompanied by pertinent factual information, the National Wage Stabilization Board will issue rulings as to whether any specified plant or plants come within the terms of paragraph (b) (1) and (2) of this section. Where there is a collective bargain representative involved, a copy of the request from either party for a ruling under this section must be served upon the other party, and the request shall indicate such service.

Approved by the National Wage Stabilization Board, April 11, 1946.

B. M. JOFFE,
Executive Director.

ARDMORE BLOUSES, INC.

Ardmore Blouses, Inc., a corporation, located at 135 West 36th Street, New York City, is engaged in the manufacture of women's blouses. During the fourth quarter of 1945, the corporation placed orders bearing CC ratings for 31,500 yards of rayon fabric, although it was authorized to place such rated orders for only 21,794 yards of rayon fabric, in violation of Priorities Regulation No. 3. In addition, the corporation actually received 28,797 yards of rayon fabric in the fourth quarter of 1945 pursuant to the orders bearing CC ratings which it placed. In addition, the corporation placed orders bearing CC ratings for 3,000 yards of cotton fabric and received 3,021 yards of cotton fabric on such orders during the fourth quarter of 1945, although it was not authorized to use CC ratings for such purpose, in violation of Priorities Regulation No. 3. The placing of these rated orders for rayon and cotton fabrics in excess of the amount authorized and the receipt of rayon and cotton fabrics in excess of the amount authorized constituted wilful violations of Priorities Regulation No. 3. In view of the foregoing, it is hereby ordered, that:

§ 1010.932 *Suspension Order No. S-932.* (a) Unless otherwise authorized in writing by the Civilian Production Administration, during the second quarter of 1946, Ardmore Blouses, Inc., shall reduce the amount of rayon fabrics for which it may be authorized to extend ratings during the second quarter of 1946, under Order M-328-B by 5,000 yards.

(b) Unless otherwise authorized in writing by the Civilian Production Administration, during the third quarter of 1946, Ardmore Blouses, Inc., shall reduce the amount of rayon fabrics for which it may be authorized to extend ratings during the third quarter of 1946 under Order M-328-B by 5,000 yards.

(c) Nothing contained in this order shall be deemed to relieve Ardmore Blouses, Inc., from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration except insofar as the same may be inconsistent with the provisions hereof.

(d) The restrictions and prohibitions contained herein shall apply to Ardmore Blouses, Inc., its successors and assigns or persons acting on its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(e) Ardmore Blouses, Inc., shall refer to this order in any application or appeal which it may file with the Civilian Production Administration during the second and third quarters of 1946.

PART 1305—ADMINISTRATION

[SO 108,[2] Amdt. 11]

MANUFACTURERS' MAXIMUM AVERAGE PRICES FOR CERTAIN ITEMS OF APPAREL AND APPAREL ACCESSORIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 108 is amended in the following respects:

1. Section 12 (b) (1) is amended to read as follows:

(1) *Quarterly reports.* Within 20 days after the end of each calendar quarter, you must file with your OPA District Office two copies of a report in the form prescribed on OPA Form 6062-2773 (signed by an owner, officer, or principal) covering all categories which you delivered during the quarter. This report shall contain the following:

(i) Your business name and the address of your main office from which billings are made;

(ii) The beginning and end dates of the period covered by the report;

(iii) For each category you delivered during the period:

(*a*) Category number and title;

(*b*) Maximum average price. This means your authorized or base period maximum average price applicable to the quarter covered by this report, as revised or recomputed under any provision of SO 108 or any Special Order except Special Orders 3 and 5. If you are using either the tolerance in Special Order 5 or the exemption level adjustment in Special Order 3, state also the increased maximum average price as figured under the appropriate provision.

NOTE: The tolerances may be used only for categories whose maximum average price is based on a 1943 base period and may not be used to compute a credit.

(*c*) Total net dollar amount charged;

(*d*) Total number of units delivered (specifying whether dozens, gross, etc.);

(*e*) Weighted average price;

(*f*) Dollar amount of credit or surcharge, if any;

(iv) Dollar amount of surcharge for all categories combined, if any;

(v) Dollar amount of credit for all categories combined, if any;

(vi) Dollar amount of net credit, if any, from previous quarter;

(vii) Net surcharge ((iv) minus the sum of (v) and (vi)) or net credit (the sum of (v) and (vi) minus (iv)), if any;

(viii) Category number and title of each category listed in your maximum average price chart or OPA order of authorization which was not delivered during the quarter;

(ix) If you have a net surcharge, state what makeup basis you will use, if any of this net surcharge is not made up by the 30th day after the end of the quarter reported. This statement constitutes an election to operate under the provision chosen until this surcharge is made up.

However, the quarterly report for the 1st quarter of 1946 may be filed on or before April 30, 1946, instead of 20 days after the end of that quarter.

Deliveries made while operating on a makeup basis shall not be included in the above report.

2. Section 12 (b) (2) (i) is amended to read as follows:

(i) If you have been operating on the makeup basis described in section 7 (a) you must file with your OPA District Office two copies of a report in the form prescribed on OPA Form 6062-2774 (signed by an owner, officer, or principal) covering your makeup operation within 10 days after you complete your makeup operation.

If you do not make up your net surcharge during the calendar quarter after the quarter in which it was incurred, you must file this report instead of the quarterly report for that quarter, and for each succeeding quarter in which you operate wholly on a makeup basis. In addition, you must file a final report of that portion of your makeup operation not previously reported within 10 days after the day on which you completely make up your net surcharge. Each makeup report shall state that you are operating under section 7 (a) and shall contain the following information:

(*a*) Your business name and the address of your main office from which billings are made;

(*b*) The beginning and end dates of the period covered by the report;

(*c*) For each category you delivered during th period:

(*i*) Category number and title;

(*ii*) Maximum average price.

This means your authorized or base period maximum average price, applicable to the quarter in which the period covered by this report falls, as revised or recomputed under any provision of SO 108 or any Special Order except Special Orders 3 and 5. If you are using either the tolerance in Special Order 5 or the exemption level adjustment in Special Order 3, state also the increased maximum average price as figured under the appropriate provision.

NOTE: The tolerances may be used only for categories whose maximum average price is based on a 1943 base period and may be used for all purposes during the makeup period.

(*iii*) Total net dollar amount charged;

(*iv*) Total number of units delivered (specifying whether dozens, gross, etc.);

The three sample reports above show how you must arrange your own quarterly reports and your makeup report for a makeup operation under section 7 (a). The first report shown is for the first quarter of operation and therefore would be filed within 20 days after the end of the quarter. This report shows that in category A–10 the reporting company's weighted average price was more than its maximum average price plus tolerance for the period and therefore a surcharge has to be computed and reported. In Category A–26 the company earned a credit because its weighted average price was lower than its maximum average price as adjusted under Special Order 3 in that category. In category A–18 the weighted average price was higher than the original maximum average price but within the increase permitted by the tolerance so the company had neither a surcharge nor a credit in that category. Therefore, the credit earned was subtracted form the surcharge leaving a net surcharge to be made up of $900.00.

The second and third sample reports show that the reporting company made up its net surcharge during the fourth calendar quarter of 1945, that is, the quarter following the one in which it was incurred; therefore, the second report would be filed within 10 days after the company completed its makeup and the third report shown would be filed within 20 days after the end of the fourth quarter. The end date specified in the makeup report indicates that the company made up the net surcharge incurred in the previous quarter by October 25, at which time it ceased to operate on a makeup basis. The figures shown in the makeup report indicate that the company made up a portion of the net surcharge in each of the categories delivered during the makeup period.

Since the company was on a makeup basis, the amount of surcharge made up in each category delivered could be figured by deducting the weighted average price from the maximum average price increased by the amount of tolerance for each category and then multiplying the difference by the number of units delivered. The quarterly report covering the remainder of the fourth quarter when the company was not a makeup basis shows that a credit was earned in category A–26 in that quarter and no surcharges were incurred. Therefore, the company had a net credit for that quarter.

The sample report shown below illustrates a makeup report for January 1946 prepared by a manufacturer who sells only Category A–1 and who chose to operate under the makeup provision of section 7 (b). Assume that this manufacturer incurred a net surcharge during the third quarter of 1945 of $2,000. For the period October 1 through November 30 his weighted average price was 10¢ above his maximum average price and he delivered 10,000 units. During December he made up 5¢ per unit on deliveries of 4,000 units. Therefore, his net accumulated surcharge by January 1, 1946 was $2,800 ($2,000 plus $1,000 minus $200). His total net dollar amount charged during the period October 1 through December 31 was $28,000. Therefore, under section 7 (b) (1), his maximum average price must be reduced by 10% until he makes up his net accumulated surcharge ($2,800 divided by $28,000). The entries in his report show that his original maximum average price applicable in January 1946 was $11.73 and his increased maximum average price was $12.90 after adding tolerance under Special Order 5. Therefore, his reduced maximum average price became $11.61 (10% of $12.90 equals $1.29; $12.90 minus $1.29 equals $11.61). During January 1946 in the only category delivered, his total net dollar amount charged was $9,000. His total number of units delivered was 779. Since his maximum average price before reduction multiplied by 779 equals $10,049.10, he made up $1,049.10 of his net accumulated surcharge during the month $10,049.10 minus $9,000). His net accumulated surcharge remaining to be made up was $1,750.90 ($2,800 minus $1,049.10). Also, since his reduced maximum average price multiplied by 779 equals $9,044.19 and his total net dollar amount charged was $9,000, his total charge did not exceed the total amount he was permitted to charge under section 7 (b).

8. Section 21 (a) (1) (ii) is amended to read as follows:

(ii) During one or more of your base periods 50% or more of your deliveries (in dollars) of commodities of the same description as the items in any category were made pursuant to contracts or subcontracts with war procurement agencies. (In calculating your total deliveries pursuant to such contracts you may figure as your dollar amount charged for items for which the war procurement agency supplied you with materials an amount equal to your charge for your services plus the cost of the materials.)

9. Section 21 (a) (1) (iv) is amended to read as follows:

(iv) During or since your base period but prior to June 1, 1945, you lost by destruction, sold or otherwise transferred (and have not replaced) part of your production facilities and these facilities had been devoted to the production of items at prices lower than your maximum average price.

12. Section 21 (a) (2) (iii) is amended to read as follows:

(iii) You cannot because of your present facilities operate your business without incurring a net surcharge even if you deliver all items in the category at your total cost for such items. This situation shall be considered a hardship only if the circumstances described in (1) (iv) or (1) (v) above are alleged as the ground for application.

13. Section 21 (c) (1) (ii) is amended to read as follows:

PART 1377—WOODEN CONTAINERS

[RMPR 186, Amdt. 15]

WESTERN WOODEN AGRICULTURAL CONTAINERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 186 is amended in the following respects:

1. In § 1377.102, paragraph (a) is amended to read as follows:

(a) *Products covered by the regulation.* This regulation, under the term "Western wooden agricultural containers," covers: All sawn shook agricultural containers and veneer covers for such containers produced in the "western area," which means the states of California, Washington, Oregon, Idaho, Montana, Wyoming, Utah, Nevada, Arizona, New Mexico, and the county of Montezuma in Colorado. The term "agricultural container" means any assembled or unassembled box, crate, case, tray, lug, carrier, or similar container made principally of wood, and customarily used for handling, packaging, shipping, or storing fruits and vegetables (whether fresh, dried or canned). It includes any constituent wooden part (shook) of the kind of containers mentioned, if it is ready to be assembled into the container, and also includes bracing only when used in shipping western wooden agricultural containers covered by this regulation or metal agricultural containers and all species of car strips. It also includes agricultural containers specifically listed in Table 2 which are made of veneer.

This regulation does not cover army ration boxes, cooperage products or parts, used containers, or wirebound boxes or parts.

2. In § 1377.110, that part of paragraph (c) which precedes Table 2 is amended to read as follows:

(c) *Maximum prices for shook used in Western wooden agricultural containers.* The maximum prices for 1000 feet of shook used in Western wooden agricultural containers are those set out in Table

2; except that, until and including May 31, 1946, the maximum prices for 1000 feet of shook used in Western wooden agricultural containers are those set out in Table 2A, notwithstanding any other provision of this regulation.

PART 1305—ADMINISTRATION

[Rev. SO 145]

WHOLESALERS' AND RETAILERS' "EXPENSE RATE" ADJUSTMENTS

Supplementary Order 145 is redesignated Revised Supplementary Order No. 145 and is revised and amended to read as follows:

A statement of the considerations involved in the issuance of this order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

§ 1305.173 *Wholesalers' and retailers' "expense rate" adjustments*—(a) *What this order does.* Under this order a wholesaler or a retailer pricing under certain regulations may, if he wishes, adjust his ceiling price (subject to the qualificatons stated in paragraph (b)) whenever increases in his supplier's ceiling prices would compel him to sell below his expense rate or would further reduce his markups where he is already selling below his expense rate.

(b) *When an adjustment is permitted, and how to figure it.* (1) If you are a retailer or a wholesaler and your ceiling price is established under the General Maximum Price Regulation. Maximum Price Regulation 210. Maximum Price Regulation 580, or Maximum Price Regulation 590, for an article for which your supplier's ceiling price has been increased, you may adjust your ceiling price of that article so that it equals the

sum of the net cost of the article including inbound freight and the expenses of your business which are allocable to that article; except that in no case may you increase your ceiling price by an amount greater than the amount found when you multiply your ceiling price by the percentage by which your supplier's ceiling price has been increased. In no case, however, does this order apply where the OPA has fixed the same dollar-and-cents ceiling price for all of the sellers of a class or geographical area or where a retail ceiling price has been required by the OPA to be preticketed. This order may not be used to adjust ceiling prices (under any regulation including those listed above) of food, grain, cereals, seeds, feeds, tobacco, tobacco products, agricultural chemicals, insecticides, beverages, masonry and insulation materials, refractory products, tarred and asphalt roofing, mechanical building equipment, builders' hardware, lumber, millwork, pulp, paper, and paperboard products.

(2) You are not permitted to offer, sell or deliver an article at the adjusted price allowed by this order unless:

(i) You have received and have available for inspection by OPA either a written notice from your supplier which states his unadjusted ceiling price for the article, his adjusted ceiling price and the difference between that unadjusted and adjusted ceiling price or an invoice from which this information can be obtained. Where your supplier has been specially directed as to the manner in which he shall state his unadjusted ceiling price to you, his unadjusted price shall be the unadjusted price properly stated to you in accordance with that direction.

(ii) You have prepared and have available for inspection by OPA the records required by paragraph (e).

(3) You find your adjusted price by following the procedure in steps 1, 2, and 3 below:

(i) *Step 1.* You first find your "expense rate." (Your expense rate is your expense of operating the department or business in which the article you are pricing is sold, expressed as a percentage of your net sales for that department or business. You must figure your "expense rate" strictly in accordance with paragraph (c).)

(ii) *Step 2.* You then find a selling price for the article you are pricing which will return to you a percentage margin on selling price over net landed cost equal to your expense rate. You do this by subtracting your expense rate from 100% and by dividing the result into the "net landed cost" of the article. ("Net landed cost" is the actual cost stated on your invoice, less all available discounts and including inbound freight.)

For instance: If you are pricing an article having a gross cost of $2.00 and you buy at terms of 5/10 E. O. M., your net cost would be $1.90. If the inbound freight for the article was $.03 your "net landed cost" would be $1.93. If your expense rate, calculated in accordance with paragraph (c) is 30%, the amount you would arrive at under this step ($2.76) is figured by dividing $1.93 by .70 (100% minus 30%).

(iii) *Step 3.* If your ceiling price determined under regulation now applicable is the same as or higher than the amount found in Step 2, this order does not change that ceiling price. However, if that ceiling price is less than the amount found in Step 2, and if you wish to adjust your ceiling price under this order, you must take as your adjusted price the lower of

(*a*) The amount found in Step 2, or

(*b*) Your ceiling price (figured under the regulation applicable before your supplier's adjustment) plus an amount sufficient to give you the same markup you had before your supplier's adjustment. You find the amount to be added by determining from your supplier's notice to you the percentage by which his price was increased and by multiplying your ceiling price by that percentage.

For instance: If your supplier's notice states his old ceiling price to be $1.00 and the amount of the adjustment to be $.10, you would determine that his price had been increased 10%. Accordingly, you would add to your ceiling price 10% thereof.

(c) *How you arrive at your "expense rate."* (1) As stated above, your "expense rate" is your expense of operating the department or business in which the article you are pricing is sold, expressed as a percentage of your total net sales.

If you have books and records which will enable you to figure your "expense rate" for the department in which the article you are pricing is sold, the expense rate which you are to use must be for that department. If your books and records do not enable you to figure the expense rate this way, you may, if you have sufficient books and records, use the expense rate of your entire business. Note carefully that you may not include any items permitted by subparagraph (2) which are involved in the conduct of your business unless you have books and records from which you can accurately determine them.

(2) You arrive at your expense rate for your business (or department, if you are required to use the department for this purpose) by taking the following steps:

(i) Find your total net sales for your most recent fiscal year.

(ii) Also for your most recent fiscal year, list the amount of each expense item listed in Appendix A if you incur such an item of expense. If you have a definite item of expense which is not listed in Appendix A, you may add that to the list. In no case may you list any expense item unless by your books and records you can support the amount of expense listed for that item. Where you have any of the items included in Appendix A, you are not permitted to lump them but must separately state each expense item you had.

(iii) Add up the amounts of your expense items which you listed in accordance with (ii) and divide the sum by the total net sales figure which you found in (i). The result is your expense rate.

(d) *Recalculation of expense rate.* You must recalculate your expense rate anew within 90 days following the end of each of your fiscal years.

(e) *Records and filing.* You may not offer, sell or deliver an article at an adjusted ceiling price found under this section unless the following requirements are met for the unit (department or store, as the case may be) in which the article is offered:

(1) (i) You have filed with the District Office having jurisdiction over your place of business a letter stating:

(*a*) Your name and address;

(*b*) The fiscal year for which you computed your expense rate;

(c) The expense rate you have computed, stating the department to which the expense rate applies, or that it applies for the business as a whole, if that is the case.

(ii) You have received from the District Office an acknowledgment of the letter filed under subdivision (i). (This acknowledgment witnesses receipt of the filing but does not express any determination as to the accuracy or validity of the filing.)

(iii) You have, when a recomputation is required by paragraph (d), filed with the District Office a letter stating the recomputed expense rate, and have received an acknowledgment therefor.

(2) You have and maintain at all times for inspection by OPA the following records:

(i) All records, books of account and other documents kept in the regular course of business from which you have computed your expense rate.

(ii) A record showing exactly how you computed your expense rate; showing each item of allowable expense listed in Appendix A and listing the elements of which each item is composed; showing the fiscal year used by you in making your computation; showing whether you used your business as a whole or a particular department; and showing the total net sales for the period used.

(iii) Your supplier's notification containing the information which you are required to have under paragraph (a) (2) (i).

(iv) A copy of the letter which you are required to file under subparagraph (1) (i) and the acknowledgment thereof received from your OPA District Office. If you price under an MPR 580 or MPR 590 chart, you must attach the letter and acknowledgment to your chart.

APPENDIX A

The items of expense which you may include in computing your expense rate are the following: [2]

Item 1. *Officer's or proprietor's compensation.*[3] Partnerships and proprietorships whose owners did not make regular withdrawals for management salaries may set up a reasonable amount, based on actual services performed and time expended in the management of the business, and may include this amount in operating expense.

Item 2. *Salaries and wages including commissions,*[4] (other than officer's or proprietor's) such as buyers, salesmen, clerical, office and stockmen; receiving, packing, shipping force, janitorial, and elevator operator.

Item 3. *Traveling expense* [5] (Officers; salesmen, buyers, or other).

Item 4. *General expense,*[6] including such elements as postage; telephone; telegraph; office supplies; stationery; dues; subscriptions; donations; collection expense; advertising expense; professional services such as legal and auditing; prepaid freight, prepaid express, and parcel post on outgoing shipments; heat, light, power and water; building and equipment repairs and supplies; packing and shipping supplies; and insurance (including life or health or pension fund payments for the direct benefit of employees but excluding officers and owners), fidelity and liability insurance, insurance on merchandise, insurance on automobiles, on delivery equipment, on buildings, and on other equipment.

NOTE: Payments for credit insurance may only be included if there is no separately stated carrying charge for credit. Interest payments on a mortgage or on borrowed money may not be included. Bad debt losses will be allowed to the extent not compensated for by insurance or carrying charges.

Item 5. *Taxes* [7]—may include all taxes except income taxes, excess profits taxes, capital gains taxes, capital stock taxes, and certain excise taxes. Excise taxes may not be included if they are separately stated and collected, but if the tax is included in the sale price it may also be included here.

Item 6. *Depreciation* [8]—on building, furniture, fixtures, automobiles and trunks, and delivery equipment. For the purposes of this order depreciation shall be computed at rates not in excess of those allowed by federal tax regulations.

Item 7. *Rent*—only rent actually paid. If the rent includes heat, light, water, or power, such items may not be included under General expense.

This revised supplementary order shall become effective April 20, 1946.

NOTE: The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 15th day of April 1946.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 364,[1] Amdt. 35]

FROZEN FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 364 is amended in the following respects:

1. Section 1 (a) is amended by deleting the last two sentences in the first paragraph.

2. Section 2 (e) is added to read as follows:

(e) *Sales to ultimate consumers.* The maximum price for a processor's sale at retail of frozen fish or seafood is the applicable listed base price in section 13, plus any transportation cost allowable under section 4 plus the markup over the total thus obtained provided by RMPR No. 507 for group 3 and group 4 retail stores. A sale at retail is a sale to an ultimate consumer other than a commercial, industrial or institutional user.

3. Section 3 (d) (7) is added to read as follows:

(7) *Sales at retail.* A sale at retail covered by this section is a sale to an ultimate consumer other than a commercial, industrial or institutional user by a person who buys frozen fish for resale and sells 50% or more of it to persons other than ultimate consumers. The markup for such a sale at retail is the appropriate markup provided by RMPR No. 507 for group 3 and group 4 retail stores. (The maximum price for sale to an ultimate consumer by a person who buys frozen fish and resells more than 50% of it to ultimate consumers is fixed by RMPR No. 507.)

4. Section 4 (d) is added to read as follows:

(d) *Air transportation.* Where frozen fish or seafood is shipped by air the transportation allowance which may be added pursuant to section 4 shall not exceed the common carrier truck or rail rate, whichever is higher, to the receiving point from the shipping point or (if no common carrier rate is available between those two points) from the place nearest to the shipping point from which a common carrier rate is available.

This amendment shall become effective April 20, 1946.

Issued this 15th day of April 1946.

PART 1499—COMMODITIES AND SERVICES

[MPR 188, Amdt. 78]

MANUFACTURERS' MAXIMUM PRICES FOR CONSUMER GOODS OTHER THAN APPAREL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 188 is amended in the following respects:

1. Section 1499.159 (b) is redesignated as § 1499.159 (c).

2. A new § 1499.159 (b) is added to read as follows:

(b) A manufacturer who desires to change any of his terms, discounts, price differentials or conditions of sale in effect in March 1942, or thereafter properly established under the applicable regulation, shall apply to the Office of Price Administration, Washington, D. C., setting forth in detail the proposed change and the reasons therefor. The Price Administrator may grant permission to the manufacturer to make the proposed changes when, in his opinion, the manufacturer has demonstrated that the general level of his maximum prices to each class of purchaser will not be raised thereby, and that the granting of such permission will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. No manufacturer may, prior to the issuance of an order by the Office of Price Administration authorizing such change, change his established terms, discounts, allowances, price differentials, or conditions of sale. Nothing in this section shall be construed as forbidding a manufacturer from selling below the established ceiling prices.

This amendment shall become effective on April 29, 1946.

NOTE: The record keeping and reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 15th day of April 1946.

Administrator.

PART 1499—COMMODITIES AND SERVICES

[SR 14E,[1] Amdt. 33]

SALES AT WHOLESALE OF CERTAIN COTTON PRODUCTS AND CERTAIN MANUFACTURED ARTICLES

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (m) of section 2.7 of Supplementary Regulation 14E is amended to read as follows:

(m) *Maximum prices for cotton bedspreads and napery.* (1) This paragraph applies to all sales at wholesale of cotton bedspreads, table cloths, table napkins and table cloth fabric for which the producer's maximum price is established under Maximum Price Regulation 118.

(i) The maximum price for a sale at wholesale (other than a sale by an "institutional wholesaler" to an institutional, industrial or commercial user or sales by a jobber to a person who fabricates from the article sold) of the articles described in paragraph (1) shall be the sum of the seller's "unadjusted price" and his "OPA adjustment charge" defined below.

(*a*) *The wholesaler's "unadjusted price"* is his maximum price computed in accordance with the General Maximum Price Regulation: *Provided,* That it may include in addition thereto an amount computed by taking 122% of any amount by which his supplier's maximum price established under Maximum Price Regulation 118 was increased by more than 20%.

(*b*) *The wholesaler's "OPA adjustment charge"* is 70% of that part of his supplier's increase which does not exceed 20% of his supplier's maximum price established under Maximum Price Regulation 118.

Example: X, a wholesaler, buys table cloths at $1.18 net, including freight, his supplier's present ceiling. He has secured a notice from his supplier which shows that the supplier's original ceiling price was $1.00. This means that his supplier's ceiling has been increased by 16%. Assuming X's maximum price under the General Maximum Price Regulation was $1.22 his new maximum price is the sum of that maximum price plus $.11 (that is 70% of the amount by which his supplier's price was increased) X's new maximum price is therefore $1.33.

Example: X, a wholesaler, buys bedspreads at $1.30 net, including freight, his supplier's present ceiling. He has secured a notice from his supplier which shows that the supplier's original ceiling price was $1.00. This means that his supplier's ceiling price has been increased by 30%. Assuming X's maximum price under the General Maximum Price Regulation was $1.25, his new maximum price is the sum of his old maximum price, $1.25, plus $.12, that is 122% of the amount by which his supplier's price was increased by more than 20%, and $.14, that is 70% of the amount by which his supplier's price was increased up to 20%. X's new maximum price is therefore $1.51.

(ii) The maximum price for a sale at wholesale by an "institutional wholesaler" (not including a sale by a jobber to a person who fabricates from the article sold) to an institutional, industrial or commercial user of the articles described in paragraph (1) shall be the sum of his maximum price computed in accordance with the General Maximum Price Regulation and the amount by which his supplier's price under Maximum Price Regulation 118 has been increased.

(3) *When maximum prices established under this paragraph may be used.* No seller may determine his ceiling price of an article under this paragraph unless he has secured from his supplier and has available for inspection by OPA a written notice stating the manufacturer's maximum price for that article as originally established under Maximum Price Regulation 118 and his current ceiling price therefor.

(4) *Special notice.* A seller pricing under this paragraph who is required to send a notice in accordance with section 2.7 (b) (6) shall, in lieu of the notice specified in that section, send the following notice:

STATEMENT OF OPA ADJUSTMENT CHARGE

The Office of Price Administration has granted us adjustments on the following items, one or more of which are billed on the attached invoice. The part of these adjustments which you are required take into account in pricing under Maximum Price Regulation 580 is stated separately as "wholesaler's OPA adjustment charge."

Style	Old ceiling	Wholesalers' OPA adjustment charge	New ceiling

When you price under Maximum Price Regulation 580 you may *not* include the above-stated "wholesaler's OPA adjustment charge" as part of your "net cost."

This amendment shall become effective April 20, 1946.

Issued this 15th day of April 1946.

Administrator.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum prices for sales of automatic electric temperature controls, as defined in Order No. 48 of MPR 591, manufactured by the White-Rodgers Electric Company of St. Louis, Missouri.* (1) The above mentioned manufacturer may determine his maximum price for his line of automatic electric temperature controls, as defined in Order 48 under Maximum Price Regulation 591, by increasing by 36 percent his prices on these items in effect on October 1, 1941, to each class of purchaser.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category.

(b) *Resellers maximum prices.* All resellers of the commodities covered by the order shall determine their maximum prices by multiplying their acquisition cost after the effective date of the order by their mark-up factor in effect on April 11, 1946.

This order shall not authorize a manufacturer who sells these commodities in assembly with another item to increase his maximum prices for such assembled item.

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first invoice after the adjustment granted by this order is put into effect.

Appendix A—Maximum prices for sales by manufacturers and retailers of new metal cots and double deck beds.

Section 1, *Purposes of this revised order.* This revised order establishes maximum prices for sales at all levels of sale of new metal cots, (folding and rollaway), and double deck beds.

Sec. 2. *Articles covered by this revised order.* The articles covered by this revised order are new metal cots (folding and rollaway) and double deck beds.

Sec. 3. *Manufacturers' maximum prices*—(a) *Listed maximum prices.* Manufacturers' f. o. b. factory l. c. l. maximum prices for sales to retailers of most articles covered by this revised order are listed in Appendix A of this revised order.

(b) *Unlisted maximum prices.* (1) After April 20, 1946, a manufacturer shall not sell, offer to sell, deliver or offer to deliver any article covered by this revised order for sales of which maximum prices have not been established under paragraph (a) of this section, or by an order of the Office of Price Administration, until he has applied to the Office of Price Administration, Washington 25, D. C, for the establishment of his maximum prices for such sales, and until such maximum prices have been established by an order of the Office of Price Administration under this section, or, if the manufacturer has received no contrary notification from the Office of Price Administration, by the expiration of the waiting period referred to in subparagraph (2) below.

The application shall set forth the following (unless the information has already been furnished to the Office of Price Administration, in which case the date and the office to which it was furnished, shall be stated):

(i) The identifying number or trade name of the article to be priced.

(ii) The reasons why the article to be priced cannot be priced under paragraph (a) of this section.

(iii) The detailed specifications and an illustration of the article to be priced.

(iv) An itemized breakdown of the manufacturer's current unit direct cost of the article to be priced, showing separately, according to his own system of accounts or regularly prepared operating statements, all major component unit direct cost factors. For the purpose of this revised order, unit direct costs include direct labor and direct material costs but do not include factory burden (sometimes called factory overhead or indirect manufacturing expenses), packaging and crating costs, royalties and patterns, tool and die cost and items of administrative, general and selling expenses. Also, state the number of units of production upon which the unit direct costs were based.

(v) An itemized breakdown of the manufacturer's current unit direct cost as described in (iv) above, of the basic model in Appendix A of this revised order which is most nearly comparable to the article being priced.

(vi) Price lists in effect during March, 1942 showing:

The article most nearly comparable to the article being priced;

The article most nearly comparable to the basic model mentioned in (v) above;

All price differentials covering variations in the construction of these articles.

If the manufacturer was not making and selling new metal cots and double deck beds in March, 1942 he shall send the first price list which was in effect after March, 1942 showing the above.

(vii) Illustrations of the articles referred to in (vi) above.

(viii) A statement of the manufacturer's customary discounts, allowances and other price differentials to different classes of purchasers in effect for sales of new metal cots and double deck beds during March, 1942, or if the manufacturer was not making and selling new metal cots and double deck beds during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

(ix) The proposed maximum prices to each class of purchaser for the article to be priced, and a statement of why the manufacturer believes those prices to be in line with the level of maximum prices established by this revised order.

Those proposed maximum prices shall be calculated as follows:

Step 1: The manufacturer shall determine the "unit direct cost" for the article being priced.

Step 2: The manufacturer shall select from the comparables for which maximum prices to retailers have already been established in Appendix A, the comparable which has a unit direct cost closest to the unit direct cost of the article being priced.

Step 3: The manufacturer shall determine the percentage markup over unit direct cost for the comparable selected.

Step 4: The manufacturer shall apply to the unit direct cost of the article being priced that percentage markup. The resulting price shall be the f. o. b. factory, l. c. l. maximum price for sales of the new article to retailers.

Step 5: The manufacturer shall calculate the retail ceiling price of the article by multiplying his proposed f. o. b. factory, l. c. l. maximum price to retailers by 184 percent, and rounding the result to the nearest five cents.

(2) In the absence of a contrary direction from the Office of Price Administration within 15 days after mailing his application, the manufacturer may offer the article in question for sale at the proposed maximum prices stated therein. If such proposed maximum prices are correctly computed they shall be subject to adjustment (but not retroactively) at any time by order of the Office of Price Administration if it appears that the maximum prices so established are out of line with the general level of prices established by this revised order. If the prices are incorrectly computed, the maximum price for a sale, offer to sell, or delivery of an article shall be the maximum price which is properly computed under the formula contained in this paragraph.

(c) If, before the issuance of this revised order, a manufacturer's maximum prices were established under paragraph (f) of Order No. 1470 for sales of any article covered by this revised order which is not listed in Appendix A, the manufacturer shall compute new maximum prices for his sales of that article as follows:

(i) He shall determine the weight of the wire in the article.

(ii) He shall determine the weight of the angles, flats and strips in the article.

(iii) He shall add to his maximum price established under paragraph (f) of Order No. 1470 the increase in his steel cost figured at $9.00 per ton in the case of wire; and $7.00 per ton in the case of angles, flats and strips.

The new maximum price so computed, the weight of the wire and the total weight of the angles, flats and strips, shall be reported by the manufacturer to the Office of Price Administration, Washington 25, D. C., before he first offers the article for sale at a price higher than the maximum price previously established for the article under Order No. 1470. If the reported maximum price is incorrectly calculated, the Office of Price Administration will issue an order establishing the correct maximum price for the manufacturer's sales of the article, which maximum price shall apply to all sales and deliveries of the article after April 20, 1946.

(d) If the manufacturer wishes to establish a maximum price for sales to a class of purchaser, or on terms and conditions of sale as to which he has no customary or established differentials to apply to his f. o. b. factory l. c. l. maximum prices, he shall file an application, giving the following information, with the Office of Price Administration, Washington, D. C.:

(i) The identifying number or trade name of the article being priced and its f. o. b. factory l. c. l. maximum price to retailers fixed in Appendix A or under this section.

(ii) The new class of purchaser to which he wishes to sell, or the new terms and conditions of sale which he wishes to use.

(iii) Why he cannot determine his maximum prices for his proposed sales by the use of his customary or established price differentials as provided in section 6.

(iv) The proposed maximum prices, and why the manufacturer believes them to be in line with the maximum prices established by or under this revised order.

After receipt of the manufacturer's application, the Office of Price Administration will issue an order establishing the manufacturer's maximum prices in line with the level of maximum prices otherwise established by this revised order. Such an order may also fix the maximum prices of resellers of the article. Maximum prices so established for manufacturers' sales will apply to all sales and deliveries of the article since Order No. 1470, or this revised order, became applicable thereto.

SEC. 4. *Jobbers' maximum prices.* This section establishes jobbers' maximum prices for sales of articles covered by this revised order. Section 7 of this revised order sets forth the obligations of jobbers in regard to the tagging of each article covered by this revised order with the retail maximum (ceiling) price. A jobber is a person who receives delivery of an article covered by this revised order, and resells it without substantially changing its form to a person other than the ultimate consumer.

(a) *Jobbers who sold the same manufacturer's article in March 1942.* To determine a jobber's maximum price for a sale under certain conditions of a particular manufacturer's new metal cot or double deck bed, the jobber shall follow the steps stated below:

(1) *First.* The jobber shall choose the most comparable new metal cot or double deck bed made by the same manufacturer which the jobber was selling in March 1942.

(2) *Second.* The jobber shall determine the dollar amount by which his price for the sale of this most comparable article under the same conditions in March 1942 exceeds the manufacturer's March 1942 regularly quoted f. o. b. factory, l. c. l. price to retailers for that article. "Regular quoted price" to retailers is the highest price at which the manufacturer made a substantial number of his sales to retailers.

(3) *Third.* The jobber shall then add the dollar amount determined in (2) above to the manufacturer's current f. o. b. factory, l. c. l. maximum price to retailers.

(4) *Fourth.* The jobber shall subtract five cents from the result of the third step. The resulting figure is the jobber's maximum price. However, if the resulting figure is an amount less than the manufacturer's maximum price for the particular sale, the jobber's maximum price shall be that maximum price of the manufacturer.

If the manufacturer did not have a regularly quoted f. o. b. factory, l. c. l. price to retailers in March 1942, the jobber shall determine his maximum price under the steps stated above, except that in the second step, he shall substitute

the manufacturer's "March 1942 regularly quoted f. o. b. factory carload price to retailers" for the manufacturer's "March 1942 regularly quoted f. o. b. factory l. c. l. price to retailers", and in the third step, he shall substitute the manufacturer's "March 1942 f. o. b. factory, carload maximum price to retailers", for the manufacturer's "March 1942 f. o. b. factory, l. c. l. maximum price to retailers".

(b) *Jobbers who did not sell the same manufacturer's article in March 1942.* If a jobber did not sell the same manufacturer's new metal cot or double deck bed in March 1942, his warehouse maximum price or his delivered maximum price for an article covered by this revised order shall be the maximum price established below:

(1) *Delivered maximum price.* The jobber's delivered maximum price shall be the manufacturer's delivered maximum price for sales to the same class of purchaser of the same article to the same point of delivery. If the manufacturer does not have such a delivered maximum price, the jobber's delivered maximum price shall be determined as follows:

(i) *First.* The jobber shall take the manufacturer's f. o. b. factory, l. c. l. maximum price to retailers for the same article, and

(ii) *Second.* The jobber shall add the freight cost actually incurred by him for shipment of the article from the manufacturer's factory to the jobber's point of delivery. The resulting sum is the jobber's delivered maximum price; except that the freight cost which may be added shall not exceed the freight charges for direct shipment of such an article from the manufacturer's factory to the jobber's point of delivery by the least expensive readily available public carrier.

(2) *Warehouse maximum price.* The jobber's f. o. b. warehouse maximum price shall be the manufacturer's warehouse maximum price for the same article f. o. b. warehouse in the same city. If the manufacturer has no such warehouse maximum price, the jobber's warehouse maximum price shall be determined as follows:

(i) *First.* The jobber shall take the manufacturer's f. o. b. factory, l. c. l. maximum price to retailers for the same article, and

(ii) *Second.* The jobber shall add the freight costs actually incurred by him for shipment of the article from the manufacturer's factory to the jobber's warehouse. The resulting sum shall be the jobber's warehouse maximum price; except that the freight cost which may be added shall not exceed the freight charges for direct shipment of such an article from the manufacturer's factory to the jobber's warehouse by the least expensive readily available public carrier.

SEC. 5. *Retailers' maximum prices.* (a) *Articles received by the retailer after the effective date of this revised order.* (1) *Listed maximum prices.* Maximum prices for sales at retail of most of the articles covered by this revised order are listed in Appendix A of this revised order.

(2) *Unlisted maximum prices.* (a) If the manufacturer's maximum price is determined under section 3 (b) of this revised order, or was established under paragraph (f) of Order No. 1470, the retailer's maximum price for his sale of the article is the retail ceiling price calculated by multiplying the manufacturer's f. o. b. factory l. c. l. maximum price to retailers by 184 percent. If the manufacturer's maximum price is established by an order of the Office of Price Administration under section 3 (d) of this revised order, the retailers' maximum price is the retail maximum price established by such order.

(b) *Articles in inventory on the effective date of this revised order.* If a retailer has an article covered by this revised order in his inventory on the effective date hereof, he shall determine his maximum (retail ceiling) price by multiplying his actual invoice cost for the article by 184 percent. Such articles must be tagged by the retailer as required by section 7 of this revised order.

(c) *Credit charges.* Charges for the extension of credit may be added to the maximum (ceiling) retail prices established by this revised order only to the extent permitted by this paragraph (c).

(1) Sellers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of articles covered by this revised order or similar types of articles may collect a charge for the extension of credit on sales under this revised order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Sellers who did not so state and collect an additional charge may collect a charge for the extension of credit only on installment-plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by the seller's closest competitor who made such a separately stated charge.

An installment-plan sale, as used in the above paragraph, means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately, or which otherwise does not conform to this section shall, for the purpose of this revised order be considered to be part of the price charged for the article sold.

(3) No seller may require as a condition of sale that the purchaser must buy on credit.

SEC. 6. *Terms of sale.* Maximum prices established by this revised order are subject to each seller's terms, discounts, allowances and other price differentials in effect during March 1942, or approved under any order or regulation of the Office of Price Administration.

SEC. 7. *Retail price label.* (a) No person shall sell, offer to sell, or deliver, and no person shall receive delivery of an article covered by this revised order in the course of trade or business unless there is securely attached to such article a durable tag containing in easily readable lettering the following:

O. P. A. has established a retail ceiling price of $——— (insert correct figure) for this (insert "metal cot" or "double deck bed"). Lower prices may be charged.

This tag may not be removed until after delivery to the consumer.

Every article delivered to a jobber or a retailer, after the effective date of this revised order must have the tag described above securely attached to it at all times while in his stock (including those in warehouse or storage).

(b) A manufacturer or jobber who delivers an article covered by this revised order shall attach the tag described in paragraph (a) above to it. In most cases the person who must attach the tag will be the manufacturer but in those cases where articles are in the stock of jobbers or retailers, when this revised order becomes effective, they must attach the tag. As stated in paragraph (a) it shall be the responsibility of each jobber and retailer to see to it that a tag as described in paragraph (a) is attached to every new metal cot and double deck bed in his stock.

SEC. 8. *Sales slips, receipts, and invoices.* After the effective date of this order, every seller (other than at retail) making a sale of an article covered by this revised order shall furnish the purchaser with a sales slip, receipt, invoice or other similar written evidence of purchase showing the date of sale, the type of article sold—(metal) rollaway cot, tubular end folding cot, etc.), the size of the article, the manufacturer's or seller's item number, the price charged for the article, the nature and amount of any additional charges, and the name and address of the seller and the purchaser. This sales slip, receipt or invoice or other written evidence of purchase shall be kept by the purchaser and a carbon copy of it kept by the seller for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 9. *Establishment of maximum prices in certain cases.* If any seller subject to this revised order fails to make the application for price approval which this order requires in certain instances, the Office of Price Administration may, either upon application, or upon its own motion, issue orders under this section establishing maximum prices which are in line with the level of maximum prices established by this revised order. Maximum prices, so established, shall be effective as of the date of first sale.

SEC. 10. *Relationship of this revised order to other regulations or orders—(a) Maximum Price Regulations Nos. 188 and 580, and the General Maximum Price Regulation.* This revised order supersedes the provisions of Maximum Price Regulations Nos. 188 and 580, and of the General Maximum Price Regulation, only to the extent that its provisions are inconsistent with the provisions of those regulations.

(b) *Supplementary Order No. 118 and Revised Supplementary Order No. 119.* Maximum prices established under this revised order may not be adjusted under Supplementary Order No. 118, Revised Supplementary Order No. 119, or Supplementary Order No. 133.

SEC. 11. *Revocation or amendment.* This revised order may be revoked or amended by the Price Administrator at any time.

[Region III Order G-23 Under Gen. Order 68]

STOCK MILLWORK IN THE COLUMBUS, OHIO, AREA

For the reasons set forth in an opinion issued simultaneously herewith, filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Franklin County in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in Table 1, remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached table, are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers, or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintains records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valid at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in Table 1, are base prices for sales to ultimate users and are subject to the following discounts:

(1) A discount of not less than 5% of these prices shall be granted to all bona fide purchasers for "resale on an installed basis" when buying in less than house lots;

(2) A discount of not less than 10% of these prices shall be granted to all bona fide purchasers for "resale on an installed basis" when buying in house lots regardless of the time and method of delivery by the seller;

(3) For all sales made to bona fide "re-sellers on an installed basis", a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis;

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and loaded on cars for shipment to a purchaser for resale on an installed basis or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the maximum permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA so long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
